

12 Volt 12 Ah
BATTERY
AGM DEEP CYCLE

RECHARGEABLE
AGM DEEP CYCLE BATTERY

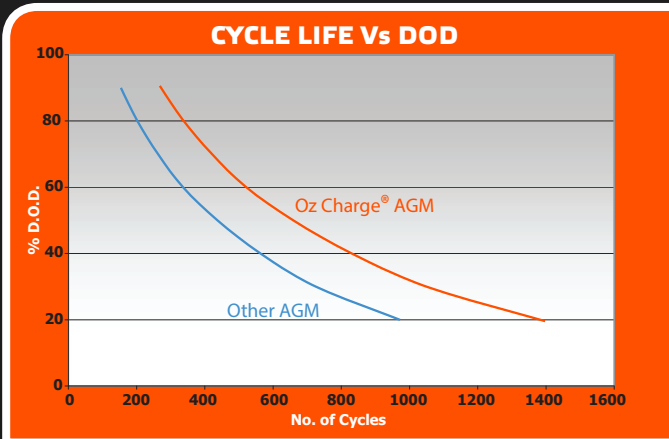

Ideal for: Medical equipment (Linak Jumbo), backup power, telecommunication, childrens toys, alarm systems etc...

- Completely sealed and maintenance free
- Tough ABS Case
- SpadeTerminals
- IATA approved for safe air travel
- 5 Year Design Life

OCB-12-12

FEATURES AND SPECIFICATIONS		CAPACITY Ampere Hour (Ah)		RESERVE CAPACITY Minutes Discharged	
Nominal voltage	12V	C1	7.6	75A	-
Cyclic voltage	14.1 - 14.4V (25°C)	C3	9.2	25A	-
Float voltage	13.6 - 13.8V (25°C)	C5	10.0	20A	-
Terminal type	F2	C10	11.3	15A	-
Weight	3.9 Kg	C20	12.3	8A	-
Dimensions	151 (L) x 98 (W) x 98(H) mm	C100	14.1		
Maximum Charging Amps	3.5A				
MCA	-				

SICK OF BATTERIES THAT LEAVE YOU UP THE CREEK?

A significant number of AGM batteries sold today are nothing more than a conventional standby/backup battery with the words "Deep Cycle" or "DC" slapped on. After years of R&D we are proud to announce the availability of our own Oz Charge® range of AGM batteries, made with a dedicated cyclic plate design that keeps working long after others are on the scrap heap, and unlike Calcium batteries they emit no dangerous gas so they can be installed in the boot or indoors of a caravan without health or explosion risks. Make sure your next battery is an OzCharge® AGM for the highest service life, reliability and peace of mind while you travel.

YOU CAN EXTEND THE LIFE OF YOUR BATTERY BY USING A COMPATIBLE OZ CHARGE® BATTERY CHARGER & MAINTAINER.
