

HT3225

Product Specification

Specification

Fully welded construction in grade 304 stainless steel tubing. Slip resistant Satin Stainless Steel with flange covers. Standard 32mm diameter, Grade 304 stainless steel. Easy to install on most building surfaces (fixings supplied by others) designed for maximum strength and user confidence. Available in lengths 600mm / 700mm / 1200mm centre of flange to centre of flange (eg. specify size eg. HT3225/600mm for 600mm length). Conforms to AS1428.1-2009. The HT3225 product is made to the highest standards and currently the only TGA registered grab rail manufactured in Australia.

Options

Polished stainless steel, powder coated finish, or knurled 32mm section.

Guarantee
