

TRIBÙ

DROPS

AVAILABLE IN MULTIPLE SIZES

Drops side tables are inspired by the concentric circles formed by falling raindrops. They come in a selection of three different heights and two diameters, 40cm and 60cm. The bases have a crescent shape cut out of them, which makes grouping these versatile tables a visual game. Drops side tables, designed by Verónica Martínez, are easy to move and cluster together. Made of powdercoated aluminium, they are available in white, aluminium, wengé and burgundy.

MATERIALS

MATERIALS

Powdercoated aluminium

Aluminium is a non-ferrous metal, which combines great mechanical rigidity with light weight. This makes it especially suitable for furniture. If treated correctly, it has a good resistance to corrosion.

By powdercoating aluminium, this corrosion resistance can even be enhanced. After a chemical pre-treatment, an epoxy powder is applied statically and baked.

Tribù always uses European, ultra-durable and scratch-resistant polyester powdercoatings that guarantee a UV-resistance of 15 years.

For certain collections (Branch, Illum) parts of the frame are die-cast under high pressure which results in a seamless and extremely solid frame. Additionally, an extra epoxy primer coating is applied to these collections.

HOW TO MAINTAIN YOUR FURNITURE

MAINTENANCE

Powdercoated aluminium

Powder coated aluminium is easy to clean with clear water and a pH-neutral fluid detergent. Stubborn stains can be removed with Aluminium Cleaner. If necessary, use a soft brush to remove the dirt from the pores. To protect the frame against the adhesion of dirt, Metal Protector with Teflon® can be used which applies an invisible protective film.

PROTECTION COVERS

For each item a cover is available that protects the furniture against dirt. These covers in grey colour are made of PU coated polyester which is water-repellent and UV-resistant. Thanks to their excellent breathable qualities the covers reduce condensation and heat build-up, helping to prevent the formation of mold and mildew. Nevertheless, they are not 100% waterproof. Always make sure that furniture, cushions and covers are completely dry before covering furniture.
