1. GST IN INDIA – AN INTRODUCTION

Contents

- Direct and Indirect Taxes
- Genesis of GST in India
- Framework of GST
- GST Council
- Deficiencies of erstwhile Acts
- Features of GST

Although this Chapter has been deleted by ICAI from May 24 attempt onwards. However, a part of the chapter has been included under the chapter of supply as an Annexure, it is recommended that students must study this chapter since it will help them having a strong base in understanding the GST related concepts.

1. INTRODUCTION

- **Direct Taxes:** A direct tax is a kind of charge, which is imposed directly on the taxpayer and paid directly to the Government by the persons (juristic or natural) on whom it is imposed. A direct tax is one that cannot be shifted by the taxpayer to someone else. A significant direct tax imposed in India is income tax.
- **Indirect Taxes:** If the taxpayer is just a conduit and at every stage the tax- incidence is passed on till it finally reaches the consumer, who really bears the brunt of it, such tax is indirect tax. An indirect tax is one that can be shifted by the taxpayer to someone else.
- Also called consumption taxes, they are regressive in nature because they are not based on the principle of ability to pay.
- Indirect taxation in India witnessed a paradigm shift on **1st of July, 2017** with usherance into a unified indirect tax regime wherein a large number of Central and State indirect taxes were amalgamated into a single tax - Goods and Services Tax (GST).
- The introduction of GST has been a very significant step in the field of indirect tax reforms in India. There are several Central and State taxes which got subsumed in GST.
- GST extends to whole of India **including the State of Jammu and Kashmir**.

India – covers

- Its Territory,
- Territorial waters (Up to 12 nautical miles)
- Continental shelf (Up to 200 nautical miles)
- Exclusive Economic Zone
- Soil under the water
- And air space above territory and territorial waters.

2. GENESIS OF GST IN INDIA

In the year 2000, the then Prime Minister mooted the concept of GST and set up a committee to design a Goods and Services Tax (GST) model for the country

In 2003, the Central Government formed a task force under Vijay Kelkar, known as Kelkar committee which strongly recommended fully integrated GST on national basis. But GST missed several deadlines.

The Union Finance Minister, Shri P. Chidambaram, while presenting the Union Budget (2006-2007), announced that GST would be introduced from April 1, 2010.

In 2014, the NDA Government tabled the Constitution (122nd Amendment) Bill, 2014 on GST by the then Finance minister, Mr. Arun Jaitley.

on 27th March, 2017, the GST bill was introduced in Lok Sabha and Rajya Sabha

on 29th March, 2017, GST Act was passed by Parliament

on **12th April, 2017**, President's assent was received

With effect from **1st July, 2017**,
the historic indirect tax reform – ***GST was introduced***

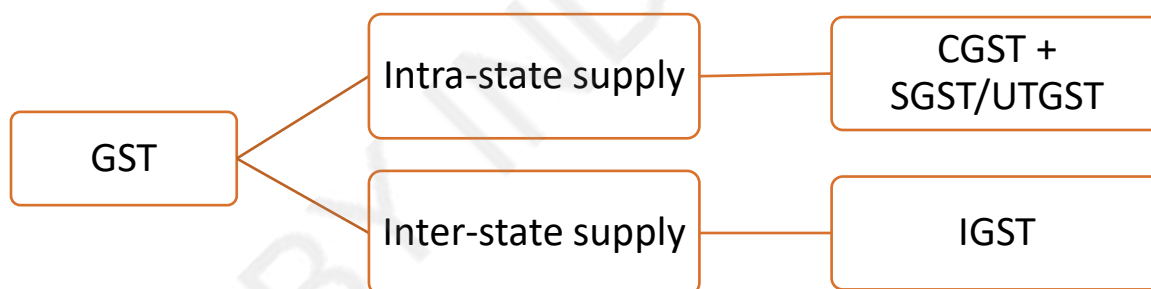

- France was the first country to implement GST in 1954.
- Presently, more than 160 countries have implemented GST in some form or the other because

this tax has the capacity to raise revenue in the most transparent and neutral manner.

3. FRAMEWORK OF GST

3.1 Dual GST

- India has adopted a Dual GST model in view of the federal structure of the country.
- Consequently, Centre and States simultaneously levy GST on taxable supply of goods or services or both, which takes place within a State or Union Territory.
- Now, the Centre also has the power to tax intra-State sales & States are also empowered to tax services.
- GST is a destination-based tax applicable on all transactions involving supply of goods and services for a consideration subject to exceptions thereof.
- GST in India comprises of
 - Central Goods and Services Tax (**CGST**) - levied and collected by Central Government,
 - State Goods and Services Tax (**SGST**) - levied and collected by State Governments/Union Territories with Legislatures and
 - Union Territory Goods and Services Tax (**UTGST**) - levied and collected by Union Territories without Legislatures, on **intra-State supplies** of taxable goods and/or services.
 - Integrated Goods and Services Tax (**IGST**) - levied by Centre on all inter-State supplies which is the sum total of CGST and SGST/UTGST.

- There is **single legislation** - **CGST Act, 2017** - for levying CGST.
- Similarly, Union Territories without Legislatures are governed by **UTGST Act, 2017** for levying UTGST.
- States and Union territories with their own legislatures have their own GST legislation for levying SGST.
- Union Territories **without Legislatures** -

• Andaman and Nicobar Islands	• Lakshadweep
• Dadra and Nagar Haveli	• Daman and Diu
• Chandigarh	• Ladakh

- Union territories with their own legislatures

• Delhi	• Puducherry
---------	--------------

- Though there are multiple SGST legislations, the basic features of law, such as chargeability, definition of taxable event and taxable person, classification and valuation of goods and services, procedure for collection and levy of tax and the like are uniform in all the SGST legislations, as far as feasible. This is necessary to preserve the essence of dual GST.

3.2 Constitution (101 Amendment) Act, 2016

- **Article 265:** Article 265 of the Constitution of India prohibits arbitrary collection of tax. It states that "no tax shall be levied or collected except by authority of law". The term "authority of law" means that tax proposed to be levied must be within the legislative competence of the Legislature imposing the tax.
- **Article 245:** Part XI of the Constitution deals with relationship between the Union and States. The power for enacting the laws is conferred on the Parliament and on the Legislature of a State by Article 245 of the Constitution.
- **Article 246:** It gives the respective authority to Union and State Governments for levying tax. Whereas Parliament may make laws for the whole of India or any part of the territory of India, the State Legislature may make laws for whole or part of the State.
- **Seventh Schedule to Article 246:** It contains three lists which enumerate the matters under which the Union and the State Governments have the authority to make laws.

- Entries 82 to 91 of List I enumerate the subjects where the Central Government has power to levy taxes. Entries 45 to 63 of List II enumerate the subjects where the State Governments have the power to levy taxes. Parliament has a further power to make any law for any part of India not comprised in a State even if such matter is included in the State List.
 - **Income tax is levied by virtue of Entry 82** - Taxes on income other than agricultural income and
 - **Customs Duty vide Entry 83** - Duties of customs including export duties of the Union List.
 - Power to levy Goods and Services Tax (GST) has been conferred by Article 246A of the Constitution which was introduced by the Constitution (101st Amendment)

Act, 2016.

- **Need for Constitutional Amendment -**

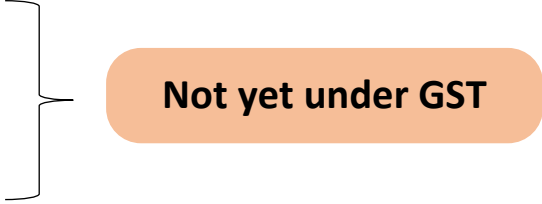

- The Constitutional provisions hitherto had delineated separate powers for the Centre and the States to impose various taxes.
 - Whereas the Centre levied excise duty on all goods produced or manufactured in India
 - The States levied Value Added Tax once the goods entered the stream of trade upon completion of manufacture.
 - In the case of inter-State sales, the Centre had the power to levy a tax (the Central Sales Tax), but the tax was collected and retained entirely by the States.
 - Services were exclusively taxed by the Centre together with applicable cesses, if any.
 - Besides, there were State specific levies like entry tax, Octroi, luxury tax, entertainment tax, lottery and betting tax, local taxes levied by Panchayats etc.
- Introduction of the GST required amendment in the Constitution so as to enable integration of the central excise duty, additional duties of customs, State VAT and certain State specific taxes and service tax into a comprehensive Goods and Services Tax and to empower both Centre and the States to levy and collect it.
- Consequently, Constitution (101st Amendment Act), 2016 (hereinafter referred to as Constitution Amendment Act) was passed. It has 20 sections. Newly inserted Article 279A empowering President to constitute GST Council.

3.3 Taxes subsumed by GST

Central Taxes	State Taxes
<ul style="list-style-type: none">• Central excise duty & additional excise duties• Service tax• Excise Duty under Medicinal & Toilet Preparation Act• Additional duties of Customs (CVD)• Special additional duties of customs (SAD)• Central Sales Tax• Central Surcharges and cess	<ul style="list-style-type: none">• Sales tax / VAT• Luxury tax• Entry Tax & Purchase tax• Entertainment and amusement tax (except those levied by local bodies)• Taxes on advertisements• Tax on lottery, betting and gambling• State Surcharges and cess

3.4 Significant provisions of Constitution (101st Amendment) Act, 2016

- **Article 246A:** This article grants power to Centre and State Governments to make laws with respect to GST imposed by Centre or such State.
 - Centre has the exclusive power to make laws with respect to GST in case of inter-State supply of goods and/or services.

- However, in respect to the following goods, the aforesaid provisions shall apply from the date recommended by the GST Council:
 - Petroleum Crude
 - High Speed Diesel
 - Motor spirit (commonly known as Petrol)
 - Natural Gas
 - Aviation Turbine Fuel (ATF)
- 

Not yet under GST
- Article 269A: This article stipulates that GST on supplies in the course of inter- State trade or commerce shall be levied and collected by the Government of India and such tax shall be apportioned between the Union and the States in the manner as may be provided by Parliament by law on the recommendations of the Goods and Services Tax Council.
 - **Import of goods or services** or both into India will also be deemed to be supply of goods and/ or services in the course of Inter-State trade or Commerce. Central Government has power to levy IGST on the import transactions which were earlier subject to Countervailing duty under the Customs Tariff Act, 1975.
 - Where an amount collected as IGST has been used for payment of SGST or vice versa, such amount shall not form part of the Consolidated Fund of India. This is to facilitate transfer of funds between the Centre and the States.
 - Parliament is empowered to formulate the principles regarding place of supply and when supply of goods, or of services, or both occurs in inter- State trade or commerce

4. GST COUNCIL

- Article 279A of the Constitution empowers the President to constitute a joint forum of the Centre and States namely, Goods & Services Tax Council (GST Council).
- President constituted the GST Council on 15th September, 2016.

Chairman	Central Govt. Representative	Union Finance Minister
Member	Central Govt. Representative	Union Minister of State (Revenue / Finance)
Members	State Govt. Representatives (For each state & UT with legislature)	Ministers in charge of Finance/Taxation or Nominated Minister

- Function of the Council - Make recommendations to the Union and the States on important issues like tax rates, exemptions, threshold limits, dispute resolution etc.
- Council recommendations - the special provisions with respect to the Special Category States. There are **11 Special Category States**, namely, States of Arunachal Pradesh, Assam, Jammu and Kashmir, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, Tripura, Himachal Pradesh and Uttarakhand.

- Decision of the GST Council - taken by a majority of not less than three-fourths of the weighted votes of the members present and voting.
 - Vote of the Centre has a weightage of one-third of total votes cast and
 - votes of all the State Governments taken together - has a weightage of two-thirds of the total votes cast, in that meeting.

5. IMPORTANT DEFINITIONS

Goods and Service Tax (GST) – Article 366 (12A) – means any tax

- On supply of goods, or services or both
- Except taxes on the supply of the alcoholic liquor for human consumption
 - **Note:** The power to levy tax on alcoholic liquor for human consumption is with the state government.

Goods - Sec. 2(52) of CGST Act – means every kind of movable property

- other than money and securities
- but includes actionable claim, growing crops, grass and things attached to or forming part of the land which are agreed to be severed before supply or under a contract of supply.

Securities - Sec. 2(101) of CGST Act – Shall have the same meaning as assigned to it in section 2(h) of securities contract (Regulation) Act, 1956.

Securities include - shares, scrips, stocks, bonds, debentures, debenture stock or other marketable securities of like nature in or of any incorporated company or other body corporate. It also includes derivatives, units of mutual fund or security receipts.

Money – Sec. 2(75) of CGST Act – means the Indian legal tender or

- any foreign currency, cheque, promissory note, bill of exchange, letter of credit, draft, pay order, traveller cheque, money order, postal or electronic remittance or any other instrument,
- recognised by the Reserve Bank of India,
- when used as a consideration to settle an obligation or exchange with Indian legal tender of another denomination,
- but shall not include any currency that is held for its numismatic value.

Actionable claim- Section 2(1) of CGST Act read with section 3 of the Transfer of Property Act, 1882 – means a claim to any debt,

- other than a debt secured by
 - mortgage of immovable property or
 - hypothecation or pledge of movable property, or
- to any beneficial interest in movable property not in the possession, either actual or constructive, of the claimant,
- which the civil courts recognise as affording grounds for relief, whether such debt or beneficial interest be existent, accruing, conditional or contingent.

Services- Sec. 2(102) of CGST Act – means anything other than goods, money and securities

- but includes activities relating to the use of money or its conversion by cash or by any other mode, from one form, currency or denomination to another form, currency or denomination for which a separate consideration is charged.

6. DEFICIENCIES IN ERSTWHILE ACTS

- **Double taxation of a transaction as both goods and services** as the distinction between goods and services was often blurred, e.g. software was liable to both VAT and service tax.
- CENVAT did not include chain of value addition in the distributive trade below the stage of production. Similarly, in the State-level VAT, CENVAT load on the goods was not removed leading to the **cascading of taxes**. To illustrate, when the goods were manufactured and sold, both central excise duty (CENVAT) and State-Level VAT were levied.
- Though CENVAT and State-Level VAT were essentially value added taxes, set off of one against the credit of another was not possible as CENVAT was a central levy and State-Level VAT was a state levy
- **VAT on goods was not integrated with tax on services**, at the State level, to remove the cascading effect of service tax. With service sector being the fastest growing sector in the economy, the exclusion of services from the tax base of the States potentially eroded their tax- buoyancy.
- **CST** was another source of distortion in terms of its **cascading nature** since it was non-VATABLE. Being an origin-based tax, CST was also against one of the basic principles of consumption taxes that tax should accrue to the jurisdiction where consumption takes place.
- There were **several taxes in the States**, such as, Luxury Tax, Entertainment Tax, etc. which were not subsumed in the VAT.

