Model No. 72000 through 72700

RECIPES AND INSTRUCTIONS

TO PREVENT PERSONAL INJURY OR PROPERTY DAMAGE, READ AND FOLLOW THE INSTRUCTIONS AND WARNINGS IN THIS CARE AND USE INSTRUCTION MANUAL.

IMPORTANT SAFEGUARDS

Use electricity safely and wisely! Observe safety precautions when using your skillet including the following:

• Read all instructions before using.
• If the skillet features unassembled cover rest, knob or handle/legs, be sure they are assembled and fastened properly. See assembly instructions later in this booklet.
• Always attach heat control to skillet first, then plug cord into wall outlet. After cooking and serving, turn heat control to “off” and unplug from wall outlet. Let skillet cool before removing heat control. Do not leave skillet plugged in when not being used.
• Skillet should always be unplugged before cleaning.
• Do not let cord touch hot surfaces or hang over the edge of counter, table or other surface area.
• Your skillet and its heat control should not be used outdoors, placed near a hot gas or electric burner or placed in a heated oven.
• Do not immerse heat control, its cord and plug in water or other liquid.
• Do not touch skillet or its cover when they are hot. Use handles and knobs for lifting and carrying. Be very careful when moving skillet if it contains hot liquid. Let cool before pouring out.
• Supervise closely when skillet is being used by or near children.
• Use your skillet only for cooking tasks described in this booklet. Do not use attachments with your skillet unless recommended by The West Bend Company.
• Do not use your skillet if it or its cord or heat control has been damaged or if it is not working properly. Return your skillet, if it is within the warranty period, to the West Bend Company for examination and/or repair.

SAVE THESE INSTRUCTIONS

Your skillet needs no special care other than cleaning. If servicing becomes necessary, within the warranty period, return your skillet to The West Bend Company. See Warranty information for details. Do not attempt to repair it yourself.

WARNING: To prevent personal injury or property damage caused by fire, always unplug this and other appliances when not in use.
WARNING: This appliance may contain substances know to the State of California to cause cancer, birth defects or other reproductive harm. FOR HOUSEHOLD USE ONLY

This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

SPECIAL NOTE: This booklet contains instructions for electric skillets with different styles of covers and made of different materials such as metal or glass. These different covers require special care and handling. Be sure to follow the correct care and handling instructions for your particular skillet cover.

INSTRUCTIONS FOR CARE AND USE

• Clean Before Using

CAUTION: To prevent personal injury or electric shock, always remove heat control before immersing this product in water. Do not immerse the heat control, its cord and plug in water or other liquid.

Wash skillet, cover, rack if included, in hot soapy water with a sponge or dishcloth to remove any manufacturing oils. Rinse thoroughly and dry.
• **Condition the Non-Stick Interior Surface**
The non-stick surface must be conditioned to ensure stick-free cooking. Lightly wipe a teaspoon of cooking oil with paper toweling or soft cloth over the entire surface. The skillet is now ready to use.

• **Assemble Cover Knob or Strap Handle on Metal Cover.**
Metal skillet cover will feature a knob or strap type handle which must be assembled before use. Follow directions below for assembly:

• **Assemble Cover Knob**
  **Parts Included:**
  - Cover Knob
  - Phillips Screw

  **Tools Required:**
  - Common Phillips Screwdriver

  1. Remove screw from bottom of cover knob. Attach knob to cover with screw as shown in Diagram 1. Tighten with screwdriver until secured, but do not over-tighten to prevent stripping of threads. Do not use cover without cover knob attached. See Diagram below.

• **Assemble Strap Handle**
  **Parts Included:**
  - Strap Handle
  - 2 Slotted Screws

  **Tools Required:**
  - Common Slotted Screwdriver

  1. Remove handle and screws for plastic bag. Attached handle to cover with screws as shown in Diagram 2. Tighten with screwdriver until secured, but do not over-tighten to prevent stripping of threads. Do not use cover without handles attached. See Diagram 2.

• **Assemble Handle/Leg Before Using (unassembled models only).**
  **CAUTION:** To prevent personal injury or property damage, be sure handles are securely attached before use. Never use skillet without attached handle/legs. Make sure that screws are inserted straight into skillet mounting projections for proper assembly. To prevent stripping of threads, do not over-tighten.

