ergo[®]
office

The system of choice.

Ergo Office is the affordable, high quality, complete office furniture system.

The key elements are:

Ergo Desking with the emphasis on smooth curves, cable management and leg choices.

Ergo Panels in Fabric and Melamine that form conventional workstations as well as innovative 'Off Module Walls' and freestanding divider screens.

Ergo Storage, a range of drawer pedestals, cupboards and bookcases with standard features that include full metal drawer boxes, optional locking and adjustable feet.

Ergo Accessories to compliment and customise each individual workpoint.

From the vast selection of standard components virtually limitless variations are possible.

The system of choice.

Free standing desks offer a choice of panel sides or metal legs.

Panel Widths	450	600	750	900	1000	1200	1500	(mm)

* Special sizes available upon request.

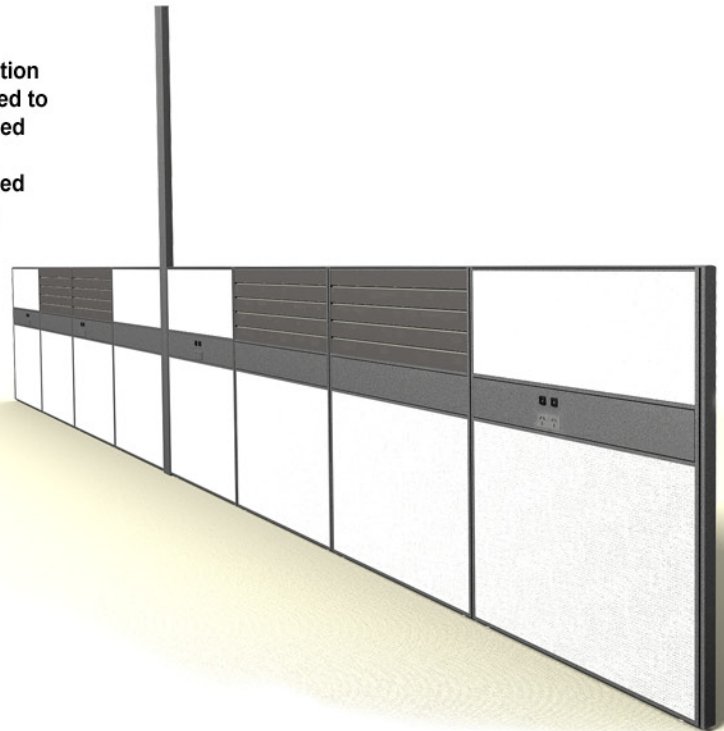

Ergo Off Module Solution

The Ergo Office Off Module Solution sets new standards for workstation flexibility and value. Ergo Panels with power and data access are used to form simple Off-Module walls with freestanding Ergo Desks positioned alongside where required.

Task specific requirements for each position are easily accommodated with selections from the extensive range of desk styles, panel types, storage units and accessories.

As requirements evolve, each workpoint can be easily changed, removed, or re-positioned with minimum disruption or cost. The 'Off Module Solution' is a complete office system with a refined aesthetic to compliment all types of office interiors.

The 'Off Module Wall' illustrated here is 1250mm high. This height allows an accessory panel to be incorporated above the 2 channel services duct. On the 'K' page (opposite) the height of the wall is 1650mm. This increases privacy and allows a shelf or hamper to sit above the accessory panel when suspended from the top transom rail. Any of the Ergo Panel types or sizes shown above can be used. This includes wave tops, glass infills, whiteboards etc: Services can be accessed via the ceiling (as shown) or from ducted skirtings, walls, pillars or even access floors.

Ergo Office offers flexible, stylish, affordable solutions for ever changing working environments.