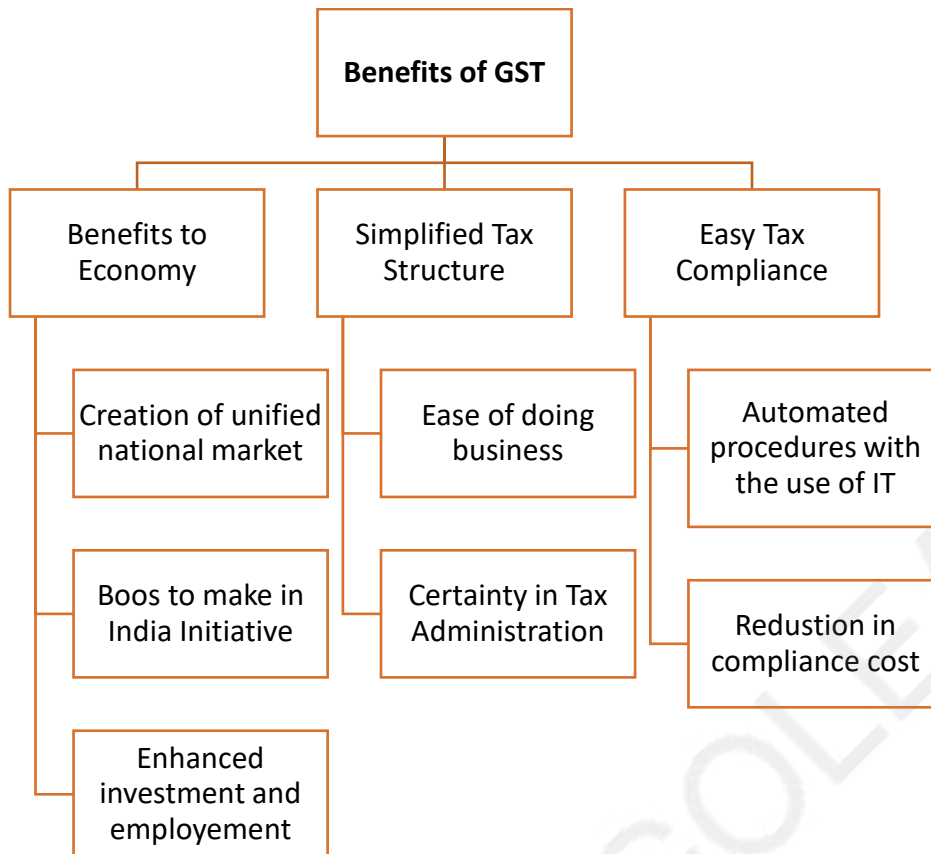

7. FEATURES OF GST

- **Comprehensive tax structure** - GST is a comprehensive tax structure covering both goods and services. This addresses all the above-mentioned deficiencies.
- **Value added tax** - GST is a value added tax levied on manufacture, sale and consumption of goods and services. In the GST regime, the major indirect taxes have been subsumed in the ambit of GST.
- **Continuous chain of tax credits** - GST offers comprehensive and continuous chain of tax credits from the producer's point/ service provider's point up to the retailer's level/consumer's level thereby taxing only the value added at each stage of supply chain.
- **Tax borne by final consumer** - The supplier at each stage is permitted to avail credit of GST paid on the purchase of goods and/or services and can set off this credit against the GST payable on the supply of goods and services to be made by him. Thus, only the final consumer bears the GST charged by the last supplier in the supply chain, with set-off benefits at all the previous stages
- **No cascading effect of taxes** - Since, only the value added at each stage is taxed under GST, there is no tax on tax or cascading of taxes under GST system. GST does not differentiate between goods and services and thus, the two are taxed at a single rate.
- **Goods and Services outside GST purview** -

- **Alcoholic liquor for human consumption:** is outside the realm of GST. The manufacture/production of alcoholic liquor continues to be subjected to State excise duty and inter-State/intra-State sale of the same is subject to CST/VAT respectively.
- **Petroleum crude, diesel, petrol, ATF and natural gas:** As regards petroleum crude, diesel, petrol, ATF and natural gas are concerned, they are not presently leviable to GST. GST will be levied on these products from a date to be notified on the recommendations of the GST Council. Till such date, central excise duty continues to be levied on manufacture/ production of petroleum crude, diesel, petrol, ATF and natural gas and inter- State/intra-State sale of the same is subject to CST/ VAT respectively.
- **Tobacco:** Tobacco is within the purview of GST, i.e. GST is leviable on tobacco. However, Union Government has also retained the power to levy excise duties on tobacco and tobacco products manufactured in India. Resultantly, tobacco is subject to GST as well as central excise duty.
- **Real estate sector:** Real estate sector has been kept out of ambit of GST, i.e. GST will not be levied on sale/purchase of immovable property.

8. BENEFITS OF GST

1. INTRODUCTION

- Before levying any tax, taxable event needs to be ascertained. It determines the point at which tax would be levied.
- The GST laws lays down one comprehensive taxable event i.e. "Supply" - Supply of goods or services or both. Various taxable events namely manufacture, sale, rendering of service, purchase, entry into a territory of State etc. have been done away with in favour of just one event i.e. Supply.
- In the GST regime, the entire value of supply of goods and/or services is taxed in an integrated manner, unlike the earlier indirect taxes, which were charged independently either on the manufacture or sale of goods, or on the provisions of services.

2. MEANING AND SCOPE OF SUPPLY

- The definition of 'supply' as contained in section 7 of the CGST Act is an inclusive definition and does not define the term exhaustively.

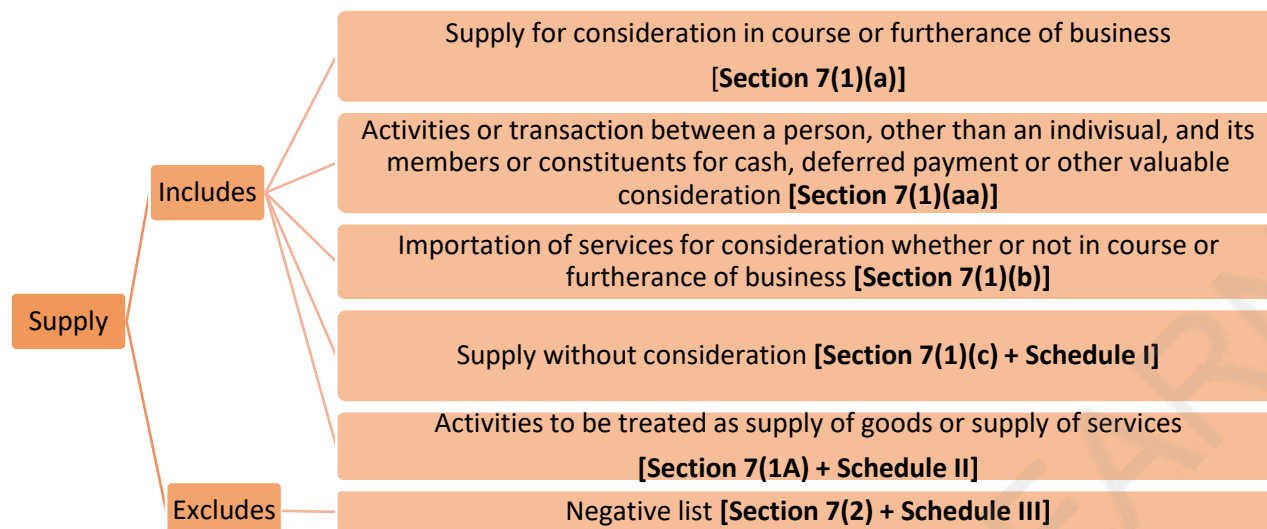

- The terms used in the above definition are explained below: -
 - Sale** - Sale involves transfer of ownership in goods or title to property from one person to another person for consideration.
 - Transfer** - where the ownership may not be transferred but the right in the goods is transferred.
 - Barter** - It means, the exchange of goods and productive services for other goods and productive services, without the use of money.
 - Exchange** - when two persons mutually transfer the ownership of one thing for the ownership of another, along with money being paid as part of consideration, the transaction is called an exchange.
 - Licence** - where one person grants to another, or to a definite number of other persons, a right to do or continue to do in or upon the immovable property of the granter, the right is called a licence.
 - Rentals** - Periodical payment for use of another's property. Rent is to pay on monthly.
 - Lease** - A lease is an agreement whereby the lessor conveys to the lessee in return for a payment or series of payments the right to use an asset for an agreed period of time. A lease may be financial lease or operating lease.
 - Disposal**- Disposal normally considered as selling of assets as scrap.
- In the course of business** - Whatever activities a person carries out regularly for running business, trade or commerce are called as in the course of business.
- Furtherance of business** - Such new activities which are undertaken to develop or expand the business are called as furtherance of business.
- Anything supplied other than goods and services is outside the scope of supply.

Consideration [Sec 2(31)] – In relation to the supply of goods or services or both includes—

- (a) Any payment made or to be made, whether in money or otherwise,
- (b) The monetary value of any act or forbearance, in respect of, in response to, or for the inducement of, the supply of goods or services or both, —
 - Whether by the recipient or by any other person
 - But shall not include any subsidy given by the Central Government or a State Government.
 - However, a deposit given in respect of the supply of goods or services or both shall not be considered as payment made for such supply unless the supplier applies such deposit as consideration for the said supply

- From the above definition, the following are importation:
 - **Consideration** not only includes money but covers anything which might be possibly done, **given or made in exchange for something else.**
 - Consideration need not always flow from the recipient of the supply. It can also be **made by a third person.**
 - An important feature of consideration is **quid pro quo (something for something)**. Donations received by charitable organisations are treated as considerations only if there exists an obligation on the part of the recipient of the donation or gift to do anything in return for the donor.
 - GST is not leviable on gifts/ donations
 - if it is made to a charitable organisation
 - if it is payment has the character of the gift / donation and
 - if the purpose is philanthropic (i.e. no commercial gain) and not in the nature of advertisement.
 - When the name of the donor is displayed in the recipient's premises as an expression of gratitude and is not aimed at giving publicity to the donor in such a manner that it amounts to advertising of his business, then there is no supply of service for consideration. [Circular No. 116/35/2019 GST dated 11.10.2019]
 - **Art works sent by artists to galleries as exhibition** - Not a Supply as no consideration flows from the galleries to the artist.
[Circular No. 22/22/2017 GST dated 21.12.2017]
 - No supply of service by the insured to the insurance company in lieu of 'No Claim Bonus' offered by said insurance company to him - there is no supply provided by the insured to the insurance company in form of agreeing to the obligation to refrain from the act of lodging insurance claim during the previous year(s) and NCB cannot be considered as a consideration for any supply provided by the insured to the insurance company.
[Circular No. 186/18/2022 GST dated 27.12.2022]
 - **Any subsidy given by the Central Government or a State Government is NOT considered.**

- A deposit shall not be considered as payment made for such supply unless the supplier applies / appropriates such deposit as consideration for the said supply.
- Any transaction involving supply of goods and/or services without consideration is not a supply unless it is deemed to be a supply under Schedule I of the CGST Act.

3. IMPORTATION OF SERVICE FOR A CONSIDERATION WHETHER OR NOT IN COURSE OR FURTHERANCE OF BUSINESS - [SECTION 7(1)(B)]

1. It is applicable only for services and not for goods
2. It should be import of service, where
 - i. The supplier of service is located outside India;
 - ii. The recipient of service is located in India; and
 - iii. The place of supply of service is in India.
3. Services shall be provided with consideration
4. Services may be in the course or furtherance of business or not in the course or furtherance of business.

4. SUPPLY WITHOUT CONSIDERATION - DEEMED SUPPLY [SECTION 7(1)(C)] READ WITH SCHEDULE I

- There are instances where an activity or transaction is treated as supply, ***even if the same is made without consideration.***
- These are specifically mentioned in Schedule I appended to the CGST Act. The same has been discussed below:

4.1 - Permanent Transfer/Disposal of Business Assets where input tax credit has been availed on such assets.

- In order to qualify as supply under this para, following conditions need to be satisfied:

- There must be a disposal or transfer of business assets
- Transfer/disposal must be permanent
- ITC must have been availed on such business assets.
- However permanent transfer/disposal of following business assets, without consideration, will not be deemed as supply:
 - Business assets on which ITC is blocked/not available under GST
 - Business assets though eligible for ITC, ITC has not been availed by the registered person.
- It is important to note that the term business assets have not been defined under the GST law.
- This clause is wide enough to cover transfer of business assets from holding to subsidiary company for nil consideration.

4.2 - Supply between Related Person or Distinct Person

- Supply of goods or services or both between 'related persons' or between 'distinct persons' as specified in section 25, will qualify as supply **provided it is made in the course or furtherance of business**.

4.2.1 - Distinct Persons

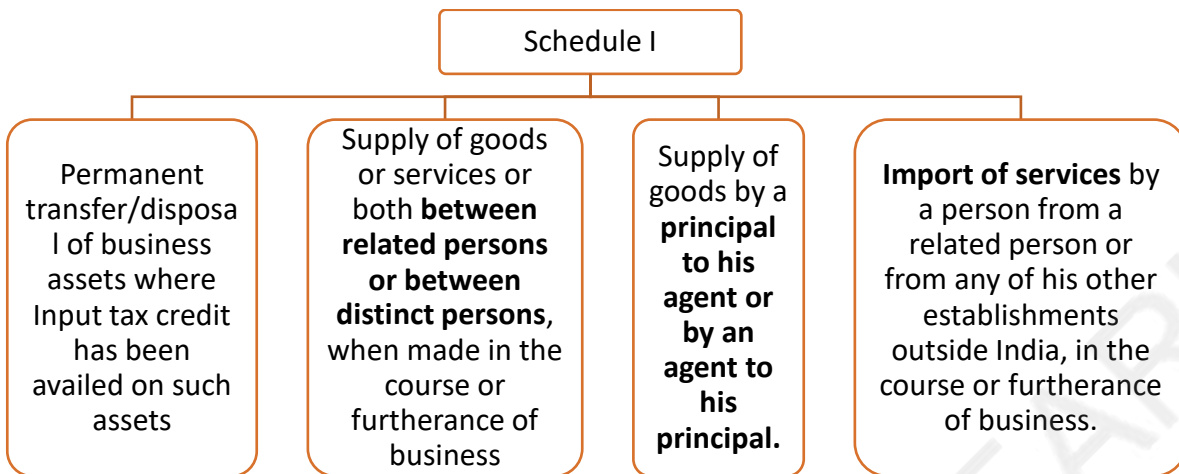

- Under GST law, a supplier is required to obtain **State-wise registration**.
- He has to obtain registration in every State/UT from where he makes a taxable supply provided his aggregate turnover exceeds a specified threshold limit.
- Further, where he has multiple places of business in a State/UT, he has the option either to get a single registration for said State/UT or to get separate registrations for each place of business in such State/UT.

Distinct persons - A person who has obtained/is required to obtain more than one registration, whether in one State/Union territory or more than one State/Union territory shall, in respect of each such registration, be treated as distinct persons. [section 25(4)]

Establishments of Distinct persons - where a person who has obtained or is required to obtain registration in a State or Union territory in respect of an establishment, has an establishment in another State or Union territory, then such establishments shall be treated as establishments of distinct persons. [sec 25(5)]

- Transactions between different locations (with separate GST registrations) of same legal entity (e.g., **stock transfers or branch transfers**) will qualify as 'supply' under GST as these are transactions between distinct persons.

- However, transfer between two units of a legal entity under single registration (apparently within same State) will not be considered as supply. For e.g.: supply of goods from factory (In Lucknow) to retail showroom (In Kanpur) in same State(Uttar Pradesh) under single registration does not constitute supply.

4.2.2 - Related Persons

As per Explanation to Section 15,

- a) persons shall be deemed to be “related persons” if—
 - i. such persons are **officers or directors** of one another’s businesses;
 - ii. such persons are legally recognized **partners** in business;
 - iii. such persons are **employer and employee**;
 - iv. any person directly or indirectly owns, **controls or holds 25% or more** of the outstanding voting stock or shares of both of them;
 - v. one of them **directly or indirectly controls the other**;
 - vi. both of them are **directly or indirectly controlled by a third person**;
 - vii. together they **directly or indirectly control a third person**; or
 - viii. they are **members of the same family**;
- b) the term “person” also includes **legal persons**;
- c) persons who are **associated in the business** of one another in that one is the sole agent or sole distributor or sole concessionaire, howsoever described, of the other, shall be deemed to be related.

- Difference between Agent and Distributor

Agent

Procures from the company and supplies to customers on behalf of the company for **commission**

Distributor

Purchases from the company and sells to customers in his own capacity for **profits**

Family [Section 2(49)] – means,

- The spouse and children of the person, and
- The parents, grand-parents, brothers and sisters of the person if they are wholly or mainly dependent on the said person.

Person [Section 2(84)] – includes,

- a) an individual;
- b) a Hindu Undivided Family;
- c) a company;
- d) a firm;
- e) a Limited Liability Partnership;
- f) an association of persons or a body of individuals, whether incorporated or not, in India or outside India;
- g) any corporation established by or under any Central Act, State Act or Provincial Act or a Government company as defined Sec 2 (45) of the Companies Act, 2013.
- h) any body corporate incorporated by or under the laws of a country outside India;
- i) a co-operative society registered under any law relating to co-operative societies;
- j) a local authority;
- k) Central Government or a State Government;
- l) society as defined under the Societies Registration Act, 1860;
- m) trust; and
- n) every artificial juridical person, not falling within any of the above

4.2.3 – Supply of goods or services or both between an employer and employee:

- Services provided by an employee to the employer in the course of or in relation to his employment are not treated as supply [Schedule III of CGST Act]

- If services such as membership of a club, health and fitness centre etc. are provided free of charge to all the employees by the employer, the same will not be subjected to GST.
- The same would hold true for free housing to the employees, when the same is provided in terms of the contract between the employer and employee and is part and parcel of the cost-to company (CTC)
- ***Gifts up to Rs. 50,000 in value in a financial year by an employer to an employee shall not be treated as supply of goods or services or both.***
- The term 'gift' has not been defined in the GST law. In common parlance, gift is made without consideration, is voluntary in nature and is made occasionally. It cannot be enforced in a court of law.

4.3 Principal - Agent

- Supply of goods—
 - by a principal to his agent where the agent undertakes to supply such goods on behalf of the principal; or
 - by an agent to his principal where the agent undertakes to receive such goods on behalf of the principal

is considered as supply.

- ***Only supply of goods and not supply of services*** is covered here. the supply of services between the principal and the agent and vice versa would therefore require "consideration" to be considered as supply.
- The key ingredient for determining relationship under GST would be whether the invoice for the further supply of goods on behalf of the principal is being issued by the agent or not. Thus, the indicator is whether or not the agent has the authority to pass or receive the title of the goods on behalf of the principal.
- Where the ***invoice for further supply is being issued by the agent in his name*** then, any provision of goods from the principal to the agent would fall within the fold of this para. I.e., It would be ***considered as supply***.
The disclosure or non- disclosure of the name of the principal is immaterial in such situations.
- In cases where the ***invoice is issued*** by the agent to the customer ***in the name of the principal***, such agent shall ***not fall within the ambit of Schedule-I*** of the CGST Act, 2017.
- Similarly, where the goods being procured by the agent on behalf of the principal are invoiced in the name of the agent then further provision of the said goods by the agent to the principal would be covered by this para.

