

JUICE MANUAL

SKIN
JUICE

At Skin Juice we squeeze more care into skin care.

We've been juicing since 1996, using the wonders of botanical science to create unmissable, joyful self-care moments.

OUR APPROACH

Unmissable, joyful self-care moments that will make your skin smile.

Every botanical formulation that leaves Skin Juice HQ has been created with integrity, care and your experience at the heart.

Who wouldn't want to indulge in a daily moment of self-care? We want our customers to rediscover the joy of caring for their skin and it keeps them coming back (with a smile on their faces).

AROMA

Created to stimulate your senses, our unique blends of aromatic oils and hand-picked botanicals will delight, refresh, and colour your skincare routine.

LOOK

Every Skin Juice product is designed to be a pop of joy on your bathroom shelf. After all, what's a shelfie without a bright and bold Skin Juice bottle?

FEEL

The natural formulation. The texture. The way it feels on your skin. It's more than routine. It's a ritual.

Our (not-so) secret approach to creating an unmissable joyful skincare experience? Here it is.

1

IDEATE

We talk to our friends. Our community. Our customers. Our non-customers.

We talk to everyone and anyone who has a pain point that isn't being addressed by skincare brands. We listen. We take notes. We listen more. We take more notes. Then, we let the brainstorming, ideation and problem solving commence.

2

FORMULATE

Then, we begin researching, formulating, trying and testing (but never on animals).

Our approach? It's multi-sensory. We explore what we want every formulation to look, feel, and smell like. Every bottle, tube and tub in our range is carefully crafted in small batches and tweaked umpteen times until they are absolutely perfect.

We go beyond just addressing the pain point to formulate entire joyful skin experiences.

3

SOURCE

To ensure every formulation that leaves our HQ is premium quality for our Skin Juicers, we use only the best and healthiest natural ingredients that are free from harmful chemicals.

4

ALIGNMENT

For every product we create, time and time again, we check over every ingredient. Every formulation. Every component. To ensure that we are staying true to our values and our mission of creating nutrient rich Australian skincare. That works. That is ethical. That makes skin smile. We simply do not release any product that doesn't align with our values. All products are made right here in brilliant and bright Australia and never tested on animals.

Creating new formulations is not a speedy process.
And that's the way we like it.

5

DESIGN + NAMING

Our product names and designs are created to be joyful pops of colour in your every day.

To ignite happiness.

To brighten your bathroom shelf and your skin.

To make every moment of your Skin Juice ritual unmissable.

6

TO THE SHELVES OF OUR SKIN JUICERS

Nothing leaves the Skin Juice lab without Jo, our founder's, expert approval. Nothing. Nada. Zilch. Jo's been at the helm of Skin Juice from day one and has an extensive background as a beauty therapist.

Only once we're completely satisfied with every single element of our botanical formulation, our new product will be ready for you, our Skin Juicers. Ripe for skin-smiling magic.

Creating new formulations? It's not a speedy process.
And that's the way we like it.

The background of the entire page is a warm, solid orange color. Scattered across this background are several oranges. Some are whole, showing their textured skin and green stems. Others are sliced in half, revealing the bright orange, segmented pulp and the white pith. The oranges are arranged in a somewhat random pattern, with some in the foreground and others slightly behind, creating a sense of depth. The lighting is soft and even, highlighting the natural colors of the fruit.

Only the best + brightest leave our Juice Lab.

Freshly squeezed into our signature colour
pop bottles; we have combined everything
that's good + nothing that's not.

DAILY DIET

You nourish, energise and feed your body.
But why not do the same for your skin?

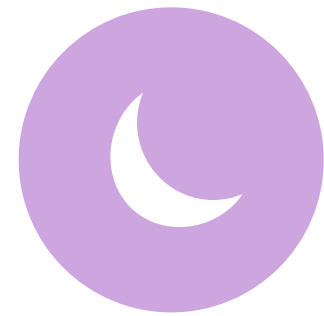

The Daily Diet is simple.
No complicated routines.
Just naturally effective, sustainable skincare.

Formulated with care, this skin delicious daily ritual brings together all the superfood nutrients you need to nourish, rejuvenate, revitalise and indulge your skin.

Designed to work in rhythm with the world around you, the Daily Diet includes a 3-step night time ritual, a 2-step morning ritual, and a side of Glow Boosters for when you need a little extra skincare treat.

