# My Batch

A herd of deer, a swarm of bees,  
we can live together like any  
of these. Geese are in a gaggle  
before they even hatch. That's  
what it means to be part of a  
batch.

A pride of lions, a school of fish,  
stayin' with my friends is all that  
I wish. A colony of mice isn't easy  
to catch. That's why they stick  
together in their very own batch.

All alike! That's what we like.  
We learned that lesson long ago.  
All alike! That's what we like.  
Sticking close to what we know.

*All or break up into solos:*

A team of ox,  
A charm of fox,  
A mob of kangaroos is gettin'  
ready to box.  
A pack of mules can kick,  
A pod of pelicans are pink!  
A drove of pigs can really stink!

*All Shouted: P.U.!*

All alike! That's what we like.  
We learned that lesson long ago.  
All alike! That's what we like!  
Sticking close to what we know.

*Spoken Solos:*

*Solo 1:* We're just like a pod of  
whales!

*Solo 2:* A pack of wolves!

*Solo 3:* Kittens with tails!

*Solo 4:* We stick together like a  
colony of bats!

*Solo 5:* One big batch is where  
we're at!

*Solo 6:* A tower of giraffes!

*Solo 7:* A stand of flamingos!

*Solo 8:* Where his batch goes, that's  
where he goes!

*Solo 9:* We stick together like chicks  
that hatch!

*Solo 10:* Right at home in our own  
batch!

All alike! That's what we like.  
We learned that lesson long ago.  
All alike! That's what we like.  
Sticking close to what we know.

A herd of deer, a swarm of bees,  
we can live together like any  
of these. Geese are in a gaggle  
before they even hatch. That's  
what it means to be part of a  
batch. That's what it means to  
be part of a batch. That's what it  
means to be part of a batch!  
A batch!