4.3.1 - Examples for the above provisions:

1. Mr. A appoints Mr. B to procure certain goods from the market. Mr. B identifies various suppliers who can provide the goods as desired by Anmol, and asks the supplier, Mr. C to send the goods and issue the invoice directly to Mr. A.

In this scenario, Mr. B is only acting as the procurement agent, and has in no way involved himself in the supply or receipt of the goods. Hence, in accordance with the provisions of this Act, Mr. B is not an agent of Mr. A for supply of goods in terms of Para 3. of Schedule I.

2. M/s Tintin, a banking company, appoints Mandaar (auctioneer) to auction certain goods. The auctioneer arranges for the auction and identifies the potential bidders. The highest bid is accepted and the goods are sold to the highest bidder by M/s Tintin. The invoice for the supply of the goods is issued by M/s Tintin to the successful bidder.

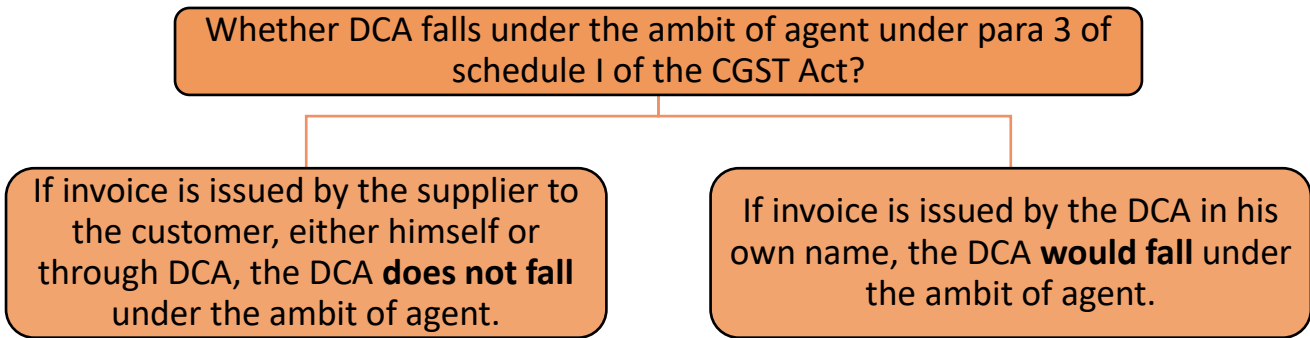

In this scenario, the auctioneer is merely providing the auctioneering services with no role played in the supply of the goods. Even in this scenario, Mandaar is not an agent of M/s Tintin for the supply of goods in terms of Para 3. of Schedule I.

3. Gautam, an artist, appoints Gambhir (auctioneer) to auction his painting. Gambhir arranges for the auction and identifies the potential bidders. The highest bid is accepted and the painting is sold to the highest bidder.

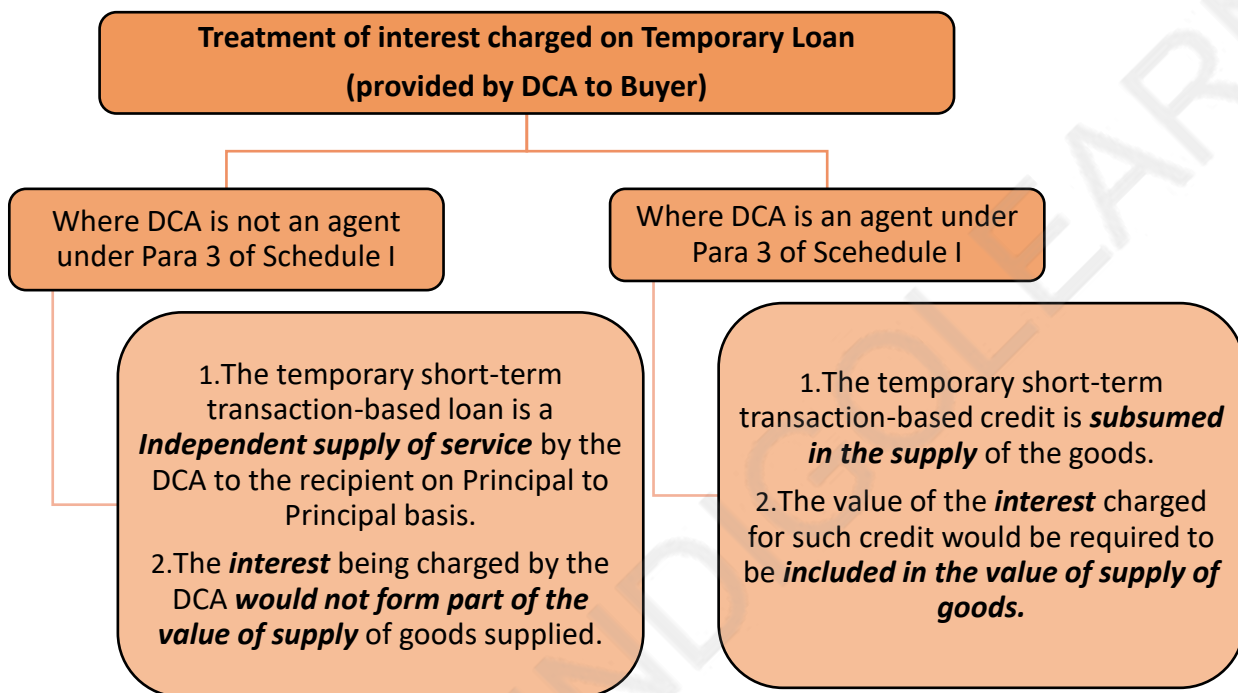

The invoice for the supply of the painting is issued by Gambhir on the behalf of Gautam but in his own name and the painting is delivered to the successful bidder. In this scenario, Gambhir is not merely providing auctioneering services, but is also supplying the painting on behalf of Gautam to the bidder and has the authority to transfer the title of the painting on behalf of Gautam. This scenario is covered under Para 3. of Schedule I.

4.3.2 - Del-Credere Agent (DCA)

- A DCA is a selling agent who is engaged by a principal to assist in supply of goods or services by contacting potential buyers on behalf of the principal. DCA guarantees the payment to the supplier. where the buyer fails to make payment to the principal by the due date, DCA makes the payment to the principal on behalf of the buyer.
- The commission paid to the DCA is relatively higher than that paid to a normal agent as he is effectively providing an insurance against default by the buyer.
- In order to guarantee timely payment to the supplier, the DCA can resort to various methods including extending short-term transaction-based loans to the buyer or paying the supplier himself and recovering the amount from the buyer with some interest at a later date. This loan is to be repaid by the buyer along with an interest to the DCA at a rate mutually agreed between DCA and buyer.

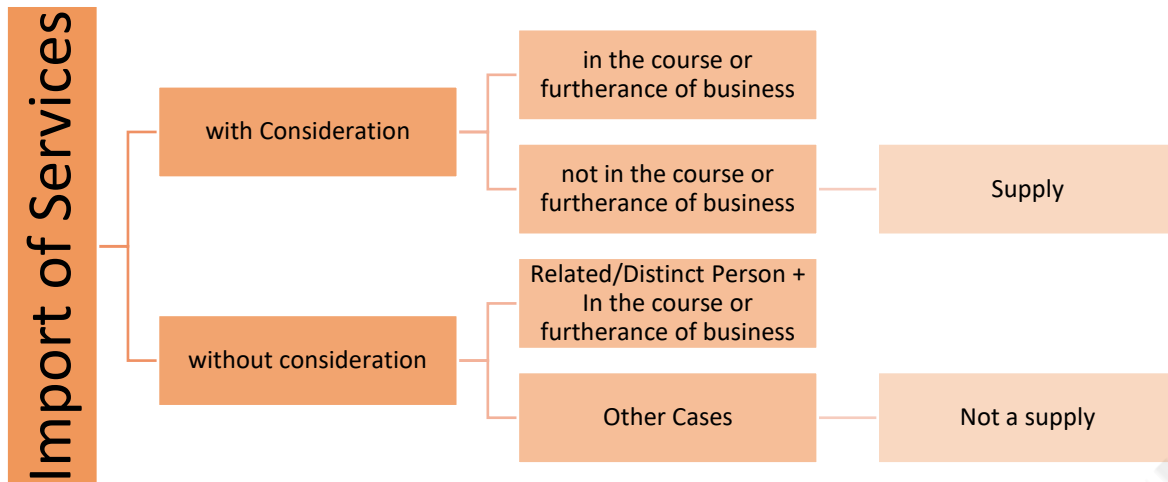

4.3.3 - Clarifications with Del-credere Agent (DCA)

4.4 - Importation of Services

- Import of services by a person from a related person or from his establishments located outside India, without consideration, in the course or furtherance of business shall be treated as "supply".

5. ACTIVITIES/TRANSACTIONS BETWEEN A PERSON OTHER THAN AN INDIVIDUAL AND ITS MEMBERS/CONSTITUENTS FOR CONSIDERATION [SECTION 7(1)(AA)]

- The activities or transactions (involving supply of goods or services) between a person, other than an individual, (i.e. association, club, etc.) and its members or constituents, for cash, deferred payment or other valuable consideration are covered within the ambit of 'supply' as per section 7(1) (aa).
- Further, explanation to clause (aa) to section 7(1) clarifies that for the purpose of this clause, such person (association, club, etc.) and its members or constituents shall be **deemed to be two separate persons** and the supply of activities or transactions between them shall be deemed to take place from one such person to another.
- The explanation starts with a non-obstante clause and shall therefore, shall have an overriding effect over anything contained in any other law for the time being in force or any judgment, decree or order of any Court, tribunal or authority.
- The aforesaid explanation prevents the application of doctrine of mutuality by such person or persons.
- For example:
 - Resident Welfare Association (RWA) of Sanskriti Society supplies air-conditioners to its members at a concessional price.
 - A Resident Welfare Association collects maintenance charges from its members for services provided.
 - Here, in both the aforesaid examples, it shall be deemed that the Resident Welfare Association (RWA) and its members are two separate persons and it shall be deemed that the supply has taken place from Resident Welfare Association (RWA) to its members.

6. ACTIVITIES TO BE TREATED AS SUPPLY OF GOODS OR SUPPLY OF SERVICES [SECTION 7(1A) + SCHEDULE II]

- Section 7(1A) (read with Schedule II) of the CGST Act classifies certain activities/ transactions constituting supply, either as supply of goods or supply of services.
- This helps in mitigating the ambiguities which existed in earlier laws.
- This also helps in identifying the correct tax rate as there are different rates for different goods and different services.

- carrying goods or passengers or both or
- for repairs and maintenance
- such inter-State movement shall be treated 'neither as a supply of goods or supply of service' and therefore not be leviable to GST.
- GST is applicable on the value of the goods being carried in that conveyance.
- If conveyance is being sent for further supply (selling / leasing etc) then GST is leviable on such supply.
- Applicable CGST/SGST/IGST, as the case may be, shall be leviable on repairs and maintenance done for such conveyance.

- Services by state government by way of granting license for alcoholic liquor for human consumption, shall be treated 'neither as a supply of goods or supply of service' and therefore not be leviable to GST.

- State government license for any other goods or service will attract GST.

7. SUPPLY - ADDITIONAL CONDITIONS

- **Supply by taxable person** - the person supplying should be a taxable person, the recipient need not be a taxable person. A taxable person is a person who is registered or liable to be registered under section 22 or section 24. A person going for voluntary registration can also be taxable person.
- **Supply should be taxable** - Supply of goods or services or both which, is leviable to tax under the GST Act.

As per Section 7(3) of the CGST Act, 2017 Subject to the provisions of sub-sections (1) and (2), the Government may, on the recommendations of the Council, specify, by notification, the transactions that are to be treated as—

- a supply of goods and not as a supply of services; or
- a supply of services and not as a supply of goods

9. COMPOSITE SUPPLY AND MIXED SUPPLY

9.1 - Composite Supply

Composite Supply [Section 2(30)] – means a supply made by a taxable person to a recipient and

- Comprises two or more taxable supplies of goods or services or both, or any combination thereof
- are naturally bundled and supplied in conjunction with each other, in the ordinary course of business
- one of which is a principal supply.

Principal Supply [Section 2(90)] – means a supply of goods or services, -

- Which constitutes the predominant element of a composite supply and
- To which any other supply forming part of that composite supply is ancillary.

- A composite supply comprising of two or more supplies, one of which is a principal supply, shall be treated as a supply of such principal supply.
- Thus will be taxed at the rate applicable for principal supply.
- Whether the services are bundled in the ordinary course of business, would depend upon the normal or frequent practices followed in the area of business to which services relate.
- Some indicators of such practices are:
 - If large number of service recipient of such bundle of services reasonably expect such services to be provided as a package. (E.g., Supply of foods during long flight journey.)
 - Majority of service providers in a particular area of business provide similar bundle of services. (E.g.: Watching a movie on overnight bus journey)
 - If the nature of services is such that one of the services is the main service and the other services combined with such service are in the nature of incidental or ancillary services which help in better enjoyment of a main service. (e.g., service of stay in a hotel is often combined with provision of breakfast)
- The different elements are integral to one overall supply. If one or more is removed, the nature of the supply would be affected.

9.2 - Mixed Supply

Mixed Supply [Section 2(74)] – means -

- Two or more individual supplies of goods or services, or any combination thereof, made in conjunction with each other by a taxable person.
- for a single price
- where such supply does not constitute a composite supply.

- The individual supplies are independent of each other and are not naturally bundled.
- A mixed supply comprising of two or more supplies shall be treated as supply of that particular supply that **attracts highest rate of tax.**

Composite Supply - Section 8 (a)	Mixed Supply - Section 8 (b)
<ul style="list-style-type: none"> • Consists of two or more supplies • Naturally bundles • in conjunction with each other • one of which is principal supply • Tax liability shall be the rate is principal supply • Example: Charger supplied along with mobile phones. 	<ul style="list-style-type: none"> • Consists of two or more supplies for single price • Artificially bundled • Though can be supplied independently, still supplied together • Tax liability shall be the rate applicable to the supply that attracts highest rate of tax • Example: A Gift pack of chocolates, candies and balloons.

10. SPECIAL CASES (CLARIFICATIONS THROUGH CIRCULARS/NOTIFICATIONS)

- **Sending artwork to galleries for exhibition** - If any artist sends his art work to galleries for exhibition, this interstate movement of art work will **not be considered as supply** as there is no consideration flowing from the galleries or Organisers of exhibition to the artist. Consideration will be paid only in case the artwork is sold to any interested buyer.
- **Retreading of tyres** - pre-dominant element is process of retreading which is a **supply of service**. Rubber used for retreading is an ancillary supply.

However, Supply of retreaded tyres, where the old tyres belong to the supplier of retreaded tyres, is a **supply of goods**.

- **Printing on letter heads, etc.** - In case of supply of printed envelopes, letter cards, printed boxes, tissues, napkins, wall paper etc. by the printer using its physical inputs including paper to print the design, logo etc. supplied by the recipient of goods, predominant supply is supply of goods and the supply of printing of the content [supplied by the recipient of supply] is

ancillary to the principal supply of goods and therefore such supplies would constitute **supply of goods**.

- **Printing of pamphlets, brochures etc.** - In the case of printing of books, pamphlets, brochures, annual reports, and the like, where only content is supplied by the publisher or the person who owns the usage rights to the intangible inputs while the physical inputs including paper used for printing belong to the printer, supply of printing [of the content supplied by the recipient of supply] is the principal supply and therefore such supplies would constitute **supply of service**.
- **Servicing of cars** - In case of servicing of cars involving supply of both goods (spare parts) and services (labor) where the value of goods and services are shown separately, CBIC has clarified that the goods and services would be liable to **tax at the rates as applicable to such goods and services separately**.
- **Gift/donation for charitable purpose** - where any gift or donation is paid to any charitable institution for charitable/philanthropic purpose, such payment is not subject to GST. If there is any commercial gain, to the payer and there is an obligation on the recipient to display the payer's name then it will fall under advertising services.
- **Free samples and gifts**: Samples which are supplied free of cost, without any consideration, do not qualify as "supply" under GST, except where the activity falls within the ambit of Schedule I of the CGST Act.
- **Buy one get one free offer**: It may appear at first glance that in case of offers like "Buy One, Get One Free", one item is being "supplied free of cost" without any consideration. In fact, it is not an individual supply of free goods, but a case of two or more individual supplies where a single price is being charged for the entire supply. It can at best be treated as supplying two goods for the price of one. Taxability of such supply will be dependent upon as to whether the supply is a composite supply or a mixed supply and the rate of tax shall be determined accordingly.
- **Supply of food and beverages at cinema halls shall be taxable as restaurant service** - Further, it has been clarified that if sale of ticket and supply of food and beverages are clubbed together and such bundled supply satisfies the test of composite supply, then entire supply will attract GST at the rate applicable to service of exhibition of cinema, the principal supply.
- **Activity of holding of shares of subsidiary company by the holding company per se cannot be treated as supply of services and cannot be taxed under GST**
- **Taxability of 'tenancy rights' under GST** - Pagadi system, i.e., transfer of tenancy rights against tenancy premium, is prevalent in some States. In Pagadi system, the tenant acquires tenancy rights in the property against payment of tenancy premium (pagadi). The landlord may be owner of the property, but the possession of the same lies with the tenant. The tenant pays periodic rent to the landlord as long as he occupies the property.

