

1CCT  
WITH JUNCTION BOX

# 4" LED ROUND SLIM PANEL

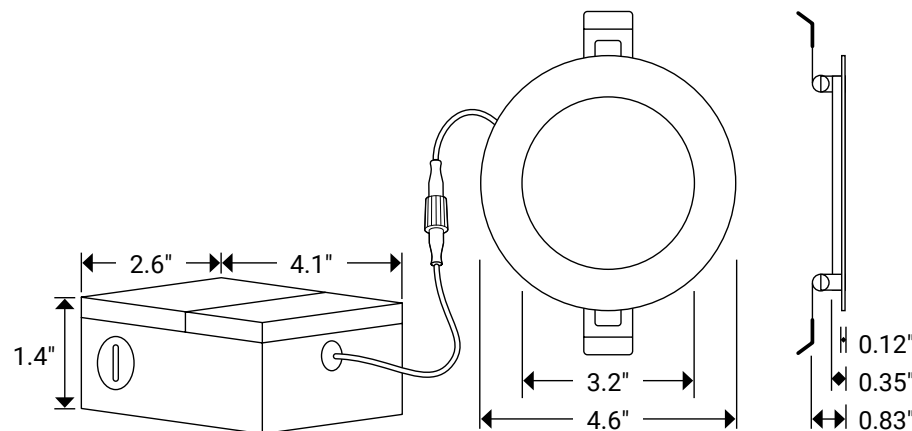

This Parmida LED Slim Panel Downlight is an ultra-thin recessed downlight with a remote driver junction box for quick, simple, and housing free installations. Its low profile design makes it the ideal solution for new construction or remodel projects without the requirement of a housing can. Since a housing can is not required, this light is ideal for shallow ceiling plenums. Constructed with a durable aluminum trim, this product is built with Steady-Dim technology and is compatible with most modern LED dimmers.

**Weight:** 0.5 lbs.  
**Dimensions:** 4.6" x 0.83"
