

The GM series is a luxuriously appointed family of traditional executive chairs— all generously sized with striking alloy features and fully upholstered in black leather.

The GM is a well priced option for any executive office environment and uses Alloy, not chrome. As chrome is environmentally questionable please consider the environment and choose accordingly.

Available in High and Medium back with a 5-point multi-locking, knee-tilt mechanism, alloy base and alloy arms with black arm pads. Also available as a medium back side-chair with cantilevered base.
