INSTALLATION STEPS

1. First, lift the backrest.

2. When you hear a click, the backrest is installed.

3. Install the hook to main body.

4. Connect the airplug.

5. Install the bottom hook to the seat.

6. Fasten the armrest with screw.
7. Next, install the seat, connect the two air plugs, and the wire firmly.

8. The chair pad is attached at the top with a zipper.

9. Next, install the chair pad. The chair pad is attached at the top with a zipper. Connect the pad wire to the main unit.

10. Wheels should be pushed firmly into the back of the chair. Secure the wheel with screws.

11. Connect the remote to the main body. Install the remote bag to the right armrest. Put the remote control into the bag, plug in the main power.
**2 TURN ON POWER SUPPLY**

1. Plug the power cord into three core socket with well grounding.
2. Turn on the power switch on the bottom of massage chair.

![Power Cord Connection](image1.png)

- Before switching on the chair, please make sure there is no damage on the power wire and other exposed wires.
- Make sure the power switch is off before the chair is connected to electricity.

**3 MOVE METHOD**

- There are moving rollers at the bottom of the chair.
- Raise the back to the highest point.
- Switch off and plug out the chair.
- Lift the front part of the chair as showed in the figure (one person raise the front part via holding moving holder, another person push the chair when holding the top of the chair), move the chair by the rollers.

![Move Method](image2.png)

**Installation Position**

**PLEASE LEAVE THE SPACE AROUND THE MASSAGE CHAIR WHEN PREPARING THE MASSAGE.**

1. Place a massage chair in a place where there is enough space for the back of the chair to recline and the stand to rise.
2. Make sure that there is at least 50 cm in the back of the massage chair and at least 50 cm in front of the massage chair. In order to prevent from signal interference, please keep at least 1m away from the TV, radio and other video and audio devices.

![Installation Diagram](image3.png)

**Surrounding Environment**

- Keep the massage chair away from damp places (for example: bathroom) to avoid electric leakage.
- Keep the massage chair away from high temperatures sources (for example: stove) to avoid fire or damage to leather material.

GROUNDING INSTRUCTIONS

This product must be grounded. If it should malfunction or breakdown, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This product is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

DANGER - Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or serviceman if you are in doubt as to whether the product is properly grounded. Do not modify the plug provided with the product – if it will not fit the outlet; have a proper outlet installed by a qualified electrician.

AFTER USING THE CHAIR

- Please power off the chair and unplug power cable from power the supply socket after using disconnect the controller and store carefully.
- Please power off the chair and unplug the chair from the power supply socket when the chair is not in use, to avoid children to start the chair accidentally.
- Please store well the chair if it is not in use for a long time.

METHODS OF STORAGE

- Do not dismount the back of the chair.
- Keep the massage chair free of dust.
- Cover the chair with dust-free cloth to prevent dust from collecting.
- Do no store in a hot, humid, damp place or in direct sunlight or heat.
- Do not store in an overly cold place.

MAINTENANCE

- Before cleaning unplug from electrical source to avoid shock.
- Clean the cloth surface with neutral detergent or special mild detergent for cloth.
- Dust can be cleaned off with a damp cloth of mild detergent and air dry.
- Do not spray pesticide on device.
- Specified cleaner can be used on the leather, plastic, and dried with a cloth.
- Do not use a damp cloth on the electronic components which can cause shock and damage.
- The leather covers (headrest, seat cushion, foot cushion) can be removed for cleaning.

KIND REMINDING

During daily use, please check whether the following phenomenon exist: Scorched smell
- When touch the wire, the power is on, but sometimes off.
- The power supply cord is hot.

Other abnormal phenomenon

If problems happen above, please turn off power supply and contact the distributor or manufacturer for assistance.
