Congratulations! We hope you enjoy your new Back to Basics® Ice Master Blender. The Ice Master is designed for endless blending and ice crushing possibilities and easy clean-up capabilities. The Ice Master has been designed with smart settings (blend, smooth, ice crush, chop, mix and puree) that let you prepare your favorite fresh ingredients to make gourmet soups, homemade salsa’s, icy cocktails, thick and delicious frozen smoothies and shakes, baby food and more.

The powerful 600-watt /700-watt pulse power motor, specially-designed stainless steel blades and 6-speed operation work together to precisely blend and chop all types of ingredients for exact recipe specifications. The Ice Master has been specifically designed with heavy stainless steel blades to easily crush ice and frozen fruit. The Ice Master includes the revolutionary stir stick, which when rotated counter-clockwise, increases blending efficiency. The 48-ounce glass blending jar has a spill-proof pour spout and is dishwasher-safe.

Enjoy!

IMPORTANT SAFEGUARDS

WARNING

WARNING: This appliance is not a toy. Close adult supervision is necessary when used by or near children. Please do not leave this unit unattended with children.

When using electrical appliances, basic safety precautions should always be followed:

- Read all instructions.
- To protect against risk of electrical shock do not put cord, plug or motor in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug appliance from outlet when not in use, before putting on or taking off parts, and before cleaning.
- Make sure appliance is OFF when not in use, before putting on or taking off parts, and before cleaning.
- Avoid contacting moving parts.
- Do not operate any appliance with a damaged cord or plug or if the appliance malfunctions, or is dropped or damaged in any manner. Return appliance to Back to Basics for examination, repair or electrical or mechanical adjustment.
- The use of attachments, including canning jars, not recommended by the manufacturer may cause a risk of injury to persons.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter.
- Do not let cord contact hot surface, including the stove.
- Do not use this appliance for other than its intended use.
- Keep hands and utensils (other than included stir stick) out of container while blending to reduce the risk of severe injury to persons or damage to the appliance. A scraper may be used but must be used only when the blender is not running.
- Blades are sharp. Handle carefully.
- To reduce the risk of injury, never place cutter-assembly blades on base without blending jar properly attached.
IMPORTANT SAFEGUARDS

- Always operate blender with lid in place.
- When blending hot liquids, remove center piece of two-piece lid.
- Keep hands and utensils out of container to reduce the risk of injury to persons or damage to the mixer.
- Be sure to turn switch to OFF position after each use.
- Never add ingredients to container while appliance is operating.
- Container must be properly in place before operating appliance.
- The use of accessory attachments not recommended or sold by Back to Basics may cause fire, electrical shock or injury.
- Do not place on or near a hot gas or electrical burner or in a heated oven.
- Turn off machine before removing the blending jar from the base and before placing the blending jar on the base.
- Do not run motor without blending jar properly attached to motor base or when blending jar is empty.
- Do not blend excessively hot liquids. Never pour boiling water into the blending jar.
- Be sure to turn switch to OFF position after each use.
- To disconnect, grip plug and pull from wall outlet. Never pull on cord to disconnect.
- Never leave the house while the appliance is on.
- A short cord set is provided to reduce the hazards resulting from becoming entangled in or tripping over a longer cord.
- Extension cords may be used if care is exercised in their use. The marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance. The extension cord should be arranged so that it will not drape over the counter top where it can be tripped over or pulled by children.
- After running the motor continuously for three minutes, wait at least five minutes before running the motor again.
• This appliance has a polarized plug (one blade is wider than the other). To reduce risk of electric shock, this plug will fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not modify the appliance plug in any way.

SAVE THESE INSTRUCTIONS. INTENDED FOR HOUSEHOLD USE ONLY.
Use and Care (Assembly)

To use your Ice Master 3000, begin by assembling the blending jar.

1. Position the rubber gasket down onto the circular flat surface in the blade base.
2. Screw blade base on the bottom of the blending jar by twisting the blade base counter clockwise until tightened onto the blending jar. Make sure that the blade base is tightly fastened to the blending jar and that the rubber gasket is properly compressed between the blending jar and the blade base.
3. Push the lid onto the top of the blending jar. Place the clear lid cap in the center of the lid or place the stir stick through the center of the lid if blending liquids or frozen drinks.
4. Place the blending jar onto the motor base so that the bottom of the blade base is sitting flat on the motor base.
5. Plug in the cord. Your Ice Master 3000 Blender is now ready to use!
**BLENDER OPERATION**

1. Assemble the blender blade base onto the blending jar.

2. Add ingredients to the blending jar and replace the lid. You may add more ingredients through the hole in the center of the lid. (Note: Add liquid ingredients first, then add frozen or solid ingredients. This will prevent excessive wear and stress on the motor.) Cover the hole with the clear lid cap or stir stick during operation.

3. TO START BLENDING: Choose a speed for blending the ingredients on the control panel.

4. TO STOP BLENDING: To stop the blending process, push the PULSE/STOP button.

5. PULSE MODE: The PULSE button allows you to create short bursts of power. To use the PULSE function, repeatedly push and release the PULSE button. The PULSE function should be used in the initial stage of blending ice and frozen ingredients for smoothies and other frozen drinks. The PULSE function should also be used to break apart larger pieces of food or to control the texture of food when chunkier results are desired.

6. ICE CRUSH: Short bursts not continuous.

TIPS FOR GENERAL OPERATION

• **Thicker Smoothie:** To make a thicker smoothie, add more frozen ingredients.

• **Thinner Smoothie:** To make a thinner smoothie, add more liquid ingredients.

• Always add liquid ingredients to the blending jar first and then add remaining ingredients. This will prevent excessive wear on the motor and ensure that the ingredients are properly blended.

• Cut harder foods (e.g. cheese) into approximately 1 inch cubes to achieve better chopping results.

• The stir stick may be used to assist in making frozen drinks or for blending any other types of ingredients. When the stir stick is not being used, be sure to place the clear lid cover over the hole in the center of the lid.

• When chopping dry ingredients such as bread crumbs, nuts, spices, etc., make sure that the blending jar and blade base are completely dry.

• The PULSE button should be operated in short bursts. As the PULSE button is pressed and released, the blades should stop rotating between pulses.

• Do not attempt to mix or knead heavy dough, mash potatoes or beat egg whites.

• Do not over-blend foods. Most ingredients should be properly blended or chopped in seconds. Do not operate motor base for longer than 3 minutes at a time.

• If the motor stalls, turn off and unplug the unit. Remove a portion of the ingredients before attempting to continue.

• Do not add boiling liquids to the blending jar.
CARE AND CLEANING

Before using your Ice Master for the first time and after each use, be sure to thoroughly wash the blending jar, blade base, lid and stir stick. To prolong the life of your Ice Master, do not wash plastic parts in the dishwasher.

If you experience any problem with your machine, unplug it immediately from the electrical outlet, then contact Back to Basics® at 1.800-688-1989.

CLEANING AND ASSEMBLY

To disassemble valve for cleaning:

1. Remove the blade base from blending jar.
2. Clean blade base and rubber gasket with warm soapy water.
3. Remove lid from blending jar.
4. Clean lid, clean lid cover and stir stick with warm soapy water.
5. Blending jar is dishwasher safe.
6. Once all parts are dry reassemble as shown.
