

COVERS

All our furniture is thoroughly tested specifically for outdoor use. However, the weather and where you place your furniture could have an impact on its condition. Tribù has developed all-weather covers that prolong the lifespan of your furniture, reduce maintenance and leave you with more time to relax.

Our covers are made of PU-coated polyester that is water-repellent and UV-resistant. Thanks to their excellent breathable qualities, the covers reduce condensation and heat build-up, helping to prevent the formation of mould and mildew.

Important: please make sure your furniture, your cushions and your covers are completely dry and clean before using the covers. As the seams are not 100% waterproof, a combination of moisture and stains (from food, leaves, etc) could cause mould stains. Also, check that the fillings of the cushions are stain-free.

WASHING INSTRUCTIONS

Use a gentle detergent but no softening or bleaching agent. Superficial dirt can be removed with warm water and a soft microfiber cloth, using a ph-neutral cleaner if necessary. Solvents are not suitable as they may cause damage and discoloration. To prevent mildew, the cover should be completely dry before folding away. Let it dry in a well-ventilated area.