  **Parts Included:**
  - 2 Handle/Legs
  - 4 Long Handle/Leg Screws
  - 2 Leveling Washers

  **Tools Required:**
  - Common Slotted Screwdriver

  **Handle/Leg Assembly:**
  1. Place the skillet upside down on tabletop or countertop.
  2. Position one handle/leg on side of skillet with socket, lining up holes in handle with mounting projections on skillet. See Diagram below.
  3. Using appropriate screwdriver, securely attach handle with the screws provided (2 long screws per handle). See Diagram above. Repeat steps 1 and 2 to assemble the second handle on the opposite side of the skillet.
  4. To assure proper installation of skillet handles, place assembled unit right side up on a flat surface and lift item with handles. Handles should feel tightly secured.
5. If the skillet rocks when place on a flat surface, remove screw on the leg which is not resting on the surface. Install one of the enclosed washers between the skillet mounting projection and the handle. Replace the screw following the instructions 3 and 4 above. If the skillet is not level after the addition of the washer, add the second leveling washer in the same manner as the first.

**SPECIAL SAFEGUARDS FOR GLASS COVER**

CAUTION: Failure to follow these instructions may cause immediate or later breakage of glass cover, which can result in personal injury or property damage. Carefully read and follow the safeguards below:

CAUTION: Glass cover can shatter from direct heat.
- DO NOT place cover under broiler, microwave browning element or in a toaster oven.
- DO NOT set glass cover on hot burner or on oven heat vent
- DO NOT use cover if it has been used in the above manners even if it does not look damaged. See warranty section in this booklet on how to obtain a replacement cover.

CAUTION: Glass cover can shatter if cooled suddenly. Avoid sever temperature change.
- DO NOT take cover directly from freezer to oven.
- DO NOT set hot glass cover on cold wet surface; let cover cool before placing in water.
- ALWAYS handle hot cover with dry pot holders or oven mitts; do not use wet cloths.
- ALWAYS set hot glass cover on dry, heat-protective surface for gradual cooling.

CAUTION: Chips, cracks or deep scratches weaken the glass cover. Weakened glass can shatter during use.
- DO NOT use cover if chipped, cracked or scratched. Discard immediately. See Warranty section in this booklet on how to obtain a replacement cover.
- ALWAYS follow care and use instructions in this booklet to avoid chip, cracks and scratches due to hitting rims, using metal utensils, using abrasive scouring pads or cleaners or accidental impact.

CAUTION: To prevent personal injury or steam burns when removing cover from skillet base:
- ALWAYS use both hands when removing or replacing the glass cover.
- ALWAYS use pot holders or oven mitts when removing glass cover from skillet or when replacing it.
- ALWAYS tilt cover toward you to prevent steam burns. See Diagram 4.

**COOKING INSTRUCTIONS**

- **Operating the Skillet**
  1. Always use skillet on a dry, level, heat resistant surface. Be sure your hands are dry.
  2. Attach heat control to skillet, making sure it is sat at “OFF”. Plug cord into 120 volt, AC electrical outlet ONLY.

CAUTION: To prevent personal injury or property damage, inspect cordset for damage or wear before each use. Do not use your product if it or its cord has been damaged or if it is not working properly.

CAUTION: Your skillet has a short cord as a safety precaution to prevent personal injury or property damage resulting from pulling, tripping or becoming entangled with the cord. Do not allow children to be near or use this skillet without close adult supervision. If you must use a longer cordset or an extension cord when using your skillet, the cord must be arranged so it will not drape or hang over the edge of a countertop, tabletop or surface area where it can be pulled on by children or tripped over. To prevent electric shock, personal injury or fire, the electrical rating of the extension cord you use must be the same or more than the wattage of the skillet (wattage is stamped on the underside of skillet).

3. Preheat skillet, uncovered, for 2 to 4 minutes until desired temperature is reached, unless recipe states not to preheat. Signal light on heat control will be on while skillet is heating.
4. Refer to the Temperature Guide in this booklet for selecting the correct heat setting. (If food is frozen, use heat setting as indicated but allow longer cooking time.)
5. When signal light on the heat control goes out indicating that the cooking temperature was reached, add the food. Heat may be increased or decreased, depending on personal preference and type or amount of food being prepared. The signal light will go on and off during cooking to indicate that proper temperature is being maintained.

**ALWAYS USE POT HOLDER OR OVEN MITTS WHEN HANDLING COVER AS HANDLES BECOME HOT.**

6. At the end of the cooking period, set the heat control to WARM for serving or at OFF if food is to be removed immediately from skillet. After dial is set at OFF, unplug cord from wall outlet. Invert glass cover and use as a serving dish if desired.
CAUTION: To prevent personal injury or property damage, handle the heat control carefully if you remove it from the product immediately after cooking because the metal probe will be hot—do not touch the metal probe or let it touch anything or any surface that may burn.