- The tenant also usually has the option to sell the tenancy right of the said property and in such a case has to share a percentage of the proceed with owner of land, as laid down in their tenancy agreement.
- ***It has been clarified that the activity of transfer of tenancy right against consideration [i.e. tenancy premium] is squarely covered under supply of service liable to GST.***
- **Applicability on Liquidated Damages, Compensation and penalty arising out of breach of contract or other provisions of law** - Agreeing to the obligation to refrain from an act or to tolerate an act or a situation, or to do an act" has been specifically declared to be a supply of service in para 5(e) of Schedule II if the same constitutes a "supply" within the meaning of the CGST Act.

- The three of the above expressions namely Refraining, Tolerating and Doing an act must comply the following conditions
 - There must be an expressed or implied agreement or a contract (independent contract/agreement) must exist
 - Consideration must flow in return to this contract/agreement
- Taxability of some of the transactions are as below
 - **Liquidated Damages** - **not a supply** as the contracts are entered for its performance but not its breach, liquidated damages are just mere flow or money as they do not reconstitute the aggrieved party and such damages does not qualify as the mere consideration for having permitted or tolerated the deviation or non-fulfillment of the promise by the other party.
 - In such cases, determine if the questioned payments are consideration for an independent contract involving tolerating, refraining from, or performing an act. If yes, it qualifies as a 'supply,' regardless of its designation; otherwise, it is not considered a "supply."
 - **Fines and penalties** - is a supply as they are charged to facilitate the acceptance of late payment, it qualifies as consideration for supply, and are subject to GST.
 - **Cheque Dishonor fine/Penalty** - **not a supply** as they are imposed for not tolerating, penalizing and thereby deterring and discouraging such an act or situation which disqualifies such payments as consideration for any service and not taxable
 - **Penalty imposed for violation of laws** - **not a supply** as laws are not framed for tolerating, penalizing and thereby deterring and discouraging such an act or situation. However, there is no such agreement between the Government and the violator specifying that violation would be allowed or permitted against payment of fine or penalty, as there cannot be such an agreement

of violation of law is never a lawful object for consideration for any service and are not leviable to Tax.

- **Forfeiture of salary or payment of bond amount in the event of the employee leaving the employment before the minimum agreed period - not a supply** as the said amounts are recovered by the employer not as a consideration for tolerating the act of such premature quitting of employment but as penalties for dissuading the non-serious employees from taking up employment and to discourage and deter such a situation.
- **Late payment surcharge or fee - is a supply** as the said payments are paid for provision of facility of accepting the late payments with interest or late payment fee granted by the supplier is naturally bundled with the main supply. It is an ancillary supply naturally bundled and supplied in conjunction with the principal supply, and therefore should be assessed as the principal supply, it should be assessed at the same rate as the principal Supply
- **Fixed Charges for Power - is exempt** as the said minimum fixed charges paid for an electricity connection will be the same as per contract entered at the time of obtaining the connection from SEB or DISCOMs but all the components paid for the supply of electricity are not taxable as electricity is exempt from GST.
- **Cancellation Charges - is a Supply** as the said charges are collected by the service provider can be considered as the charges of the costs involved in making arrangements for the intended supply and the costs involved in the cancellation of such supply, these charges are for the facilitation of the arrangements that were incurred from the inception of contract of supply till the event of cancellation. These cancellation charges are naturally bundled with the principal supply and is taxable with the rate at which the principal supply is charged.

Sec.	Point	Provision
14	Applicability	This section applies where there is a change in the rate of tax in respect of goods or services or both.
14	Overriding effect	This section applies notwithstanding anything contained in section 12 or section 13
14	Certain acronyms	(a) DOI = Date of Issue of invoice by the supplier. (b) DOS = Date of supply of goods or services or both (c) DOC = Date of change in the rate of tax (d) DOP = Date of receipt of payment i.e., date on which supplier receives payment with respect to supply, being earlier of – ♦ DOPE = Date on which the Payment is Entered in his books of account ♦ DOPB = Date on which the payment is credited to his bank account.

Determination of Time of Supply (TOS)				
14	DOS is -	DOI is -	DOP is -	Then, TOS is -
(a)(i)	Before DOC	After DOC	After DOC	TOS = DOP or DOI, whichever is earlier
(a)(ii)	Before DOC	Before DOC	After DOC	TOS = DOI
(a)(iii)	Before DOC	After DOC	Before DOC	TOS = DOP
(b)(i)	After DOC	Before DOC	After DOC	TOS = DOP
(b)(ii)	After DOC	Before DOC	Before DOC	TOS = DOP or DOI, whichever is earlier
(b)(iii)	After DOC	After DOC	Before DOC	TOS = DOI
	Section 14 propounds majority rule [Analysis] : Section 14 is based on majority rule, as follows – If two of three dates (DOS, DOI and DOP) fall on one side, ToS would lie on that side. Further, ToS would be DOI or DOP only. If DOI and DOP both fall on same side, then, TOS = Earlier of DOL and DOP.

1. INTER-STATE SUPPLY - SECTION 7 OF IGST ACT

1.1 - Supply of goods

- In case of supply of goods, the two important determining factors are -
 - *Location of the supplier* and
 - *Place of supply*
- Where the location of the supplier and the place of supply are in **two different states or union territories**, the supply shall be treated as inter-state supply.
- Supply of goods **imported** into the territory of India, till they **cross the customs frontiers** of India shall be treated to be a supply of goods in the course of inter-State trade or commerce.

1.2 - Supply of services

- In case of supply of services, the two important determining factors are -
 - *Location of the supplier* and
 - *Place of supply*
- Where the location of the supplier and the place of supply are in **two different states or union territories**, the supply shall be treated as inter-state supply.
- Supply of services **imported** into the territory of India shall be treated to be a supply of services in the course of inter-State trade or commerce.

1.3 - Deemed inter-state supply

The supply of *goods or services* shall be treated as inter-state supply when -

- the **supplier** is located *in India* and the **place of supply is outside India**;
- supply is made *to or by* a **Special Economic Zone** developer or a Special Economic Zone unit;
or
- supply is **made in the taxable territory**, not being an intra-State supply and **not covered elsewhere** in this section.

2. INTRA-STATE SUPPLY - SECTION 8 OF IGST ACT

2.1 Supply of goods

- In case of supply of goods, the two important determining factors are -
 - **Location of the supplier** and
 - **Place of supply**
- Where the location of the supplier and the place of supply are in **same state or union territory**, the supply shall be treated as intra-state supply.

2.2 Exceptions

There are certain cases where the supply shall not be treated as intra-state irrespective of the fact that the location of the supplier and place of supply are in same state.

These exceptions are -

- supply of goods *to or by* a **Special Economic Zone** developer or a Special Economic Zone unit;
- goods **imported** into the territory of India till they cross the customs frontiers of India; or
- supplies **made to a tourist** referred to in section 15.

2.3 Supply of services

- In case of supply of services, the two important determining factors are -
 - **Location of the supplier** and
 - **Place of supply**
- Where the location of the supplier and the place of supply are in **same state or union territory**, the supply shall be treated as intra-state supply.
- However, intra-State supply of services shall **not include** supply of services *to or by* a **Special Economic Zone** developer or a Special Economic Zone unit.

2.4 Distinct establishments

- **Establishment** shall mean a *branch, an agency or a representative office*, through which a person is *carrying on his business*.
- Where a person has -
 - an establishment *in India* and any other establishment *outside India*;
 - an establishment *in a State or Union territory* and any other establishment *outside that State or Union territory*; or
 - an establishment *in a State or Union territory* and any *other establishment registered within that State or Union territory*, then

such establishments shall be treated as **establishments of distinct persons**.

3. SUPPLIES IN TERRITORIAL WATERS - SECTION 9 OF IGST ACT

Where the *location of the supplier or the place of supply is in the territorial waters*, then such location of such supplier or the place of supply shall be *deemed* to be in the *coastal State or Union territory where the nearest point of the appropriate baseline is located*.

Note - Territorial waters extend **upto 12 nautical miles** from the closest baseline.

4. PLACE OF SUPPLY OF GOODS OTHER THAN SUPPLY OF GOODS IMPORTED INTO, OR EXPORTED FROM INDIA - SECTION 10 OF IGST ACT

Section 10 deals with determination of place of supply in various cases of supply of goods except imports or exports. The provisions contained in the Section are elaborated hereunder -

4.1 Supply involves movement of goods - Section 10(1)(a)

Where the supply involves movement of goods the place of supply of such goods shall be the *location of the goods* at the time at which the *movement of goods terminates for delivery to the recipient*.

Such movement may be caused by the supplier or the recipient or by any other person.

Example -

What will be the place of supply if Mr. Raj of Delhi visits a mall in Madhya Pradesh and buys a shirt at the mall?

In this case, there is movement of goods to Mr. Raj and it is to be noted that the movement of goods *for delivery to the recipient* ends at the mall itself where it is handed over to Mr. Raj. Thus, in this case the place of supply will be Madhya Pradesh.

However, if Mr. Raj had given his address and told the supplier to send the goods to Delhi, the place of supply would have been Delhi as the delivery to the recipient i.e. Mr. Raj would have end there.

Thus, it is very important to check that what is the location where the delivery to the recipient terminates.

Note: In case of goods purchased over the counter in one state and then transported to another state by buyer then the place of supply would be the location as per the address of the said person recorded in the invoice issued in respect of the said supply and the location of supplier where the address of the said person is not recorded in the invoice.

4.2 Supply involving 'Bill to ship to' model - Section 10(1)(b)

When the *billing address and shipping address of the goods are not same*, it comes under 'Bill to ship to' model.

Example -

Mr. Anil of Madhya Pradesh got an order from Mr. Ajay of Gujarat to supply him 10000 shirts. Mr. Anil gives the order to Mr. Ashok of Gujarat and tells him to supply the shirts to Mr. Ajay.

In this case, the invoice raised by Mr. Ashok will be billed to Mr. Anil but the goods will be shipped to Mr. Ajay.

In such cases, where the goods are delivered to a recipient or any other person on the direction of a third person, whether acting as an agent or otherwise, it shall be **deemed that the said third person has received the goods** and the **place of supply** of such goods **shall be the principal place of business of such person**.

Thus, in our example, it shall be deemed that the goods are received by Mr. Anil and the place of supply will be Madhya Pradesh.

It is important to note that the above transaction can be carried out **before or during movement of goods** i.e. if the goods are already in transit but the supplier is directed to deliver the goods to some other location, Section 10(1)(b) will be attracted.

4.3 - Supply does not involve movement of goods - Section 10(1)(c)

Where the supply does not involve movement of goods, whether by the supplier or the recipient, the place of supply shall be the **location of such goods at the time of the delivery to the recipient**.

Example -

Mr. Bhawani of Maharashtra opens a new branch office at Haryana. He purchases a building for office from a builder based in Haryana. He also enters into a separate contract with the builder for purchase of pre-installed office furniture and fixtures in the building.

Though there will be no GST liability on purchase of building (Schedule III) but the office furniture and fixtures will be liable to GST.

Since there is no movement of office furniture and fixtures, the place of supply of such goods is their location at the time of delivery to the recipient i.e. Haryana.

4.4 - Supply involving purchasing goods Over the Counter in one state and transported to another state by the buyer - Section 10(1)(ce)

Where the **supply of goods** is made to a person **other than a registered person**, the place of supply shall, notwithstanding anything contrary contained in clause (a) or clause (c) of section 10, be the location as per the address of the said person recorded in the invoice issued in respect of the said supply and the location of the supplier where the address of the said person is not recorded in the invoice.

POS in case of OTC sales to unregistered persons is as follows:

Where the address of the unregistered person is recorded in the invoice.

- POS is location as per address of unregistered person recorded in the invoice

Where the address of the unregistered person is not recorded in the invoice.

- POS is location of the supplier

4.4 - Supply involving installation or assembly of goods - Section 10(1)(d)

Where the goods are assembled or installed at site, the place of supply shall be the **place of such installation or assembly**.

Example -

4.5 - Supply of goods on board or conveyance - Section 10(1)(e)

Where the goods are supplied on board a conveyance, including a vessel, an aircraft, a train or a motor vehicle, the place of supply shall be the **location at which such goods are taken on board**.

Example -

Mr. Chandra has 200 shirts with him for the purpose of sale and he boards the Mumbai-Jaipur train at Surat. He sells 10 shirts to Mr. Mohan at Kota (Rajasthan) in the train journey.

Since, the goods were taken on board by him at Surat, the place of supply will be Surat (Gujarat).

4.6 - Situation where place of supply cannot be determined - Section 10(2)

Example -

ZL, a statutory body deals with all the advertisement and publicity of the government. It has issued a release order to 'Zee Tv' channel, registered in Mumbai, for telecasting an advertisement relating to one of the schemes of the Government in the month of September 2022. The advertisement will be telecasted in States - Maharashtra, Gujarat, Rajasthan, Madhya Pradesh and Goa. The total value of service is Rs. 15,00,000/- (exclusive of GST).

The viewership figures in last week of June 2022 is as follows -

Madhya Pradesh	-	1,00,000
Gujarat + Rajasthan	-	3,00,000
Maharashtra + Goa	-	2,00,000

The population figures (in crores) are given below -

Madhya Pradesh	-	80
Gujarat	-	100
Rajasthan	-	150
Maharashtra	-	140
Goa	-	60

Determine the place of supply of service and value of supply attributable to each state.

In case of broadcasting on TV, the apportionment will be done on the basis of viewership figures of the last week of the preceding quarter. Since, we need to find the viewership for the month of September 2022, we will use the figures of the last week of the preceding quarter i.e. April - June. Thus, the viewership figures of last week of June 22 will be used.

Since, the figures of viewership are combined, we need to apportion them on the basis of population.

Viewership in Gujarat and Rajasthan is 3,00,000. The population of Gujarat is 100 crores and Rajasthan is 150 crores. Thus, the apportioned viewership =

$$\text{Gujarat viewership} = 3,00,000 \times 100/250 = 1,20,000.$$

$$\text{Rajasthan viewership} = 3,00,000 \times 150/250 = 1,80,000.$$

Viewership in Maharashtra and Goa is 2,00,000. The population of Maharashtra is 140 crores and Goa is 60 crores. Thus, the apportioned viewership =

$$\text{Maharashtra viewership} = 2,00,000 \times 140/200 = 1,40,000.$$

$$\text{Goa viewership} = 2,00,000 \times 60/200 = 60,000.$$

Thus, the viewership of each state is as follows -

Madhya Pradesh	-	1,00,000
Gujarat	-	1,20,000
Rajasthan	-	1,80,000
Maharashtra	-	1,40,000
Goa	-	60,000

Thus, the ratio of apportionment between MP:GJ:RJ:MH:GOA = 5:6:9:7:3.

The place of supply for advertising will be all the five states i.e. Madhya Pradesh, Gujarat, Rajasthan, Maharashtra, Goa and the value of supply will be apportioned in the ratio of 5:6:9:7:3.

Thus, value of service -

Madhya Pradesh	-	$15,00,000 \times 5/30$	= 2,50,000
Gujarat	-	$15,00,000 \times 6/30$	= 3,00,000
Rajasthan	-	$15,00,000 \times 9/30$	= 4,50,000
Maharashtra	-	$15,00,000 \times 7/30$	= 3,50,000
Goa	-	$15,00,000 \times 3/30$	= 1,50,000.

h. Clinical trials -

The drugs that are developed for human consumption would undergo human testing to confirm its utility and safety before being registered for marketing. The clinical trials help in collection of information related to drugs profile in human body such as absorption, distribution, metabolism, excretion and interaction. It allows choice of safe dosage.

i. Bio analytical studies -

Bio analysis is a sub-discipline of analytical chemistry covering the quantitative measurement of drugs and their metabolites, and biological molecules in unnatural locations or concentrations and macromolecules, proteins, DNA, large molecule drugs and metabolites in biological systems.

