Cushions and fabrics

CUSHIONS YOU CAN LEAVE OUTDOORS

DEDON relies on some of the world's most advanced textile technologies to create cushions you can leave outside. Our high-quality acrylic materials are UV-resistant and specially treated to make them splash-resistant, with no loss of comfort. The foam cores, created exclusively for DEDON, and synthetic fiber padding are surrounded by a water-repellent, breathable, spun-bonded wrap. After a shower of rain, allow your cushions to dry so as to protect them from mold stains. We recommend storing your cushions for the winter or when not in use for long periods, and using covers to keep them at their best. Before storing, make sure they are completely dry. Our materials meet the highest standards of quality for outdoor usage. All fabrics are quick-drying and easy to maintain.

FABRIC STYLES TO PLAY WITH

Each of the fabric styles in this catalog has a distinctive weaving structure that gives it a look and feel all its own. While any one of these fabrics is an ideal covering for cushions large or small, it's the opportunity to combine them that makes the DEDON collection so special. Play with textures. Mix the summery lightness of NATURA with the robustness of ATRIUM. Create subtle differences of shade by working with multiple fabric structures in the same color. The flexibility and creativity long associated with the finest indoor fabrics can now be enjoyed under the open skies.

FABRICS CATEGORY E

VENEZIA VELVET ACRYLIC

VENEZIA Outdoor velvet offers sophisticated visual and haptic heights.

WASHABLE AT	LIGHTFASTNESS	MARTINDALE
104° F (40 °C)	>7/8	100.000

Exclusively designed for decorative cushions, VELVET is renowned for its exquisite quality and design, bringing elegance to outdoor spaces with its vibrant colors. Crafted specifically for outdoor use, VELVET is 100% repellent and quick-drying, ensuring durability. The fabric's soft touch enhances comfort. Its solution-dyed acrylic fiber resists fading from sun exposure, water, and atmospheric elements, making it suitable for various environments, including humid places like bathrooms and screened porches, preventing mold and mildew growth. In perfect harmony as decora-

tive cushions, DEDON offers VELVET in four carefully selected colors. The material and softness of VELVET fabric allow for diverse textures and visual experiences, showcasing its unique characteristics. Given its delicate nature, VELVET requires special care. Avoid ironing, and if wrinkles need attention, use a steamer. For stain removal, a mixture of neutral soap and water is recommended. The removable covers can be either dry-cleaned or machine-washed in cold water, but refrain from using the spin-dryer for optimal care.

With its portfolio of outdoor fabrics, DEDON aims to offer the beauty, versatility and creative possibility long associated with the finest indoor textiles. The latest addition to that portfolio impresses in all three regards. Iconic Danish textile producer Kvadrat brings its Atrium Outdoor collection to DEDON in seven stunning colors, two of which will be offered exclusively by DEDON until 2024. Designed by Patricia Urquiola, the collection, which can be used indoors and out, boasts exceptional durability, rich textures and a subtly vibrant pattern. Innovative, inviting and made to high standards of quality, the collection is a perfect match to the DEDON furniture it adorns.

From the depth of colors to the faux-solid aesthetic, Atrium Outdoor conveys subtle elegance, strength and character. Each color weaves two similarly colored yarns with a contrasting yarn, and uses a highly durable, specially developed Trevira CS yarn for a soft haptic finish. The outcome lies

somewhere between pattern and structure, not unlike the veining found in marble. The two colors exclusive to DEDON convey the essence of Atrium Outdoor while adding a unique touch. The bright, calming pink tone recalls spring in bloom and the warmth of a returning sun, while the dark brown references the rich, earthen qualities of the outdoors, adding warmth and depth to any DEDON collection.

DEDON

KVADRAT® PATIO

Kvadrat

PATIO by Kvadrat Trevira CS

Kvadrat PATIO, an upholstery textile developed for outdoors, offers exceptional color vibrancy. The re-sult of three years of intensive research, it is a perfect fit with DEDON's standards of quality and design.

Designed by Karina Nielsen Rios, PATIO is made with a highly durable, specially developed Trevira CS yarn. It features a fluorocarbon-free, environmentally-focused finish that is water-repellent and fast-drying. It provides resistance against chlorine, seawater and artificial weathering and is flame-retar-dant. In addition to its technical features, it stands out for its soft touch.

The fabrics fulfill the highest of quality standards for exteriors. The acrylic materials are characterized by their high lightfast properties (7– 8) and the poly-propylene materials have a lightfast rating of 6 – 7. PATIO has a subtle structure that combines two

colored yarns in the warp and one in the weft. De-pending on the level of contrast between the col-ors, PATIO can appear almost unicolored or more textured. PATIO is suitable for all outdoor spaces, as well as for areas such as spas and indoor pools, where high-humidity and chlorine are a factor.

DEDON has selected seven different colorways of PATIO. They represent a range of aesthetic ap-proaches and complement DEDON's 49 fabrics.