- **Using Glass Cover as a Casserole Dish (not metal cover)**
  If your skillet features a glass cover, it may be inverted for use as a casserole dish in a conventional or convection oven up to preheated temperatures of 400°F or in a microwave oven. If casserole should be covered during baking in oven, use aluminum foil in conventional ovens and plastic wrap in microwave oven.
  Do not use glass cover under broiler or in browning unit or in a toaster oven as breakage can occur.

CAUTION: To prevent personal injury or property damage, do not use glass cover on range top unit as it could shatter due to sudden temperature change.

- **Cooking with Butter, Shortening or Oil**
  Foods may be prepared with or without butter, shortening or oil. When frying, using a small amount will improve the flavor, color and/or crispness of meat, fish, poultry and eggs. Meat may be cooked in its own juices if skillet is covered and heat control is set at SIMMER.

- **Using Cooking Tools on the Non-Stick Surface**
  Plastic, rubber and wooden cooking tools are recommended for use on non-stick surface. Smooth-edged metal cooking tools may be used with care. However, do not use sharp-edged metal tools (forks, knives, mashers, beaters or food choppers) as scratching may occur. Minor scratching will affect only the appearance of the surface; it will not harm its non-stick property or the food prepared in the skillet.

**CLEANING INSTRUCTIONS**

- **Clean After Every Use**
  To keep your skillet looking attractive and cooking efficiently, clean it thoroughly after each use.

- **Let Skillet Cool by Itself**
  After using skillet, let it cool by itself. Do not pour cold water into skillet while it is hot. Although made of extra-thick aluminum a sudden change in temperature may cause the metal to warp.

- **Remove Heat Control**
  After skillet has cooled, remove the heat control.

CAUTION: To prevent personal injury or electric shock, do not immerse heat control, its cord and plug in water or other liquid. Wipe clean with a damp cloth if necessary.

- **Retighten Loose Handle/Legs and Knobs**
  **CAUTION:** To prevent personal injury or property damage, check, skillet for loose handles after each use. Retighten loose screws with the appropriate tool, but do not over-tighten. Over-tightening can result in stripping of screw or cracking of handle/leg or knobs.

- **In-the-Sink Cleaning**
  1. Clean the non-stick interior surface of the skillet with hot soapy water, using a non-metal cleaning pad such as a Scrunge® Scrubber Sponge, Dobie® Scotch-Brite Cookware Scrub ‘n Sponge®. A dishcloth or sponge may give the non-stick surface a clean look but will not remove the tiny food particles that can settle in the finish. Do not use metal scouring pads or harsh scouring powders.
  2. Clean the exterior finish of the skillet with hot soapy water using a sponge or dishcloth. A non-metal cleaning pad such as Scrunge® Scrubber Sponge, Dobie® Scotch-Brite Cookware Scrub ‘n Sponge® and/or a non-abrasive cleaner such as Bon Ami® or Copper Glow® may be used if necessary. Do not use metal scouring pads or harsh scouring powders.
  3. Clean the non-coated aluminum underside of the skillet with a nylon or metal pad. A cleaning powder may also be used if necessary.
  4. Clean the skillet cover and rack, if included, with a sponge or dishcloth only. Do not use any type of scouring pad or cleaning powder on glass or metal cover. The aluminum underside of the cover may discolor during use, which is normal.
  5. After washing, always rinse the skillet, cover and rack thoroughly with clear hot water. Any detergent left on the skillet or cover after cleaning can cause staining when the appliance is reheated.
- **Dishwasher Cleaning**
  The skillet (with heat control removed), cover and rack may be cleaned in automatic dishwasher. However, the underside of the skillet and the inside of the cover (non-coated aluminum surfaces) will darken. This happens when minerals in water and chemicals used in water purification are combined with detergent and the high heat of the drying cycle. Position the skillet and cover in the dishwasher so they are not touching one another or other objects being washed. The non-stick surface of the skillet must be reconditioned with cooking oil after each dishwasher cleaning.

**SPECIAL CLEANING INSTRUCTIONS**
After consistent use, the non-stick surface may discolor. Minor stains are considered normal and do not affect the performance of the skillet. Dark and widespread staining, however which usually results from overheating and/or improper cleaning, may lessen the effectiveness of the non-stick property. If staining occurs, treat with a commercial cleaner for non-stick finishes such as Dip-It® coffee pot destainer. Follow the package directions. If staining is quite severe, simmer longer or repeat cleaning. (Do not use household bleach to clean non-stick finish as it will permanently fade it.) After using the commercial cleaner, wash skillet thoroughly, rinse and dry. Recondition the non-stick interior surface with a teaspoon of cooking oil before using. Dip-It® coffee pot destainer is available in most grocery and department stores.