- Any taxes, duties, cesses, fees and charges levied under any law for the time being in force **except the CGST Act, the SGST Act, the UTGST Act and the GST (Compensation to States) Act, if charged separately by the supplier**, are includible in the value of supply.
- In case of inter-State sale liable to IGST, the value of supply will include taxes other than IGST and the GST Compensation Cess in terms of third proviso to section 20 of IGST Act.
- In effect, **all the taxes, duties etc. which are not subsumed in GST form part of the taxable value** for the purpose of levying GST.
- For instance, if a supplier of goods pays municipal tax in relation to the goods being supplied and charges the same separately, such tax will form part of the value of supply.
- For the purpose of determination of value of supply under GST, tax collected at source (**TCS**) **under the provisions of the Income Tax Act, 1961 would not be includible** as it is an interim levy not having the character of tax. [vide Circular No. 76/50/2018 GST dated 31.12.2018 (amended vide corrigendum dated 7.03.2019)]

3.2 - Payments made to third parties - Section 15(2)(b)

- Payments made to third parties by the recipient on behalf of the supplier in relation to the supply is included in the value of supply.
- If the customer makes direct payment of some of the supplier's liabilities to the third parties, and the supplier does not include this amount in his bill, it will still form part of the value of the supply.
- Amount paid by the recipient to third parties will be added to the value under this clause only when the supplier is under **contractual liability** to make payment to such third parties and the said payment is in relation to such supply.

3.3 - Incidental expenses - Section 15(2)(c)

- Incidental expenses, such as, commission and packing charged by the supplier or anything else done by the supplier in relation to the supply at the time of or before delivery of goods or supply of services must be added to value.

- Outward freight, transit insurance - Where the supplier agrees to deliver the goods at the buyer's premises and arranges for transport and insurance, the contract of supply becomes a composite supply; and GST is payable thereon at the same rate as applicable for the relevant goods. However, if the contract for supply is on ex-factory basis where buyer pays the outward freight and insurance, the same will not be included in the value of supply of goods.

3.4 - Interest, late fee or penalty for delayed payment - Section 15(2)(d)

- Any interest, late fee, penalty or any other charges charged for delay in payment by supplier from the recipient shall form part of the value of supply.

4. EXCLUSION OF DISCOUNTS FROM VALUE - SECTION 15(3)

- Numerous kinds of discounts are given by the suppliers to their customers namely, trade discounts, cash discounts, quantity/volume/performance discounts etc.
- Not all discounts offered by the supplier to their customers are allowed as a deduction from the value. Only such discounts which satisfy the conditions prescribed in section 15(3), are allowed as deduction from the value.
- The essence of the conditions prescribed in section 15(3) is that the price as established at the time of supply should form the basis of value.

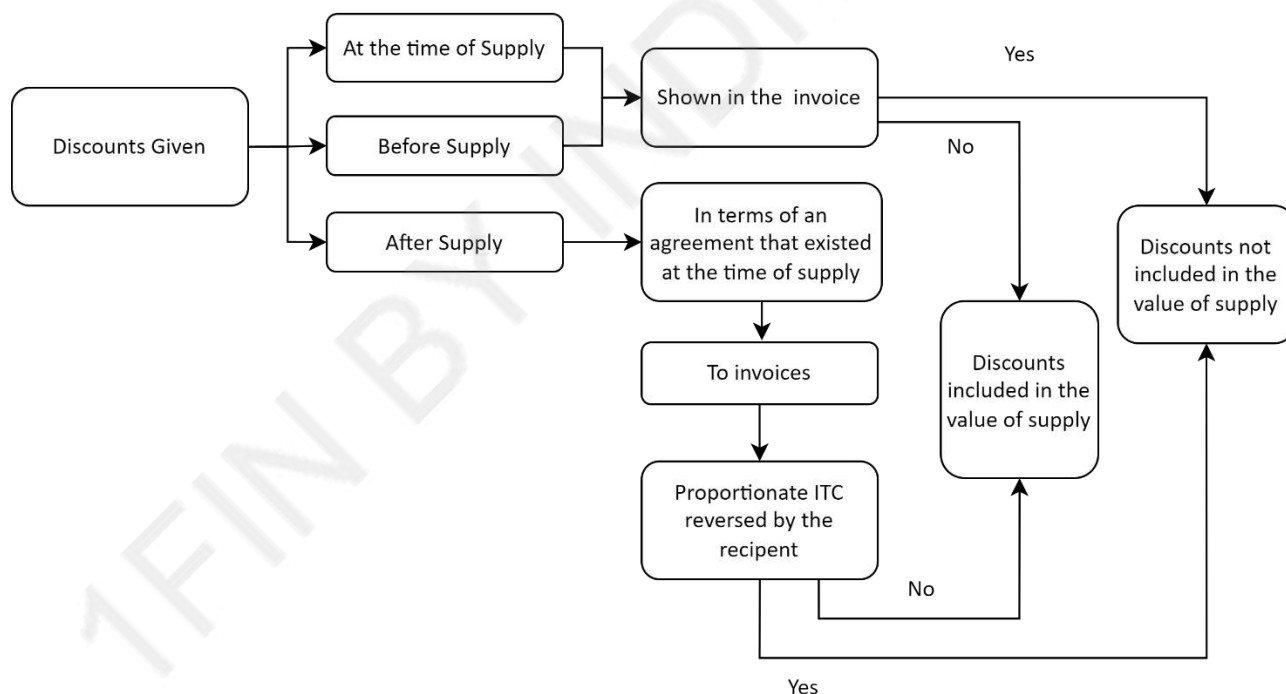

4.1 - Discounts given before or at the time of supply and shown in the invoice. - Sec 15(3)(a)

- Example for such discount can be discounts that are offered for making the payment at the time of supply itself. Such discounts are thus, recoded in the invoice and thus, GST is charged on the gross value less discount recorded in the invoice.

- No Claim Bonus is excluded i.e., GST shall be leviable on actual insurance premium amount, payable by the policy holders to the insurer, after deduction of NCB mentioned on the invoice.

4.2 - Post supply discounts - Sec 15(3)(b)

- In case of quantity/volume/performance/cash discount, the supplier is not aware before/at the time of supply as to whether the buyer would purchase the requisite quantity within the stipulated time or would make the payment within the stipulated time. Therefore, in such cases, the discount cannot be recorded in the invoice.
- In such cases, initially the GST is paid on the gross value indicated in the invoice without considering the discount.
- The supplier, however, passes the discount to the buyers subsequently by issuing credit notes.
- Post supply discounts, i.e., **the discounts that are given after supply is made, are allowed as a deduction from the value of supply** if the following two conditions are satisfied:
 - **Discount is in terms of an agreement** that existed at the time of supply and can be worked out invoice-wise; **and**
 - **Proportionate input tax credit is reversed by the recipient** - The buyer would have availed input tax credit (ITC) of GST payable on the gross value specified in the invoice. Thus, when a credit note is issued to him by the supplier for the discount, the buyer will reverse the proportionate credit; consequent to which, the supplier's output tax liability will be reduced by the same amount.

4.3 - Other discounts

- **Staggered discounts (Buy more, Save more offers):**
 - In case of staggered discounts, rate of discount increases with increase in purchase volume.
 - Such discounts are shown on the invoice itself.
 - Such discounts are excluded to determine the value of supply.
- **Periodic/year ending discounts/volume discounts:**
 - These discounts are offered by the suppliers to their stockists, etc. Such discounts are established in terms of an agreement entered into at or before the time of supply
 - though not shown on the invoice as the actual quantum of such discounts gets determined after the supply has been affected and generally at the year end.
 - Such discounts are passed on by the supplier through credit notes.
 - Such discounts are excluded to determine the value of supply provided they satisfy the parameters laid down in section 15(3), including the reversal of ITC by the recipient of the supply as is attributable to the discount.
- **Secondary discounts:**
 - These are the discounts which are not known at the time of supply or are offered after the supply is already over.
 - Such discounts shall not be excluded while determining the value of supply as such discounts are not known at the time of supply and the conditions laid down in section 15(3)(b) are not satisfied.

It may be noted that financial / commercial credit note(s) can be issued by the supplier even if the conditions mentioned in section 15(3)(b) are not satisfied.

5. WHEN TRANSACTION VALUE CANNOT BE APPLIED

- Section 15(4) lays down that where sub-section (1) is not applicable, that is,
 - if the transaction is with a related party, and/or
 - price is not the sole consideration for the supply of goods / services,
 - then the value will be determined in the manner as stipulated in the rules for valuation
- Further, section 15(5) lays down that in respect of certain notified supplies also, the value will be determined in the manner as stipulated in the rules for valuation.

8. CLARIFICATIONS

8.1 - Tax to be paid on specified actionable claims at the time of receipt of payment for such supplies by the suppliers

Notification No. 66/2017 CT dated 15.11.2017 was earlier issued to exempt all registered persons from the requirement of payment of tax at the time of receipt of advances in case of supply of goods and provides for payment of tax in such cases at the time of supply as specified in section 12(2)(a).

With effect from 01.10.2023, said notification has been amended to **exclude registered persons making supply of specified actionable claims** [as discussed in Chapter 2 - Supply under GST] from the said exemption, so that in case of specified actionable claims, the tax can be paid at the time of

receipt of payment for such supplies by the suppliers. **[Notification No. 50/2023 CT dated 29.09.2023]**

8.2 - Clarification on Taxability and valuation of personal guarantee by Directors and corporate guarantee by related person, for the company.

Issue: Whether the activity of providing personal guarantee by the Director of a company to the bank/ financial institutions for sanctioning of credit facilities to the said company without any consideration will be treated as a supply of service or not and whether the same will attract GST or not?

Clarification: Since director and company are related persons, the activity of providing personal guarantee by the Director to the banks/ financial institutions for securing credit facilities for their companies is to be treated as a supply of service, even when made without consideration [in terms of section 7(1)(c) read with para 2 of Schedule I]. Value will be open market value (OMV) of such supply [in terms of rule 28].

However, as per the mandate provided by the RBI Guidelines in this regard, no consideration by way of commission, brokerage fees or any other form, can be paid to the director by the company, directly or indirectly, in lieu of providing personal guarantee to the bank for borrowing credit limits, except in exceptional cases.

Consequently, there is no question of such supply/ transaction having any OMV. Accordingly, it is clarified that OMV of the said transaction/ supply may be treated as zero and therefore, no tax is payable on such supply of service by the director to the company. However, in exceptional cases, where remuneration is payable to the director, the taxable value of such supply of service shall be the remuneration/ consideration provided to such guarantor by the company, directly or indirectly.

Exceptional cases: Instances where consideration is payable to the director may include cases where the director, who had provided the guarantee, is no longer connected with the management but continuance of his guarantee is considered essential because the new management's guarantee is either not available or is found inadequate, or there may be other exceptional cases where the promoters, existing directors, are paid remuneration/ consideration in any manner, directly or indirectly.

No tax is payable on supply of service i.e. of providing personal guarantee by the Director without any consideration, to the bank/ financial institutions for sanctioning of credit facilities.

Issue: Whether the activity of providing corporate guarantee by a person on behalf of another related person, or by the holding company for sanction of credit facilities to its subsidiary company, to the bank/ financial institutions, even when made without any consideration will be treated as a taxable supply of service or not, and if taxable, what would be the valuation of such supply of services?

Clarification: In that case the activity is to be treated as a supply of service between related parties even when made without any consideration [in terms of section 7(1)(c) read with para 2 of Schedule I]. **In such cases**, the taxable value will be determined as per the newly inserted sub-rule (2) to rule 28 irrespective of whether full ITC is available to the recipient of services or not.

Value of supply of service of providing corporate guarantee by a person on behalf of another related person, or by the holding company for its subsidiary company shall be: Higher of: 1% of the amount of such guarantee offered, or actual consideration.

8.3 - Clarification regarding internally generated services - where HO is providing certain services to the BOs for which full ITC is available to the concerned BOs.

Issue: In respect of internally generated services, there may be cases where HO is providing certain services to the BOs for which full ITC is available to the concerned BOs. However, HO may not be issuing tax invoice to the concerned BOs with respect to such services, or the HO may not be including the cost of a particular component such as salary cost of employees involved in providing said services while issuing tax invoice to BOs for the services provided by HO to BOs. Whether the HO is mandatorily required to issue invoice to BOs under section 31 for such internally generated services, and/ or whether the cost of all components including salary cost of HO employees involved in providing the said services has to be included in the computation of value of services provided by HO to BOs when full ITC is available to the concerned BOs?

Clarification: The value of supply of services made by a registered person to a distinct person needs to be determined as per rule 28 read with section 15(4). As per rule 28(a), the value of supply between distinct persons shall be the open market value (OMV) of such supply. The second proviso to rule 28 provides that where the recipient is eligible for full ITC, the value declared in the invoice shall be deemed to be the OMV of the goods or services. Accordingly, in respect of supply of services by HO to BOs, the value of the said supply of services declared in the invoice by HO shall be deemed to be OMV of such services, if the recipient BO is eligible for full ITC. Accordingly, in cases where full ITC is available to a BO, the value declared on the invoice by HO to the said BO in respect of a supply of services shall be deemed to be the OMV of such services, irrespective of the fact whether cost of any particular component of such services, like employee cost etc., has been included or not in the value of the services in the invoice. Further, in such cases where full ITC is available to the recipient, if HO has not issued a tax invoice to the BO in respect of any particular services being rendered by HO to the said BO, the value of such services may be deemed to be declared as Nil by HO to BO, and may be deemed as OMV in terms of second proviso to rule 28

In respect of internally generated services, Where full ITC is available to a BO, the value declared on the invoice by HO shall be deemed to be the OMV, irrespective of the fact whether cost of any particular component of such services, like employee cost etc., has been included or not in the value of the services. If HO has not issued a tax invoice to the BO, the value of such services may be deemed to be declared as Nil by HO to BO, and may be deemed as OMV.

Issue: In respect of internally generated services provided by the HO to BOs, in cases where full ITC is not available to the concerned BOs, whether the cost of salary of employees of the HO involved in providing said services to the BOs, is mandatorily required to be included while computing the taxable value of the said supply of services provided by HO to BOs?

In respect of internally generated services provided by the HO to BOs, the cost of salary of employees of the HO, involved in providing the said services to the BOs, is not mandatorily required

to be included while computing the taxable value of the supply of such services, even in cases where full ITC is not available to the concerned BO.

8. INPUT TAX CREDIT

Contents

- Eligibility and conditions for taking ITC [Sec 16]
- Apportionment of credit and blocked credits [Sec 17]
- Availability of credit in special circumstances [Sec 18]
- Utilisation of ITC [Sec 49]

1. INTRODUCTION

- The GST regime promises *seamless credit on goods and services across the entire supply chain*.
- However, there are few exceptions like supplies charged to tax under composition scheme and supply of exempted goods and/or services.
- ITC is considered to be the lifeline of the GST regime.
- It is the provisions of ITC, which essentially make GST a value added tax i.e., collection of tax at all points of supply chain after allowing credit of tax paid at earlier points.

1.1 - Salient Features of ITC

- 1) ITC is used for payment of tax on taxable output supply to avoid cascading effect of taxes.
- 2) Thus, it is concluded ITC is not available when tax is not payable on output supply, i.e., on exempt supply.
- 3) Broadly, ITC is available on all inputs, input services and capital goods used for purposes of business of a taxable person. The exception is 'blocked credit', where ITC is not available even when these goods or services are used for purposes of business.
- 4) The exception to the above principle is 'zero rated supply', i.e., exports or supplies to a special economic zone (SEZ) developer/unit, where ITC is available even if no tax is payable on output supply. Such ITC can be used either for payment of tax on supplies made with tax or refund of the same can be obtained. This simple mechanism is used to make exports and supplies to SEZ completely tax free.
- 5) If a taxable person is making both taxable and exempt supply, he is entitled to full credit of ITC in respect of inputs, input services and capital goods exclusively used for taxable supply and no credit at all for inputs, input services and capital goods exclusively used for exempt supply.

- 6) If common inputs, input services and capital goods are used for taxable as well as exempt supply, only proportionate ITC attributable to the taxable supply is available.

2. ELIGIBILITY AND CONDITIONS FOR TAKING INPUT TAX CREDIT - SECTION 16

2.1 - Eligibility for taking ITC - Section 16(1)

1) Registration under GST -

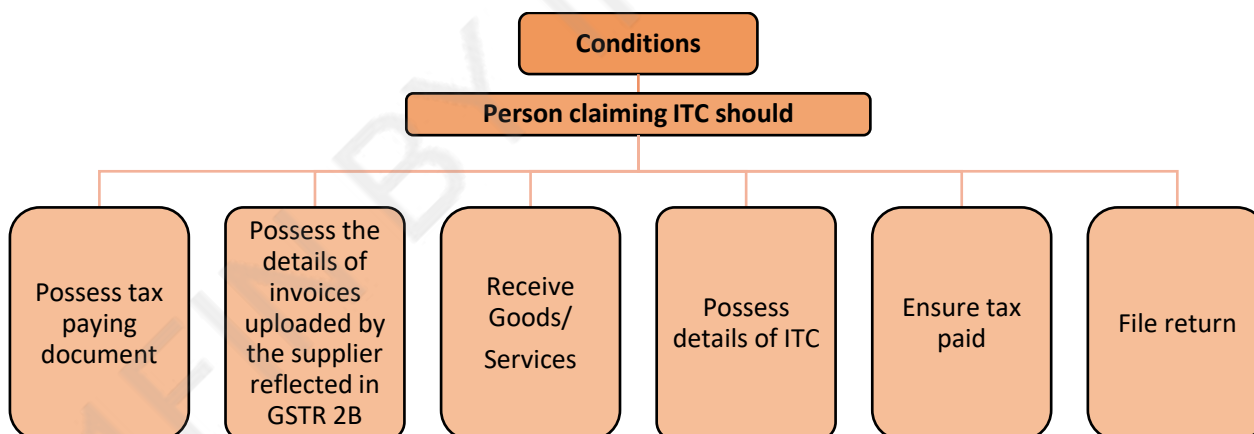

- Every registered person shall be entitled to ITC of GST charged on inward supply of goods and / or services.
- This is subject to the provisions relating to use of ITC under section 49 and the conditions and restrictions in the rules.

