THE PROBLEM

Each year, >60,000 horses in the U.S. will die of colic, largely overnight while unsupervised. What if they didn't have to? What if you could be alerted at the first sign of a problem so you could intervene sooner? Now you can be, with NIGHTWATCH®.

THE WORLD'S 1ST

THE SOLUTION: NIGHTWATCH®

Rest easy knowing this early warning system will alert you via text, phone call, and email at the first signs of colic and other forms of equine distress, such as foaling and being cast. This patented technology, embedded within a hand-stitched leather breakaway halter design by Freedman's, offers peace-of-mind protection so you can intervene sooner.
