To meet requirements of AS1428.1

1. Coach Screw fixings supplied are for timber stud / noggin fixing only.
2. Fixings to be able to withstand a force of 1100N applied at any position and in any direction.
3. If studs or noggins cannot be screwed in. Then a BMK bracket mounting kit is recommended to be used. This can be purchased as a separate product.
4. In the fold down position. Mark hole centre against wall, drill appropriate holes for substrate and supplied fasteners. Screw into timber studs or noggins.
5. It is highly recommended that this product should only be installed by a licensed builder or tradesperson.

Note: To the extent permitted by law Bendtech does not provide any warranty in relation to bolts, screws or other fasteners provided with Bendtech products. You should obtain appropriate advice from a licensed trade person before affixing or installing.
