ABOUT US: Our mission is to provide a quality music education to all children by providing excellent curriculum materials that schools can afford. Themes & Variations was started in Denise Gagné's family room in 1995, and since our founding, we have been innovators in music education. We were the first Canadian curriculum with audio recordings, the first North American publisher to include PowerPoints or Projectable PDFs with products, and the first Canadian online curriculum resource. We've been nominated for a Western Canadian Music Award, won the Telus Business Challenge in 2014, and won the Canadian College of Teachers Award for project of the year. Denise travels the world offering workshops for PreK to Grade 6 music teachers. We continue to innovate with the creation of the MusicplayOnline curriculum that is used worldwide by more than 6,000 schools!
