

RUGS

TRIBÙ STUDIO

By combining your choice of Tribù furniture and accessories, you can create the perfect outdoor entertaining space. Adding a rug brings these design elements together and adds a focal point to the scene.

The Loft outdoor rugs are available in white, wengé and linen and are made of a coloured weave of PVC-coated polyester, making them extremely durable and resistant to both rain and sunlight.

A 3D weave gives the Shindi outdoor rugs a luxurious look. Made of 100% solution-dyed PVC-coated polyester, the rugs are extremely resistant to sun, rain and mildew. Thanks to the natural colours of linen, hemp and wengé, the rugs create a warm and homely cosiness and provide the perfect finishing touch for your patio.

MAINTENANCE INSTRUCTIONS

MAINTENANCE

Woven outdoor vinyl

Our rugs are made of 100% mass dyed, PVC coated polyester (=woven vinyl), which is the best choice for outdoor use. Their synthetic coating guarantees an extremely high resistance to water, frost, heat, mould and mildew. Besides being UV-stable and stain repellent, they dry very fast as they absorb no moisture.

Cleaning should be done preferably during cloudy weather or in the shade. Make sure your rug is cooled down before you start.

- Beware of sensitive flooring and wear protective gloves.
- Do not use any abrasive sponges, steel brushes, wonder sponge or any abrasive/caustic cleaner.
- Do not use a high pressure cleaner nor a steamer.
- Make sure your rug is clean and completely dry before you apply protective products.
- Storage during winter time or long absence: before storing, we recommend good cleaning and protection of your rug. Store only in a dry, unheated and well-ventilated room and never use nonbreathable plastic covers.

PROTECTING

- For extra protection, we recommend using Synthetics Protector once or twice a year. This product applies an invisible film and reduces the adhesion of dirt.
- Shake the product well and spread some onto a clean microfiber cloth.
- Gently rub the product onto the rug making circular movements.
- Let the rug dry in the open air.

ATTENTION

Sharp objects should be avoided as they may damage the weave of the rug.