2) Goods/services to be used for business purposes -

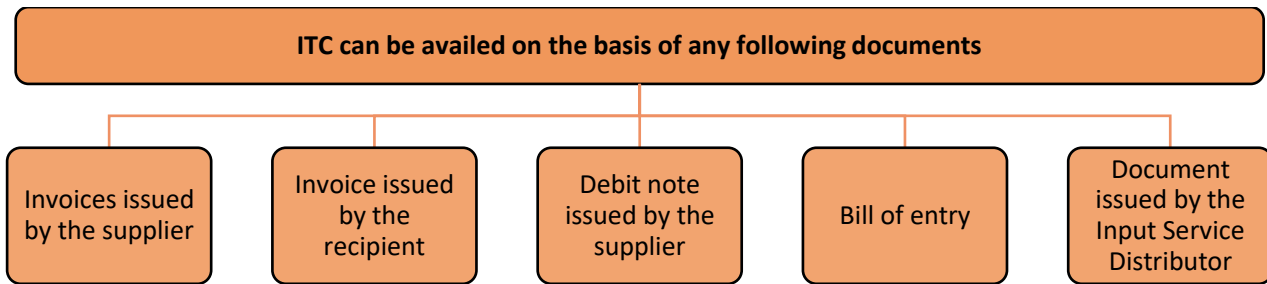

- ITC of GST will be available on goods and/or services which are used in the course or furtherance of the business.
- The "intention to use" the goods and/or services in the course or furtherance of business would also suffice for availing ITC on such goods and/or services.
- Thus, tax paid on goods and or/services which are used or intended to be used for non-business purposes cannot be availed as credit.
- ITC will be credited in electronic credit ledger.

2.2 - Conditions for taking ITC - Section 16(2)

- The registered person will be entitled to ITC on a supply only if all the following four conditions are fulfilled:

a) Possession of tax paying document [Section 16(2)(a) read with rule 36]

Those documents shall contain -

- Amount of Tax charged
- Description of goods or services
- Total value of supply of goods and/or services
- GSTIN of Supplier and Recipient
- Place of Supply in case of Inter-State Supply

Note: No ITC of the Tax paid towards demands involving Fraud - Rule 36(3)

b) Details of invoices/debit notes uploaded by the supplier in his GSTR-1 or using IFF and details communicated in Form GSTR-2B [Section 16(2)(aa) read with rule 36(4)]

ITC on invoices/debit notes which have been **FULL ITC** can be claimed on such **furnished** by the suppliers in their GSTR-1s/using IFF **and reflected** in GSTR-2B of recipient if all other conditions of availing ITC are fulfilled

ITC on invoice/debit note which have **not been furnished** by suppliers in their GSTR-1s/using IFF and thus, **not reflected** in GSTR-2B of recipient **NO ITC** can be claimed in respect of such invoices/debit notes.

- On the other hand, full ITC can be availed in respect of IGST paid on imports, documents issued under reverse charge, credit received from ISD etc., which are outside the ambit of section 37(1).

c) Receipt of the goods and / or services [Section 16(2)(b)]

- The registered person taking the ITC must have received the goods and / or services.

d) Details of ITC in respect of the said supply communicated to the registered person under section 38 not restricted [Section 16(2) (ba)]

- Section 38 stipulates that the details of outward supplies furnished by the registered suppliers in GSTR-1/using IFF and an autogenerated statement - GSTR-2B - containing the details of ITC is made available to the recipients of such supplies every month.

- *GSTR-2B* contains the details of inward supplies (i) on which ITC is available to the recipient as well as (ii) on which ITC cannot be availed, whether wholly or partly, by the recipient. Accordingly, ITC will not be available in respect of inward supplies details of which have been furnished by a registered supplier:
 - who is a new registrant (Specified period from taking registration will be prescribed for this purpose.)
 - who has defaulted in payment of tax for a prescribed period.
 - whose output tax payable as per *GSTR-1/IFF* exceeds the output tax paid in *GSTR-3B* for a particular tax period by prescribed limit (Rule 88C).
 - who has availed ITC of an amount that exceeds the credit that can be availed by him as per *GSTR-2B* during prescribed period and by prescribed limit.
 - who has defaulted in discharging his tax liability in accordance with the provisions of section 49(12) read with rule 86B, i.e. who has discharged more tax liability from electronic credit ledger than prescribed under rule 86B
 - other specified classes of persons.

e) Tax leviable on supply actually paid to Government [Section 16(2)(c)]

- The supplier should have actually paid the tax charged on the goods and/or services, for which ITC is being taken, either in cash or by utilizing ITC, subject to the provisions of **section 41**.

Availment of Self-assessed ITC [Sec 41]

- A registered person can avail the credit of eligible ITC as self-assessed in his return. Such amount shall be credited to his electronic credit ledger.
- **Reversal of ITC** in the case of non-payment of tax by the supplier and **re-availment** thereof [Section 41 read with rule 37A]

Re-availment of reversed ITC

- Where the said supplier makes payment of the tax payable in respect of the aforesaid supplies, the said registered person may re-avail the amount of credit reversed by him.
- Thus, where the said supplier subsequently furnishes the return in *GSTR-3B* for the said tax period, the said registered person may re-avail the amount of such credit in the return in *GSTR-3B* for a tax period thereafter.

Reversal of ITC

- If the tax payable corresponding to such ITC availed is not paid by the supplier to the Government, ITC so availed shall be reversed by the said person along with applicable interest.
- A registered person (recipient) can avail ITC in GSTR-3B for a tax period in respect of such invoice/debit note, the details of which have been furnished by its supplier in the statement of outward supplies (in GSTR-1/using IFF).
- However, if supplier does not furnish return in Form GSTR-3B for the tax period corresponding to the said statement of outward supplies till 30th September following the end of FY in which the ITC in respect of such invoice/ debit note has been availed; the said amount of ITC shall be reversed by the said recipient, while furnishing a return in GSTR-3B on or before 30th November following the end of such FY during which such ITC has been availed.
- However, where the said amount of ITC is not so reversed by recipient, such amount shall be payable by the said person along with interest thereon under section 50

f) Filing of return [Section 16(2)(d)]

- The registered person taking the ITC must have filed his return in GSTR-3B under section 39. Thus, a taxpayer should file GSTR-3B to avail ITC on eligible inward supplies.

2.3 - Goods received in lots - First proviso to section 16(2)

- ITC available only on receipt of last lot

2.4 - Payment for the invoice to be made within 180 days - Second proviso to section 16(2) read with rule 37

- The registered person must pay to the supplier, the value of the goods and/or services along with the tax **within 180 days from the date of issue of invoice**.
- In the **event of failure** to do so, the corresponding credits availed by the registered person would be added to his output tax liability, with interest.
- **Interest will be paid @ 18%** from the date of availing credit till the date when the amount added to the output tax liability is paid.
- However, **once the recipient makes the payment** of value of goods and/or services along with tax, he will be **entitled to avail the credit again** without any time limit.
- In case **part-payment** has been made, **proportionate credit** would be allowed.
- **Exceptions** - This condition of payment of value of supply plus tax within 180 days does not apply in the following situations:
 - a) Supplies on which tax is payable under reverse charge

- b) Deemed supplies without consideration
- c) Additions made to the value of supplies on account of supplier's liability, in relation to such supplies, being incurred by the recipient of the supply.

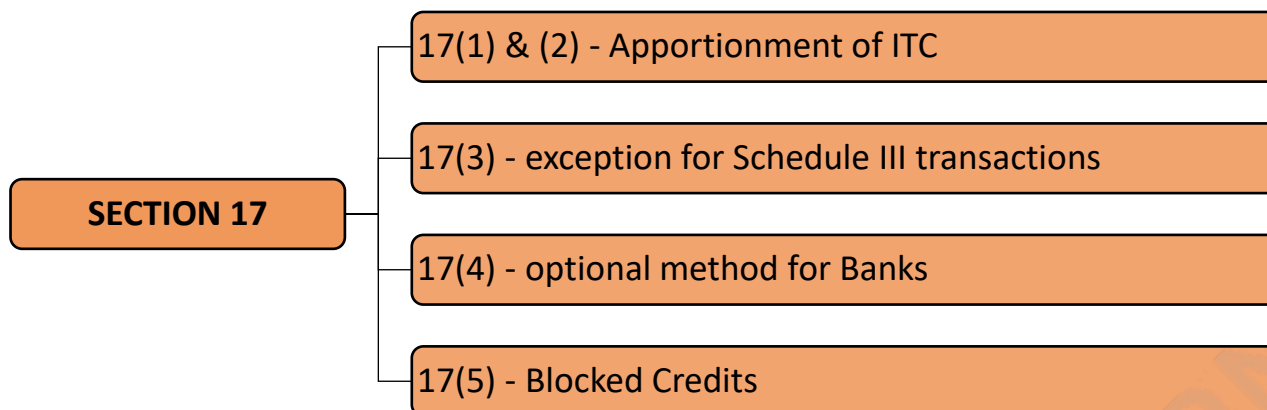

2.5 - Depreciation claimed on tax component - Sec 16(3)

- If the person taking the ITC on capital goods and plant and machinery has claimed depreciation on the tax component of the cost of the said items under the Income-tax Act 1961, the ITC on the said tax component shall not be allowed.
- Thus, in respect of the tax paid on such items, either depreciation on the tax component can be claimed under Income Tax Act or ITC of such tax paid can be availed under GST laws. Dual benefit cannot be claimed.

2.6 - Time limit for availing ITC - Sec 16(4)

- ITC on invoices pertaining to a financial year or debit notes relating to invoices pertaining to a financial year can be availed any time till the
 - Due date of filing of the return for the month of September of the succeeding financial year OR
 - The date of filing of the relevant annual return,
 - whichever is earlier.
- The return for the month of September is to be filed by 20th October and annual return of a financial year is to be filed by 31st December of the succeeding financial year.
- The underlying reasoning for this restriction is that no change in return is permitted after
 - Due date of filing of the return for the month of September of the succeeding financial year OR
 - The date of filing of the relevant annual return,
 - whichever is earlier.
- **Exception** - The time limit u/s 16(4) does not apply to claim for re-availing of credit that had been reversed earlier.
- **Note** - The time limit is only for availment and not for utilisation of credit.

3. APPORTIONMENT OF CREDIT & BLOCKED CREDIT - SECTION 17

- The fundamental principle of credit scheme under value added tax is that **tax paid** on inputs, input services and capital goods **can be availed as credit only when the output is taxable**. Thus, **when tax is not payable on output, credit cannot be availed**.
- Accordingly, **ITC under GST can be availed and utilised for payment of tax on output supply**. Consequently, **ITC cannot be availed when tax is not payable on output supply**, i.e. on exempt supply.
- **Exception:** The only exception to the above principle is 'zero rated supply, where ITC is available even if no tax is payable on output supply as zero-rated supply is not an exempted supply.
- If a taxable person is making both taxable and exempt supply, **he is entitled to full credit of ITC in respect of inputs, input services and capital goods exclusively used for taxable supply and no credit at all for inputs, input services and capital goods exclusively used for exempt supply**.
- If common inputs, input services and capital goods are used for taxable as well as exempt supply, **only proportionate ITC attributable to the taxable supply is available**.
- The common ITC is apportioned in the ratio of value of taxable supply and exempt supply.
- Also, in case goods and/or services are used by the taxable person **partly for the business purposes and partly for non-business purposes** - he is entitled to full credit of ITC in respect of inputs, input services and capital goods exclusively used for business purposes and no credit at all can be availed for goods and/or services exclusively used for non-business purposes.
- If common inputs, input services and capital goods are used partly for business and partly for non-business purposes, only proportionate ITC attributable to the business purpose is available.
- The situations requiring apportionment are as follows:
 - when the goods and / or services are used by the registered person partly for the purpose of business and partly for other purposes [**Section 17(1)**]; and

- when the goods and / or services are used by the registered person partly for making taxable supplies including zero-rated supplies and partly for making exempt supplies [Section 17(2)].
- In both the above situations, full ITC on inward supplies cannot be taken; **only proportionate ITC is allowed in such scenarios.**
- Where goods and/or services are used partly for non-business purposes and partly for business purposes - **ITC attributable only to business purposes can be taken by the registered person.**
- Similarly, where goods and/or services are partly used for making exempt supplies including zero rated supplies and partly for taxable supplies - **ITC attributable to taxable supplies and zero-rated supplies can be taken by the registered person.**

4. APPORTIONMENT OF CREDIT - SECTION 17 (1) & (2)

Apportionment of Credit - Rules 42 & 43

Rule 42 - Methodology for apportionment of ITC on inputs and input services and reversal of ineligible credit:

- **Step 1 - Compute common credit**

Total input tax involved on inputs & input services in a tax period	T
Less: Input tax that used exclusively for non-business purposes	(T1)
Less: Input tax used exclusively for exempt supplies	(T2)
Less: Input tax on blocked credits u/s 17(5)	(T3)
ITC credited to Electronic Credit Ledger [C1 = T - (T1+T2+T3)]	C1
Less: ITC used exclusively for taxable supplies including zero rated supplies	(T4)
Common ITC available for apportionment	C2

- T1, T2, T3 and T4 will be determined and declared by the registered person at the invoice level in GSTR 2 and summary level in GSTR- 3B.
- Where ITC on inputs and input services used partly for non- business purposes and exempt supplies can be segregated at invoice level, the same will be added to T1 and T2 respectively and the balance credit will be added in T4.
- The portion identified as pertaining to taxable supplies in C2 will be allowed as ITC.

- **Step 2 - Compute credit attributable to exempt supplies (ineligible credit) by apportionment of common credit**

Common ITC available for apportionment	C2
Aggregate value of exempt supplies during the tax period	E
Total turnover in the State during the tax period	F
Apportion C2 into credit attributable to exempt supplies	D1
$D1 = C2 \times \frac{E}{F}$	

- If the registered person does not have any turnover during the said tax period, or the above information is not available, the values for the last tax period may be used.

- **Step 3 - Compute credit attributable to non-business purposes**

Compute credit attributable to non-business purposes	D2
$D2 = 5\% \text{ of } C2$	

- **Step 4 - Compute eligible Credits**

Compute C3 attributable to business purposes and taxable supplies including zero rated supplies as under	C3
$C3 = C2 - (D1 + D2)$	

- **Step 5 - Restrict ineligible credits**

Reverse D1 + D2.	
The sum of D1 and D2 will be added to the output tax liability.	

- **Key points with regard to Exempt supplies**

- Exempt supplies **include**
 - ✓ Reverse charge supplies,
 - ✓ Transactions in securities,
 - ✓ Sale of land and sale of building when entire consideration is received either after issuance of completion certificate by the competent authority or its first occupation, whichever is earlier.
 - ✓ Thus, **ITC attributable to such supplies will need to be reversed.**
- Exempt supplies **exclude**
 - ✓ Transactions/activities specified in Schedule III except sale of land and sale of building as specified in point (ii) above.
 - ✓ Supply of services by way of accepting deposits, extending loans or advances where the consideration is either interest or discount. However, value of such services is

included in the exempt supply when the same are provided by a banking company or a financial institution including a NBFC.

- ✓ Transportation of goods by a vessel from the customs station of clearance in India to a place outside India.
- ✓ Thus, **ITC attributable to such supplies need not be reversed.**
- Aggregate value of exempt supplies and total turnover **excludes the central excise duty, State excise duty, central sales tax and VAT.**
- Non-taxable supply includes supply of
 - ✓ Alcoholic liquor for human consumption
 - ✓ Petroleum products like petroleum crude, diesel, petrol, ATF, natural gas.
- Presently, (i) central excise duty is leviable on manufacture/production of tobacco, petroleum crude, diesel, petrol, ATF and natural gas (ii) State excise duty is leviable on manufacture/production of alcoholic liquor, opium, Indian hemp and narcotics, and (iii) VAT/CST is leviable on intra- State/inter-State sale of petroleum crude, diesel, petrol, ATF, natural gas and alcoholic liquor.
- The value of exempt supply in respect of
 - ✓ Land and building are the value adopted for paying stamp duty and
 - ✓ for security is 1% of the sale value of such security.
- **Final amount**
 - Compute C3 separately for ITC of CGST, SGST/ UTGST and IGST.
 - Compute $\sum (D1 + D2)$ for the whole financial year, by taking exempted turnover and aggregate turnover for the whole financial year, before the due date for filing the return for September in the following financial year.
 - If $\sum (D1 + D2) >$ the amount already reversed every month, the differential amount has to be reversed in any month till September in the following financial year and interest @ rate 18% should be paid on such differential amount from 1st April of succeeding year till the date of payment.
 - If the amount reversed every month $> \sum (D1 + D2)$, the additional amount paid has to be claimed back as credit in the return of the month not later than September in the next financial year.