- **Removing a Mineral Film**
  A spotted white film may form on the non-stick surface. This is a buildup of minerals from water and is not a defect in the finish. To remove, soak a soft cloth in lemon juice or vinegar and rub onto the finish. After cleaning, wash, rinse and dry. RECONDITION THE NON-STICK SURFACE WITH COOKING OIL BEFORE USING.

**STORAGE** - For compact storage, invert cover and nest inside skillet base.

**ROASTING** - Best Suited for skillets with a high dome cover.

Beef, pork, lamb, veal and poultry may be roasted in the skillet. To obtain more satisfactory results, a metal wire rack, which may be included with your skillet, should be used to lift the food off the cooking surface. If rack is not included with skillet, a metal wire rack that fits into the bottom of the skillet and is about ½ inch high with smooth support legs can be used. Follow these basic guidelines.

1. To help seal in natural juices, roasts should be browned in the skillet before roasting. Simply preheat the skillet uncovered, at 325° and add the roast. Brown, as desired, on all sides. Remove roast, place rack into the skillet and replace roast on rack, fat side up. Season as desired.
2. Insert meat thermometer tip into thickest part of roast making sure it does not touch a bone or rest in fat. Cover skillet and roast at 225°. If spattering of juices becomes excessive during the roasting period, reduce the temperature to SIMMER. A small amount (½ cup) of water may be added if desired.
3. Roast meat to recommended or desired internal temperature, see Roasting Chart. Turn skillet OFF. Avoid removing the cover too frequently as roasting time will be lengthened. Remove roast from rack and allow to stand 10 minutes for easier carving. Always use hot pads to remove rack. Juices in the skillet may be used for gravy, if desired.
POULTRY
1. Place unstuffed roasting onto rack in the skillet. Baste with melted butter or margarine and season as desired. Using seasoned salt will help to brown any poultry.
2. Insert meat thermometer tip into thick part of thigh making sure the tip does not touch a bone. Cover and roast at 225°. Reduce temperature setting to SIMMER if spattering becomes excessive. A small amount of water (½ cup) may be added if desired. Baste poultry occasionally with melted butter or margarine if desired.
3. Roast poultry to an internal temperature of 180° to 185°. Turn skillet OFF. Remove poultry from rack and allow to stand 10 minutes for easier carving. Always use hot pads to remove rack. Juices may be used for gravy if desired.
Note: Roasting duckling and goose is not recommended due to the excess amount of grease that accumulates.

HAM---Fresh, Smoked or Canned
1. Place ham on rack in skillet. Score if desired. Insert meat thermometer tip into thickest part of ham, making sure the tip does not touch a bone or rest in fat. Cover and roast at 225°. Reduce temperature setting to SIMMER if spattering becomes excessive. A small amount (½ cup) of water may be added if desired.
2. Roast ham to internal temperature recommended for type of ham being prepared. If desired, ham may be glazed at the end of the roasting period. Turn skillet OFF. Remove ham from rack and allow to stand 10 minutes before carving. Use hot pads to remove rack as it will be hot.
Note: If space permits, scrubbed and pricked potatoes may be baked on rack around meat or poultry. Medium sized potatoes will require about 1 hour of baking time at 225°.

STEAMING
Your skillet may include a square metal wire rack for steaming. If a steaming rack is not included, a metal wire rack that fits into the bottom of the skillet and is about ½ inch high can be used providing it has smooth support legs that will not scratch the non-stick interior. Follow the guidelines for teaming foods in your skillet:
1. Place steaming rack into bottom of skillet and add 2 to 3 cups of water. Place food to be steamed directly on rack, in a single layer, to ensure even cooking. Cover skillet.
2. Steam food at 225° until desired or recommended doneness is obtained. See Steam Guide. If food is steamed more than 20 minutes more water may need to be added to prevent skillet from boiling dry. ALWAYS REMOVE COVER CAREFULLY DUE TO ESCAPING STEAM. After steaming, turn skillet OFF and unplug cord from electrical outlet. Remove food from rack and allow skillet to cool before cleaning.

Breakfast Brighteners

SCRAMBLED EGGS
Break eggs into a bowl with 1-tablespoon water, milk or cream for each egg; add salt and pepper. Blend thoroughly. Preheat skillet to 250° uncovered. Melt butter or margarine (1 tablespoon for 2 eggs). Pour in egg mixture. As eggs begin to set, gently lift cooked portion with spatula to allow uncooked portion to flow underneath. Continue cooking until all of the egg mixture has set, 5 to 7 minutes. Quickly remove to warmed platter. Serve at once.