The everyday ritual your skin deserves **at night:**

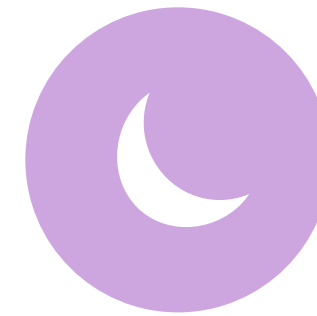

1 PURIFY WITH A JUICE CLEANSE

Before you tuck into bed each night, take a moment for you. To wash away the day with our nourishing, natural cleansers. Traditional cleansers can strip your skin of its natural protective oils. Our cleansers have been designed to melt onto your skin to dissolve makeup, dirt, and harmful bacteria. The result? Skin that feels fresh. Soft. Clean. And naturally purified.

2 HYDRATE WITH A SKIN DRINK

Hydrated skin is happy skin. And that's why each one of our Skin Drink toners has been created to quench your complexion's thirst. Packed with juicy antioxidants, follow your Juice Cleanse with a Skin Drink for a hydration boost that will replenish your skin.

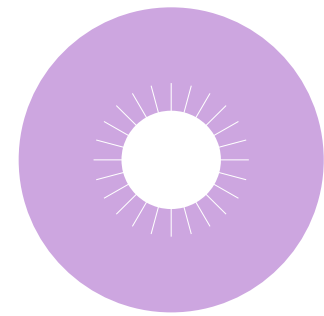

3 NOURISH WITH NIGHT NUTRITION

Bye bye emulsifier-rich night creams that disrupt the skin's natural oil rebalancing process. And hello dewy skin. While you sleep, the nourishing healing properties of our Night Nutrition face oils or balms will get to work restoring your skin's natural balance, and locking in hydration. And the best part? It does all the work while you dream.

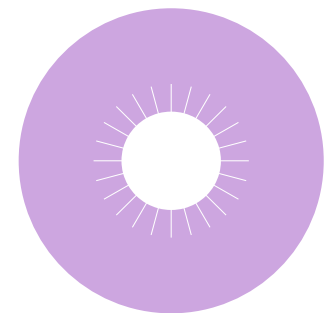

The everyday ritual your skin deserves in the morning:

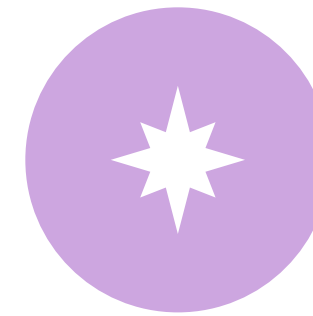

1 REFRESH WITH A SKIN DRINK

Our Daily Diet will help your skin naturally heal, balance, and rejuvenate itself overnight. For you? This means there's no need to wash, scrub, and cleanse in the morning. Instead, treat yourself to a delicious natural Skin Drink toner to keep your skin glowing all day long.

2 DEFEND WITH A DAY QUENCHER

For skin-smiling magic? Follow your morning Skin Drink with a Day Quencher face cream. Natural alchemy, straight from the blender, it'll protect your skin against pollutants, drying elements, and that greasy feeling. Designed specifically to target your skin concerns, our Day Quenchers will nourish your skin and gently guide you toward skin that looks and feels silky smooth.

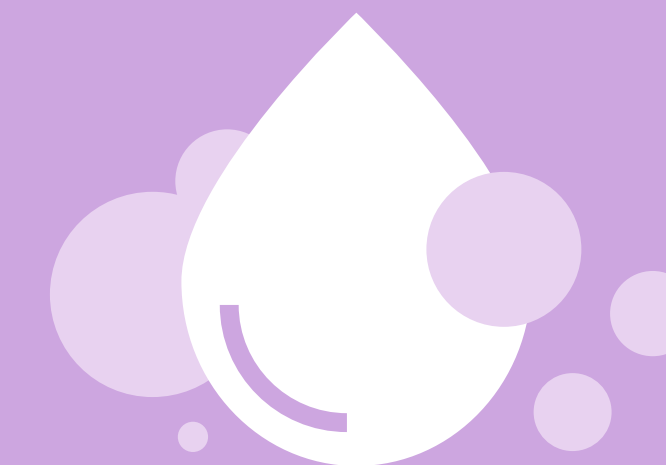

INDULGE WITH A GLOW BOOSTER

For that little skin delicious boost? Reach for a Glow Booster. Rich in nutrients and geared to glow, these treatments are designed to target specific areas. From serums, to eye care, to formulas for effective but gentle exfoliation – our Glow Boosters help complete any Daily Diet.

PURIFY WITH A JUICE CLEANSE

STEP 1 – NIGHT

Traditional cleansers, especially those that foam, can strip and dry the skin, exposing it to bad bacteria, and leaving it red and irritated.

Instead, our Juice Cleansers have been designed to melt onto your skin to dissolve makeup, dirt, and harmful bacteria. Your skin is left feeling fresh, soft and clean – never tight or dry (a sign that your skin has been left unprotected).
