Airdancer

Put a face on your advertising

A wacky dancer – also known as an “air dancer” or “sky guy” – is kept in motion by a fan constantly blowing through a fabric tube with several openings in it. This makes the tubes “dance” in a way that’s guaranteed to draw the attention of anyone nearby!

Airdancers are tough and durable, and they’re incredibly easy to put up. The movement is what draws people’s attention, and the friendly-looking face on the sky guy invites them to keep looking. Logos can be printed or otherwise incorporated into the product, depending on the design. And if you’d like a special shape, just ask!

The tube is 45 cm in diameter and made of advertising nylon, 100% of which is digitally printable. Customize your skydancer however you like.

Our waving chef airdancer with arrow

Also available with interchangeable banners!

Don't forget to order your fan too!

Airdancer Fans

Light-up versions also available!

Airdancer Fan, Premium

Produces no more than 65 dB of sound at full power; continuously adjustable; uses only 480W at full power. Extremely durable.

- German-made ball bearings, industrial quality, extremely long-lasting
- Sounds 3x quieter
- Energy-efficient
- Continuously adjustable
- More powerful: can also power larger sky-dancers and custom designs
- Wheels for easy maneuvering

Weight 22kg

Item No.: DI1ADGB2 € 1.250,-

Light-up version

Item No.: DI1ADGB2Bel € 1.500,-

Airdancer Fan, Standard

Noise: approx. 95db
Power rating 1,1 KW

Includes wheels.

For noise-insensitive applications.

For use with all standard skydancers.

Weight: 20kg .

No lighting
Item No.: DI1ABGB1 € 350,-

Light-up version
Item No.: DI1ABGB1Bel € 600,-

Premium pays off with longer use!

At full power, the premium fan uses 62% less energy than the standard fan. If it's running for 10 hours a day, on five days a week, you save a fair amount money every year.

Depending on your location, you can make up for the price difference within two years, for example. The environment will be better off, and the surrounding area will have benefited from considerably less noise. And your fan's going to last a lot longer than that!

Fan base, 45 cm diameter

Not actually a skydancer fan; for tubes that are closed at the top and don't dance .

Fan base € 450,-

Less than 75 dB of noise, just 170 watts .

The skydancer tube is closed at the top, and costs the same as the dancing version.
