Desk

The Aire River meanders below towering forests, flowing gracefully towards the sea.

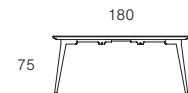

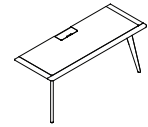

The Aire desk collection features both freestanding and fixed desks, crafted from a solid White Oak timber frame and the option of a hydro-formed leather inlay or solid top. The splayed legs provide ease of movement while also delivering an exceptionally stable base, complete with adjustable feet for added convenience.

The collection's elegant yet robust stance draws inspiration from the majestic silhouette of the gum trees that tower over the river's edge. The soft curve of the legs echoes the smooth pebbles that line the river floor.

The hydro-formed leather provides a comfortable writing surface with ergonomic wrist support. For added convenience, all cables and technology can be stowed below the table surface in a purpose-designed steel sub-surface tray.
