In and around the *Philosofia*, the bar at Barcelona's *Sofia Hotel*, groups of **A** vases at different heights and in various grey shades, planted with *Myrtus communis*, *Westringia fruticosa*, *Verbena bonariensis*, *Metrosideros excelsa* and *Acer campestre*, create intimate spaces on the terrace for guests enjoying a coffee in the early morning sunlight. While in London's *St Pancras* urban development, larger **A80** and **A120** models are put along *Stable Street*, to create a green walk way from *Granary* to *Lewis Cubitt Square*.

For King's Cross, Dan Pearson landscape architects positioned small groups of **A** planters a long Stable Street in order to create islands that guideline the visitor from one shop or restaurant to another. The more attractive the different areas are, the bigger the interaction between people becomes.
