

NATAL ALU

WIM SEGERS

DESCRIPTION

An angular frame with a curved seat that seems to float. The Natal Alu collection combines functionality with impeccable class and a strong charisma. At the same time the rounded corners of the armrests give this collection a soft look. This is a chair that will never go out of fashion, with a seating comfort that is one of the best.

MATERIALS

- Frame: Aluminium, powdercoated with durable polyester powdercoating
- Hardware: 316L electropolished stainless steel
- Seat: Batyline®

CUSHIONS

Filling in dryfoam which has an open cell structure, so air can circulate freely. Water passes through the filling, but dries quickly thanks to the large open pores, substantially inhibiting fungal growth. Fabrics available in category D, E & F.

COLOURS FRAME & BATYLINE

00-White

89-Wengé

PROTECTION COVERS

For each item a cover is available that protects the furniture against dirt. These covers in grey colour are made of PU coated polyester which is water-repellent and UV-resistant. Thanks to their excellent breathable qualities the covers reduce condensation and heat build-up, helping to prevent the formation of mold and mildew. Nevertheless, they are not 100% waterproof. Always make sure that furniture, cushions and covers are completely dry before covering furniture.

MAINTENANCE

Frame

Clean the aluminium frame with tap water and a PH neutral soap. For stubborn stains, use Aluminium Cleaner. We advise to use Teflon® Protector twice a year which applies an invisible film and protects the aluminium against the adhesion of dirt.

Seat

The Batyline seat can be cleaned with soap and water. For stubborn stains use Synthetics Super Cleaner. Apply with a soft brush on both sides. Leave to soak for a while and rinse with a garden hose.
