

**5CCT + NIGHT LIGHT
WITH JUNCTION BOX**

6" LED ROUND SLIM PANEL

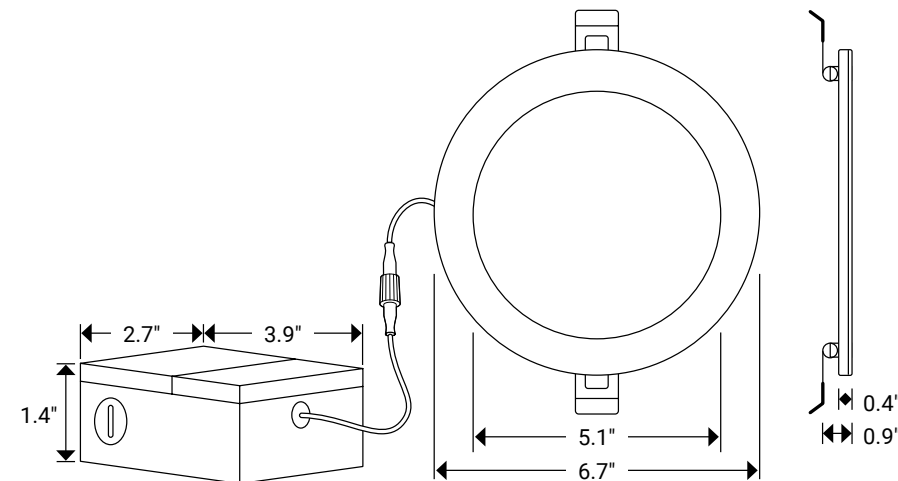

The Parmida 6" Slim Panel downlight with Night Light function is an ultra-thin downlight, with a 1.4" junction box, ideal for quick, simple, and housing-free installation. Its low-profile design makes it the ideal solution for new construction or remodel projects, as it installs without a housing can. This light is perfect for shallow ceiling plenums. Constructed with a durable aluminum trim, this product is built with Steady-Dim technology and is compatible with most modern LED dimmers. Set the color temperature of your lights to the desired level with a simple flip of a switch (located on the Junction Box). Choose between Warm White (2700K), Soft White (3000K), Neutral White (3500K), Cool White (4000K), and Day Light (5000K). Toggle the Night Light function (2000K) by turning the light off at the wall switch, then turning back on after 3 seconds.

Weight: 0.8 lbs.
Dimensions: 6.7" x 0.9"

MODEL NUMBER

PLED-PDN12WMCCT-NL