Rule 43 - Methodology for apportionment of ITC on Capital Goods and reversal thereof:

- **Step 1 - Determine the credit based on exclusive use.**
 - Identify input tax on capital goods used/ intended to be used **exclusively for non-business purposes or making exempt supplies** and declare the same in GSTR 2 and Form GSTR 3B. Such amount will **not be credited to electronic credit ledger**.
 - Identify input tax on capital goods used/ intended to be used **exclusively for making taxable supplies other than exempted supplies but including zero rated supplies** and declare the same in GSTR 2 and GSTR-3B. Such amount will be **credited to electronic credit ledger**.
- **Step 2 - Determine common credit on capital goods for a tax period**
 - Identify input tax on capital goods (as reflected on the invoice) which are used/intended to be used commonly for making taxable and/or zero rated supplies as well as exempt supplies and/or non-business purposes and denote the same as '**T_c**'.
 - Such amount (as reflected on the invoice) will be credited to electronic credit ledger subject to the condition that the ineligible credit attributable to the period during which such capital goods were covered by clause (a), denoted as '**Tie**', .
 - **Tie** shall be calculated at the rate of five percentage points for every quarter or part thereof and added to the output tax liability of the tax period in which such credit is claimed
 - '**Tie**' shall be computed separately for input tax credit of central tax, State tax, Union territory tax and integrated tax and declared in FORM GSTR 3B.
 - The **useful life** of such capital goods will be taken as **5 years** from the date of invoice.
 - The input tax credit claimed in respect of such capital good(s) shall be added to arrive at the aggregate value '**T_c**';
 - Determine common credit during the useful life of capital goods for a tax period as under and denote the same as '**T_m**'

$$T_m = \frac{T_c}{60}$$

- **Step 3 - Apportion common credit attributable to exempt supplies as under and denote it by T_e**

$$T_e = T_r \times (E/F)$$

- Where, E = Aggregate value of exempt supplies made during the tax period F = Total turnover in the State during the tax period
- All the points with regard to Aggregate value and exempt supplies are same as mentioned above under Rule 42.

- **Step 4 - Add T_e to the output tax liability along with applicable interest during every tax period of the useful life of the capital goods concerned.**

Exception for Schedule III transactions - Section 17(3)

The value of exempt supply under sub-section (2) shall be such as may be prescribed, and

- shall include supplies on which the recipient is liable to pay tax on RCM,
- transactions in securities,
- Sale of land and, subject to clause (b) of paragraph 5 of Schedule II, sale of building.

Explanation - The expression "value of exempt supply" shall not include the value of activities or transactions specified in Schedule III, except -

- i. the value of activities or transactions specified in paragraph 5 of the said Schedule; and
- ii. the value of such activities or transactions as may be prescribed in respect of clause (a) of paragraph 8 of the said Schedule.";

Thus, it implies that the activities/transactions mentioned in clauses (i) and (ii) above are included in the value of exempt supply.

Further Explanation 3 inserted to Rule 43 prescribing value for the purpose of clause (ii) above as: the value of supply of goods from Duty Free Shops at arrival terminal in international airports to the incoming passengers.

Optional Method for Banks - Section 17 (4) + Rule 38

- As an alternative to the above method, a banking company or a financial institution including a NBFC, which accepts deposits, or extends loans or advances, has the option to limit its availment of ITC to 50% of the eligible ITC on inputs, capital goods and input services each month and **the balance amount of input tax credit shall be reversed in Form GSTR-3B.**
- Credit of tax paid on inputs and input services that are used for non-business purposes and items mentioned u/s section 17(5) [blocked credits] cannot be availed.
- The restriction of availing 50% ITC shall not apply to the tax paid on supplies procured from another registration within the same entity, i.e. 100% credit of such tax can be availed.
- The option once exercised cannot be changed during the remaining part of the financial year.
- Interest is the main income of banks and NBFCs and the same is exempt from GST. Thus, if rule 42 and 43 are applied strictly, significant portion of ITC of banks and NBFCs will have to be reversed/added to output tax liability. Therefore, banks and NBFCs have been given the said option of availing 50% of eligible ITC to possibly encourage them as they are required to finance priority sectors, MSME, agriculture etc.

5. BLOCKED CREDITS - SECTION 17 (5)

- ITC of tax paid on almost every input and input services used for supply of taxable goods and/or services is allowed under GST except a small list of items provided u/s 17(5).
- Thus, ITC on such items is not allowed even though the same may qualify as inputs, input services or capital goods and are used in the course or furtherance of business.

5.1 - Motor vehicles and other conveyances and related services - Section 17(5)(a)

- ITC is blocked on purchase of motor vehicles used for passenger transportation with certain exceptions.
- Motor vehicles for this purpose means any motor vehicle used for transportation of persons with seating capacity \leq 13 persons (including the driver)
- **Exceptions to the above rule:** Motor vehicles when used for any of the following purposes, ITC on them is allowable:
 - 1) making further taxable supply of such motor vehicles;
 - 2) making taxable supply of transportation of passengers;
 - 3) making taxable supply of imparting training on driving such motor vehicles
 - 4) motor vehicle used for transportation of goods, dumpers, tippers etc
 - 5) motor vehicles for transportation of persons with seating capacity $>$ 13 persons (including the driver) used for any purpose.

5.2 - Vessels and aircrafts - Section 17(5)(aa)

- ITC is blocked on purchase of vessels and aircrafts used for business purposes with certain exceptions.
- **Exceptions to the above rule:** Credit is allowed in the following cases
 - 1) making further taxable supply of such vessels or aircraft
 - 2) making taxable supply of transportation of passengers
 - 3) making taxable supply of imparting training on navigating and flying such vessels
 - 4) vessels and aircrafts used in transportation of goods

5.3 - General insurance, servicing, repairs and maintenance - Sec 17(5)(ab)

- ***ITC is not allowed on services of general insurance, servicing, repair and maintenance relating to motor vehicles, vessels or aircraft, ITC on which is not allowed.***
- ITC is allowed on services of general insurance, servicing, repair and maintenance relating to motor vehicles, vessels or aircraft, ITC on which is allowed.

- ITC is allowed on such services when received by Manufacturer of such motor vehicle, vessels or aircrafts.
- ITC is allowed on such services when receiver is engaged in general insurance business.

5.4 - Leasing, renting and hiring of motor vehicles, vessels, or aircraft - Section 17(5)(b)

- ITC is not allowed on Leasing, renting and hiring of motor vehicles, vessels, or aircraft on which ITC is blocked.
- ITC on such services is allowed
 - when used for making an outward taxable supply of the same category of services or as an element of a taxable composite or mixed supply.
 - when provided by an employer to its employees under a statutory obligation
- ITC on leasing, renting or hiring of motor vehicles, vessels or aircraft on which ITC is allowed, is also allowed.

5.5 - Food & beverages, outdoor catering, health services and other services - Section 17(5)(b)

- ITC is blocked in the case of
 - Food and beverages
 - Outdoor catering
 - Beauty treatment
 - Health Services
 - Cosmetic and plastic surgery
 - Life insurance and health insurance
- However, ITC is allowed if
 - Such goods and/or services when used by a registered person for making an outward taxable supply of the same category of goods and/or services or as an element of a taxable composite or mixed supply.
 - Such goods and/or services when provided by an employer to its employees under a statutory obligation.

5.6 - Membership of a club, health and fitness center - Section 17(5)(b)

- ITC on Membership of a club, health and fitness center taken for either personal use or business use (i.e. By the employer for its employees) is not allowed.
- However, ITC is allowed on such services when provided by an employer to its employees under a statutory obligation.

5.7 - Travel benefits extended to employees on vacation such as leave or home travel concession - Section 17(5)(b)

- ITC on Travel benefits extended to employees on vacation such as leave or home travel concession is blocked.
- ITC is allowed on such services when provided by an employer to its employees under a statutory obligation.

5.8 - Works contract services for construction of immovable property - Section 17(5)(c)

- ITC on works contract services for construction of an immovable property is blocked.
- "Construction" includes re-construction, renovation, additions or alterations or repairs, to the extent of capitalization, to the said immovable property.
- If re-construction, renovation, additions or alterations or repairs are not capitalized, it would not tantamount to construction under GST law. Thus, **when the value of works contract service is not capitalized, ITC is allowed to all recipients irrespective of their line of business.**
- Capitalisation of an expense does not depend on whether the taxpayer intends to avail ITC, but on the basis of Accounting Standards and GAAP.

Works Contract – [Sec 2(108)] – means a contract for building, construction, fabrication, completion, erection, installation, fitting out, improvement, modification, repair, maintenance, renovation, alteration or commissioning of any **immovable property** wherein transfer of property in goods (whether as goods or in some other form) is involved in the execution of such contract.

- Essentially works contract is a composite supply involving both goods and services. Under GST law, the ambit of works contract has been **confined only to immovable property.**
- **Exceptions to the above rule:** ITC on works contract services for construction of immovable property is available only in the following 2 situations:
 - When the works contract service is availed by a works contractor for being used in providing the works contract service.
 - For construction of plant and machinery (ITC is allowed to all the recipients irrespective of their line of business)

“Plant and machinery” - means apparatus, equipment, and machinery fixed to earth by foundation or structural supports that are used for making outward supply of goods and/or services and includes such foundation or structural support but excludes

- 1) Land, building or other civil structures,
- 2) Telecommunication towers, and

5.9 - Self-construction of immovable property - Section 17(5)(d)

- ITC is not allowed on goods and/or services received by a taxable person for construction of an immovable property (other than plant and machinery) **on his own account** even though such goods and/or services are used in the course or furtherance of business.
- ITC on goods and/or services used in the construction of an immovable property is blocked only in those cases where the taxable person constructs the immovable property for his own use even if the immovable property being constructed is used in the course or furtherance of his business.
- 'construction' and 'plant and machinery' for works contract services as defined above, applies to construction on own account also.
- Thus, ITC on goods and/or services used in construction of immovable property is available only in the following three situations:
 - 1) For construction of plant and machinery
 - 2) When the value of goods and/or services is not capitalized
 - 3) When the construction is not on own account

5.10 - Inward supplies charged to tax under composition levy - Section 17(5)(e)

- Tax paid on goods and/or services under composition scheme is not available as ITC.
- Since a composition supplier cannot collect any tax on its supplies, from the recipient of its supplies, it is obvious that no ITC can be availed in respect of such supplies by the recipients.
- A supplier registered under composition scheme issues bill of supply and not a tax invoice.

5.11 - Inward supplies received by a non-resident taxable person - Section 17(5)(f)

- A non- resident taxable person has no fixed place of business in India but he sporadically supplies goods or services in India.
- Tax paid on goods and/or services received by such non-resident taxable person, is not available as ITC. However, tax paid by him on **imported goods** is allowed as ITC.
- **ITC on goods imported by a non-resident taxable person is allowed, ITC on services imported by him is blocked.**

5.12 - Inward supplies used for CSR relates activities - Section 17(5)(fa)

- ITC is blocked on goods or services or both received by a taxable person, which are used or intended to be used for activities relating to his obligations under corporate social responsibility referred to in section 135 of the Companies Act, 2013

5.13 - Inward supplies used for personal consumption - Section 17(5)(g)

- Section 17(5)(g) specifically blocks the ITC on goods and/or service used for personal consumption.
- The term 'personal consumption' may be understood in the general sense which would mean non-business use.
- One of the foremost conditions laid down in section 16 for availing ITC on goods and/or services is that such goods and/or services should be used in the course or furtherance of business.
- Further, where goods and/or services are used partly for the purpose of any business and partly for other purposes, section 17(1) restricts the credit to so much of the ITC as is attributable to business purposes.

5.14 - Free samples, gifts, goods lost/stolen etc. - Sec 17(5)(h)

- Section 17(5)(h) blocks credit on
 - Goods that are disposed of by way of gift
 - Goods that are disposed of by way of free samples
 - Lost goods
 - Stolen goods
 - Destroyed goods
 - Goods that are written off
- This is because principally, ITC is available only for payment of tax on output supply. If no tax is payable on output supply, ITC on inputs/input services/capital goods relating to such output supply is not eligible.
- Gift means transfer of certain existing moveable or immoveable property made voluntarily and without consideration, by one person, called the donor, to another, called the donee, and accepted by or on behalf of the donee. It cannot be demanded as a matter of right.
- samples are given to prospective customers to enable them to test the quality of the item before making a decision to buy the same.
- **Buy one get one free offer** - It can be treated as supplying two goods for the price of one. Taxability of such supply will be dependent upon as to whether the supply is a composite supply or a mixed supply and the rate of tax shall be determined as per the provisions of section 8. ITC shall be available to the supplier for the inputs, input services and capital goods.
- **Discounts including 'Buy more, save more' offers** - Discounts offered by the suppliers to customers shall be excluded to determine the value of supply.

- However, the supplier shall be entitled to avail the ITC for such inputs, input services and capital goods used in relation to the supply of goods or services or both on such discounts.
- **Return of time expired medicines/drugs are treated as fresh supply** - The retailer/wholesaler can return the time expired goods, either by treating the same as fresh supply or by issuing credit notes.
- Where the goods returned by the retailer/wholesaler as a fresh supply, are destroyed by the manufacturer, he/she is required to reverse the ITC availed on the return supply in terms of section 17(5)(h).

5.15 - Tax paid in fraud cases, detention, confiscation etc. - Section 17(5)(i)

- Tax paid under sections 74, 129 and 130 is not available as ITC.
- These sections prescribe the provisions relating to tax paid as a result of evasion of taxes, or upon detention of goods or conveyances in transit, or towards redemption of confiscated goods/conveyances.

6. CREDIT IN CASE OF SPECIAL CIRCUMSTANCES - SECTION 18

6.1 - Person liable for registration - Section 18(1)(a)

- A person who has applied for registration under this Act within thirty days from the date on which he becomes liable to registration and has been granted such registration
- shall be entitled to take credit of input tax in respect of
 - inputs held in stock and
 - inputs contained in semi-finished or
 - inputs contained in finished goods

9. CLARIFICATIONS

9.1 - Clarification regarding availment of ITC in respect of common input services procured from a third party but attributable to both HO and BO's or exclusively to one or more BO's

Issue: Whether HO can avail the ITC in respect of common input services procured from a third party but attributable:

- i. to both HO and BOs or
- ii. exclusively to one or more BOs,

issue tax invoices under section 31 to the said BOs for the said input services and the BOs can then avail the ITC for the same or whether is it mandatory for the HO to follow the Input Service Distributor (ISD) mechanism for distribution of ITC in respect of such common input services?

Clarification: It is clarified that in such a case, as per the present provisions of the law, it is not mandatory for the HO to distribute such ITC by ISD mechanism. HO has an option to:

- i. distribute ITC in respect of such common input services by following ISD mechanism, or
- ii. issue tax invoices under section 31 to the concerned BOs in respect of common input services procured from a third party by HO but attributable to the said BOs and the BOs can then avail ITC on the same subject to the provisions of sections 16 and 17.

1. INTRODUCTION

1.1 - Need for Registration

- Under indirect tax regime, without registration, a person can neither collect tax from his customers nor claim any credit of tax paid by him.
- Registration ensures the *seamless flow of input tax credit* from suppliers to recipients at the national level.

1.2 - Pattern of Registration

- Registration in GST is **PAN based**.
- Under GST, registrations need to be taken **State-wise**, i.e. there are no centralized registrations.
- A supplier has to obtain registration in every State/UT from where he makes a taxable supply provided his aggregate turnover exceeds a specified **threshold limit**.
- There is **single registration** for all the taxes i.e. CGST, SGST/UTGST, IGST and GST compensation cess.

