Musicplay PreK-6

For less than $2000, a school can have a standards based K-6 music curriculum with songs and activities that students LOVE! Musicplay is an award winning music program for elementary schools. Musicplay is a sequential program with lessons that follow the calendar year. The weekly lesson outlines the new concepts that will be taught, those that will be reviewed, and include seasonal and holiday repertoire.

Important concepts are taught through play. Each week in K-5 a new singing game is featured. Children love music games. This is a text that will have your students really excited about learning music! Music specialists with training in either Orff or Kodály will find that Musicplay works well with either methodology. Orff arrangements for Grades 1-5 are found in The Orff Source and The Orff Source Vol. 2 and 3. Music literacy is taught sequentially throughout the curriculum. Extensive listening lessons, maps, activities, cup games and intercom scripts are included in the Listening Resource Kits. The Piano Accompaniments are interesting yet very playable.

The Digital Resources for Musicplay include SMART Board files, PowerPoint files and QuickTime movies of each song in the curriculum! The PowerPoints are large and much clearer than scanned documents. The audio is linked in the Digital Resources. Our new site: www.musicplayonline.com provides everything that’s in the Digital Resources PLUS many interactive activities. Purchase Digital Resource packages to get both print/disk materials AND online access!

Musicplay meets and exceeds Nafme, state and provincial curriculum standards. Sample lessons, complete scope and sequence, and song lists can be found here.

**Taming the Anthill** by Jean Spanko  This book is one of the most engaging books about teaching music I’ve ever read. While it’s directed at middle school general music teachers, there are many observations and suggestions in this book that are applicable to K-6 music teachers as well, especially since today’s third grade student is somewhat like the fifth grade students used to be! The author’s suggestions on classroom management, dealing with attitudes and ways to make your teaching more engaging are timeless. This is a book you’ll read more than once --- especially on the days that your middle school students make you want to tear your hair out!  #TA $15
