## HOMEFILE

- Reduced depth of 450mm
- Same height and width dimension as our basic cabinets
- Designed for the home office or any of those compact spaces in any office
- Fully welded body
- Homefiles are made with the same strength, quality and most importantly the durability of our office range
- Heavy duty runner system
- Folders can also be filed laterally with the addition of a lateral filing frame
- Anti-tilt drawer locking mechanism
- Cabinets are also available with the more recognised "Statewide" drawer front if required
- Durable powder coated paint finish

# STEP UP TO STATEWIDE

All products manufactured with a high quality, hot dipped Zinc Galvanised Steel.  
The best beginning by far.

Powder Coated • Lifetime Warranty • Heavy Duty Runner System  
Self Closing Drawers • Practical Recessed Handles

## STEEL LOCKERS

### Galvanised Metal Construction

All of our products are manufactured from zinc galvanized metal to ensure durability and a quality finish, particularly necessary in clothes lockers when used under wet or steamy conditions.

### Ventilated Doors

Sufficient venting in every door to allow for fresh air to circulate.

### Powdercoat Paint

A quality powdercoat paint is electrostatically applied and then baked to the galvanized metal surface to again improve the durability and finish.

### Locking System

A variety of locking methods are available with barrel / key or padlock operation.

### Strength

Lockers can encounter harsh treatment but with:

- A one piece wrap around body on each locker
- Door stiffener on single and two door lockers
- Welded body construction
- Robust internally fitted door hinging

You can expect a lifetime of use.

### Banking

For ease of installation or to increase stability and rigidity, lockers can be banked 2 or 3 wide in any configuration of door options.

### Three Point Locking

Single door lockers have 3 point locking for maximum security.