2. PERSONS LIABLE FOR REGISTRATION - SECTION 22

2.1 - Threshold Limits - Section 22

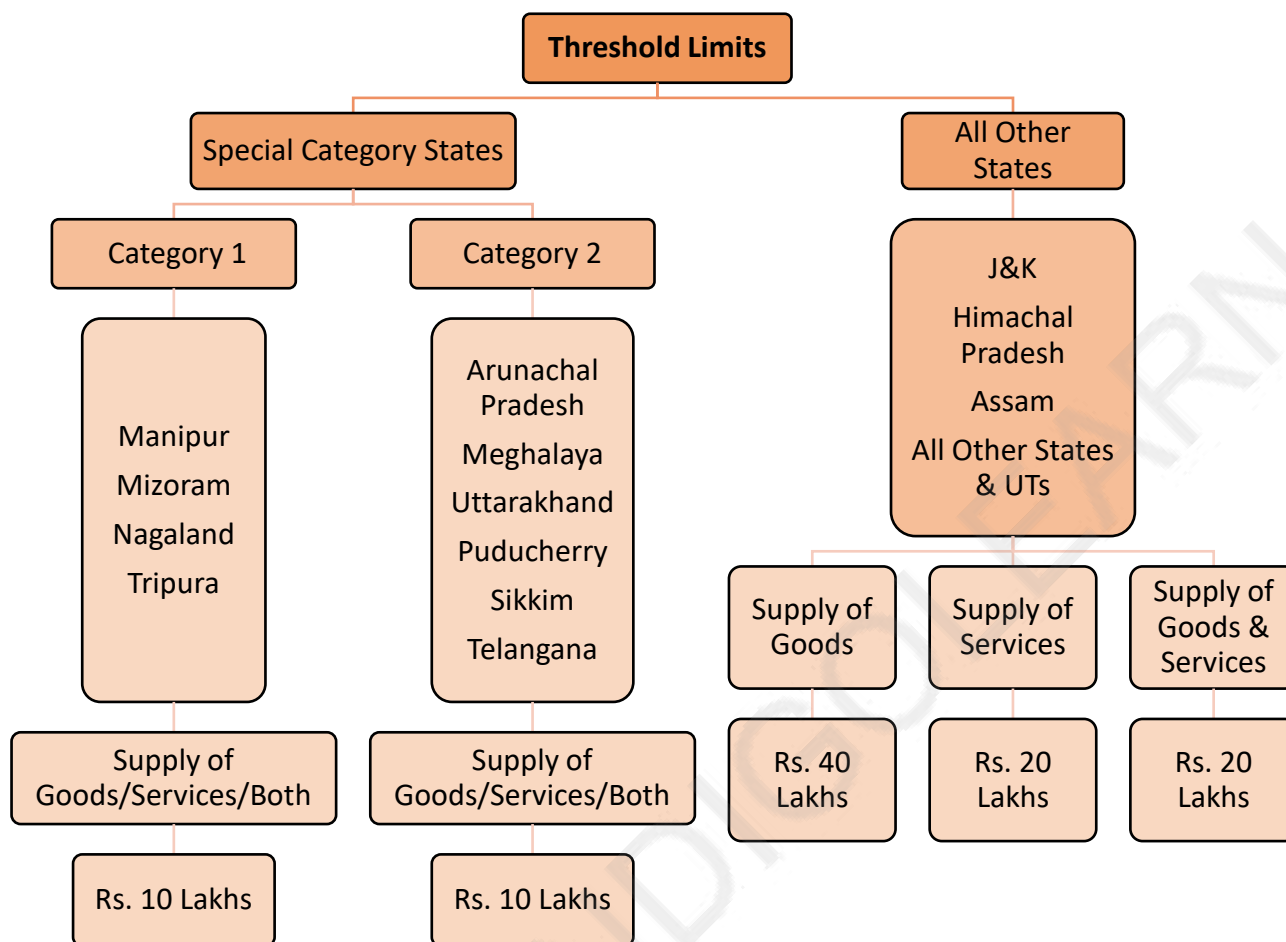

- Every supplier of goods or services or both is required to obtain registration in the State or the Union territory from where he makes the taxable supply if his aggregate turnover exceeds specified threshold limit in a FY.
- Every supplier, whose aggregate turnover *in a financial year exceeds 20 lakhs*, is liable to be registered under GST in the State/ Union territory from where he makes the taxable supply of goods and services or only service.
- However, the limit will be reduced to **10 lakhs if the person is carrying out business in Mizoram, Tripura, Manipur, and Nagaland.**
- This limit is for Supply of goods and / or services.
- Further, the limit is **40 lakhs** where the supplier is engaged in exclusive supply of goods from **states other than Mizoram, Tripura, Manipur, Nagaland, Arunachal Pradesh, Meghalaya, Sikkim, Tripura, Puducherry, Telangana and Uttarakhand.**
- For the purposes of section 22(1), a person shall be considered to be engaged exclusively in the supply of goods *even if he is engaged in exempt supply of services provided by way of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount.*

Notification No. 10/2019 CT dated 07.03.2019 – exempts any person who is engaged exclusively in supply of goods and whose aggregate turnover in the financial year does not exceed Rs. 40 lakhs, from the requirement to obtain a registration.

10. ASSESSMENT & AUDIT

Contents

- Complete understanding of different kinds of assessments under GST
- Knowledge of audit by tax authorities
- Knowledge Special Audit

1. SELF ASSESSMENT - SECTION 59

- GST is based on trust and the primary obligation of payment of tax lies on assessee himself. Every **registered person** shall self-assess the taxes payable under this Act and furnish a return for each tax period as specified under section 39.

2. PROVISIONAL ASSESSMENT - SECTION 60

2.1 - Need of Provisional Assessment

- The assessee can opt for provisional assessment when he/she **is unable** to -
 - **determine the value** of goods or services or both; or
 - determine the **rate of tax** applicable
- Thus, provisional assessment is used in situations which makes it difficult for the assessee to determine the taxable value or the rate of tax.

2.2 - Aggregate Turnover

- The process to be followed for provisional assessment is stated below -
 - **File an application** (in FORM GST ASMT-01) on the common portal, either directly or through a Facilitation Centre. The application is **filed along with the documents** in support of his request for payment of tax on a provisional basis.
 - The proper officer may **issue a notice** (in FORM GST ASMT-02) requiring the registered person to **furnish additional information or documents** in support of his request.
 - The applicant shall file a **reply to the notice** (in FORM GST ASMT - 03) and may appear in person before the proper officer.

- The proper officer shall **pass an order** (in FORM GST ASMT-04), within a **period not later than ninety days** from the date of receipt of such request allowing -
 - a. payment of tax on provisional basis at such rate or on such value as may be specified by him and
 - b. the amount for which the bond is to be executed and security to be furnished.

2.3 - Need of bond and security

- The assessee making the payment on provisional basis needs to -
 - **execute a bond** (in FORM GST ASMT-05) for the amount specified by the proper officer, and
 - provide the **security** in the form of a bank guarantee, for a value not exceeding 25% of the amount covered under the bond.
- The purpose of the bond is to bind the assessee for payment of the **difference** between the **amount of tax** as may be **finally assessed** and the amount of tax **provisionally assessed**.

Note -

- The '**amount of bond**' shall include the amount of integrated tax, central tax, State tax or Union territory tax and cess payable in respect of the transaction.

2.4 - Final Assessment Order

- The proper officer shall issue a notice (in FORM GST ASMT-06), calling for information and records required for finalization of assessment.
- The final order shall be issued within a period **not exceeding 6 months** from the **date of the communication** of the **order of provisional assessment**.
- The period of 6 months may be **extended**, on sufficient cause being shown and for **reasons to be recorded in writing**, by -
 - a. the Joint Commissioner or Additional Commissioner for a **further period not exceeding 6 months**; and
 - b. the Commissioner for such **further period not exceeding 4 years**.
- Thus, the maximum period available for passing the final assessment order is 5 years (6 months + 6 months + 4 years).
- The proper officer shall issue a final assessment order, specifying the amount payable by the registered person or the amount refundable, if any (in FORM GST ASMT-07).

2.5 - Release of Scrutiny

- The applicant may file an application (in FORM GST ASMT-08) for the release of the security after issue of the final assessment order.
- The proper officer shall release the security, after **ensuring that the applicant has paid the amount** specified in the final order and issue an order (in FORM GST ASMT-09) **within a period of 7 working days** from the date of the receipt of the application.

2.6 - Payment of Interest

Case 1 - When the tax liability as per the final assessment is higher than the provisional assessment

- When the tax becomes due in final assessment, the registered person in addition to the differential tax shall be liable to **pay interest on the tax due but not paid**, at the rate specified under section 50(1) i.e. **18%**.
- The time period for such payment shall be calculated from the date the **tax was due to be paid originally till the date of actual payment**.
- The payment of interest shall be done irrespective of the fact that whether such amount is paid before or after the issuance of order for final assessment.

Example -

Mr. Amith is unable to determine the amount of tax for the month of May, 20X5. With the help of the details given below, compute the interest payable by Mr. X.

Provisional payment of tax on 20 th June, 20X5	Rs. 50,000/-
Final assessment order date	18 th December
Tax as per final assessment	Rs. 70,000/-
Payment of the different of Rs. 20,000/-	20 th December, 20X5

Solution -

In the above case, the tax shall be paid on Rs. 20,000/- from 20th June (the actual date of liability) to 20th December.

Amount of interest = $20,000 \times 18\% \times 183/365 = \text{Rs. } 1805/-$

Case 2 - When the tax liability as per the final assessment is lower than the provisional assessment

- When the tax becomes refundable consequent to the order of final assessment, the interest becomes payable if the **amount is not paid within a period of 60 days of the issue of final assessment order**.
- The rate of interest shall be the rate specified under section 56 i.e. **6%** from 61st day of the order.

Example -

Mr. Amith is unable to determine the amount of tax for the month of May, 20X5. With the help of the details given below, compute the interest payable, if any.

Provisional payment of tax on 20 th June, 20X5	Rs. 50,000/-
Final assessment order date	18 th December
Tax as per final assessment	Rs. 20,000/-
Refund of the difference of Rs. 30,000/-	2 nd February, 20X6

Solution -

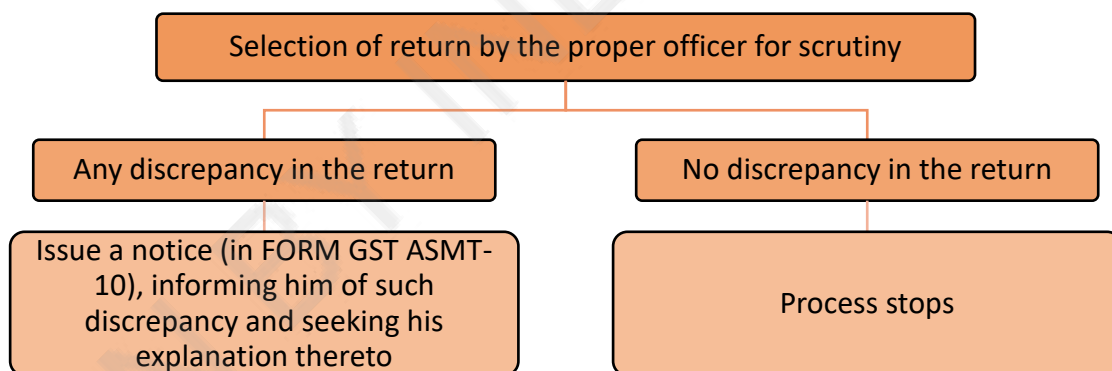

In this case, the tax payment done by Mr. X is more than the liability as per the final assessment, thus leading to refund of Rs. 30,000/-

The date of final assessment order was 18th December and the payment has been done within 60 days of the final order, hence the government is not liable to pay any interest on the refundable amount.

- A GST e-invoice will be valid only with a valid IRN.

- Presently, invoices, credit notes and debit notes, when issued by notified persons (to registered persons (B2B) or for the purpose of exports) are covered under e-invoice.

12.2 - From when to issue E-invoices

- *With effect from 01.08.2023, such limit has been reduced to Rs. 5 crore. Thus, e-invoicing has been made mandatory for all registered businesses with an aggregate turnover in any preceding financial year from 2017-18 onwards greater than Rs. 5 crore.*
- *Such persons will be called notified persons.*
- If the invoice issued by a notified person is in respect of supplies made by him tax on which is payable under reverse charge under section 9(3), e-invoicing is applicable.
- On the other hand, where specified category of supplies are received by notified person from unregistered persons [attracting reverse charge under section 9(4)] or through import of services, e-invoicing doesn't arise/ not applicable.
- E-invoicing is also not applicable for import of goods (Bills of Entry).
- *Every invoice, issued by above persons, in any manner other than the manner specified in the rule 48(4) shall not be treated as an invoice.*
- *E invoicing is applicable even in case of supply made by registered person to Government department or agencies or local authority or PSU registered solely for the purpose of TDS as per Section 51.*

12.4 - Exemption from E-invoicing

- Following entities are exempt from the mandatory requirement of e-invoicing:
 1. Special Economic Zone units
 2. Insurer or banking company or financial institution including NBFC
 3. GTA supplying services in relation to transportation of goods by road in a goods carriage
 4. Supplier of passenger transportation service
 5. Person supplying services by way of admission to exhibition of cinematograph films in multiplex screens
 6. Invoices issued by Input Service Distributor (ISD)
 7. ~~Government Department/PSU~~
 8. Local Authority
- In case of supplies made by notified persons to SEZ units, e-invoices need to be issued.
- Applicability of e-invoicing to Government Departments/PSUs etc. registered solely for the purpose of deduction of tax at source as per provisions of section 51

12.5 - Advantages of E-invoicing

- Auto-reporting of invoices into GST return and auto-generation of e-way bill (wherever required).
- GSTR-1 can also be auto-populated with the e-invoice data.
- On receipt of information through GST System, buyer can do reconciliation with his Purchase Order.
- Facilitate standardisation and inter-operability leading to reduction of disputes among transacting parties, improve payment cycles, reduction of processing costs and thereby greatly improving overall business efficiency.
- since a complete trail of B2B invoices is available with the Department, it will enable the system-level matching of input tax credit and output tax thereby reducing the tax evasion.
- Where e-invoicing is applicable, there is no need of issuing invoice copies in triplicate/duplicate.

12.6 - How e-invoice is generated and how GST system uses it

- The taxpayer first prepares and generates his invoice using his own ERP/ accounting/ billing system or manual system.
- The invoice must conform to the e-invoice schema (standard notified format) and must have the mandatory parameters.
- The details of this invoice are uploaded/reported by the taxpayer to the Invoice Registration Portal (IRP). This way taxpayer registers his supply transaction on IRP.

- On uploading, IRP returns the e-invoice with a unique 'Invoice Reference Number (IRN)' after digitally signing the e-invoice and adding a QR Code (Quick Response Code).
- Then, the supplier shares the e-invoice with the receiver (along with QR Code).
- IRP sends the e-invoice data along with IRN to the GST System as well as to E- Way Bill System.
- The GST system will auto-populate them into GSTR-1 of the supplier and GSTR- 2A of respective receivers.
- **Where needed, the seller can cancel IRN for an e-invoice already reported by reporting it on IRP within specified time. Amendment of e-invoice already uploaded on IRP will be done only on GST portal. Amendment of invoices is not possible through the IRP.**

12.7 - Other key points

- E-invoice Schema - Uniform standard format (containing specified fields) applicable for all the businesses across the country is known as 'e-invoice schema'. It is notified as **Form GST INV-1**.
- E-invoice schema mandates what particulars shall be reported in electronic format to IRP. By this, e-invoices generated by one software can be read by any other software, thereby eliminating the need of fresh/manual data entry.
- **Invoice Registration Portal (IRP)** - IRP is the website for uploading/reporting of invoices by the notified persons.
- **Invoice Reference Number** - GST invoice will be valid only with a valid IRN. IRN is different from invoice number. Invoice no. (e.g., ABC/1/2019-20) is assigned by supplier and is internal to business. Its format can differ from business to business and also governed by relevant GST rules. IRN, on other hand, is a unique reference number (hash) generated and returned by IRP, on successful registration of e-invoice.
- **ECO** - The e-invoicing system is also **available for the E-Commerce Operators (ECO)** to report the invoices to the Invoice Registration portal, generated by them on behalf of the suppliers.
- **Bulk uploading** of invoices to IRP is also possible.
- **QR code** - Upon successful registration of invoice on IRP, it will return a signed e-invoice to the supplier with IRN and QR (Quick response) Code. The QR code enables quick view, validation and access of the invoices from the GST system from hand-held devices.
- **Dynamic QR code** - Invoice issued by a registered person (except specified class of persons who have been exempted), whose **aggregate turnover in a financial year exceeds Rs.500 crores, in respect of B2C supplies** (supply of goods or services or both to an unregistered person) shall have Dynamic QR code.
- A Dynamic Quick Response (QR) code made available to buyer by such registered person through digital display (with payment cross- reference) shall be deemed to be having QR code.

The purpose of this provision is to enable and encourage digital payments where buyer can scan the dynamic QR code and make payment from mobile wallet directly.

- This has no relevance or applicability to the e-invoicing in respect to B2B supplies by notified class of taxpayers. Dynamic QR Code will be generated by the seller himself either on the Point of Sale (PoS) machine or the invoice issued.
- CBIC has clarified that there is no requirement to carry the physical copy of tax invoice in cases where e-invoice has been generated by the supplier. Whenever e-invoice has been generated, production of the Quick Reference (QR) code having an embedded Invoice Reference Number (IRN) electronically, for verification by the proper officer, would suffice.
