1 Halter

Where old world tradition meets new world technology

This all-natural leather breakaway halter is made from 1" premium appointment-quality, triple-stitched, Havana-brown bridle leather with 18/8 stainless steel hardware, including a double-buckle crown and snap throat latch with rolled leather.

Made for both safety and comfort from the soft padded crown and noseband to the lightweight and supple feel in your hand and on your horse.

Email

MANUAL (alerts)

Set your own threshold for **heart rate, respiration, and/or activity level** indicating agitation, discomfort, or restlessness.

Learning period **NOT** required.

Performance

Pregnant

High-Risk

Distress

Be alerted to early signs of distress in your race or show horse to avoid unnecessary downtime, injury, or loss.

Wellness

Tailor your horse's daily training based upon their overnight activity and general wellbeing.

Mare

Monitor your pregnant mare closely for complications before, during, and after foaling.

Foal

Be alerted to early signs of birth/parturition and be by their side when they need you most.

Acute

Monitor your sick/injured or post-operative horse at home during recovery and share objective insight with your careteam for more informed decision making.

Chronic

Look after your senior horse, those who crib, windsuck, or weave, or any horse with suspect/borderline behavior or in need of rehab or step-down care.