FRIED EGGS
Preheat skillet, uncovered, at 250°. Melt a small amount of butter, margarine or bacon fat (about 1 teaspoon per egg) in skillet. Break eggs, one at a time, into small cup. Slip eggs into skillet. Cook slowly to desired doneness or turn egg over quickly when whites are set and then cook to desired doneness. Sprinkle with salt and pepper.

POACHED FRIED EGGS
Fry eggs as directed in previous recipe, but use enough fat to coat skillet. Immediately add ½ teaspoon water or milk for each egg. Cover. Cook to desired doneness, 5 to 7 minutes.

EGGS BAKED IN BEEF HASH
Spread one 1-pound 9¾-ounce can corned beef or roast hash (or homemade variety) in lightly greased skillet. Using bottom of custard cup make 6 deep wells in hash. Dot with butter or margarine. Break an egg into each well. Season with salt and pepper, cover each egg with 1 tablespoon milk or cream. Cover, and turn temperature control to 225°. Bake 15-20 minutes or until set. Serve from skillet, keeping hot at WARM. Makes 6 servings

BRUNCH EGGS’N MUFFINS
3 English muffins, split
1 tablespoon butter or margarine
2 tablespoons minced onion
10 ½ -ounce can condensed cream of chicken soup
½ cup milk
6 eggs
1. Preheat skillet, uncovered, at 350°. Toast muffins on skillet surface, with cut side facing down, about 5 minutes.
2. Reduce heat to 225°. Add butter or margarine and melt. Sauté onions, about 2 minutes. Stir in soup mix. Heat to boiling.
3. Crack eggs into soup mixture. Cover and cook until eggs are done, about 5 minutes. Place 1 egg on each muffin half and spoon sauce over top. Garnish with paprika and parsley flakes, if desired. Makes 6 servings

SAUSAGE
Links: Place links in cold skillet and add small amount of water. Cover, and simmer at 225° for 10 minutes. Do not prick. Turn heat up to 300° and pan fry until brown, 15 to 20 minutes.
Patties: Place patties in cold skillet and fry at 300° for 10 minutes per side or until brown.

BACON
Place slices in cold skillet. Heat at 300°. Fry first side about 7 to 8 minutes. Turn slices and fry 4 to 5 minutes longer or until bacon is crisp. Drain on absorbent paper.

HAM
Slice ham ¼ to ½ inch thick. Trim off some fat to rub on skillet. Preheat at 325°, uncovered. Cook ham slowly until brown on one side, 6 to 8 minutes. Turn and brown second side.

PANCAKES
2 cups sifted flour
2 tablespoons sugar
1 tablespoon baking powder
½ teaspoon salt
1 ¾ cups milk
2 eggs, slightly beaten
2 tablespoons oil or melted shortening
1. Sift flour with sugar, baking powder and salt. In mixing bowl, combine milk, eggs and oil. Add dry ingredients. Blend thoroughly, but only until lumps disappear.
2. Preheat skillet, uncovered at 350°. Pour scant ¼ cup batter onto skillet for each pancake and bake until bubbles break and edges are cooked. Turn and bake on the other side, about 1 minute per side. Serve immediately. Makes 20 to 24 pancakes.

**FRENCH TOAST**
2. eggs, slightly beaten
1. cup milk
¼. teaspoon salt
3. tablespoons, butter or margarine
8-10. slices, day old bread

1. In small bowl, thoroughly combine eggs, milk and salt.
2. Preheat skillet, uncovered at 350°. Melt 1 tablespoon butter or margarine. Dip bread in egg mixture, turning to coat both sides.
3. Place 3 to 4 slices into skillet. Fry until golden brown. Turn and brown the other side. Repeat procedure for additional bread slices. Serve hot with maple syrup, jelly or honey. Makes 4 to 5 servings.

**CHEESE-TOMATO SCRAMBLE**
¼. cup butter or margarine
10-12. eggs, well beaten
1. cup dairy sour cream
1. cup grated cheddar cheese
2. large tomatoes, peeled and diced
4. green onions, thinly sliced
1. teaspoon salt
¼. teaspoon pepper

1. Preheat skillet at 250°. Add butter or margarine; heat until it sizzles. Beat eggs well in mixing bowl. Add sour cream and stir to combine. Pour egg mixture into skillet.
2. When eggs begin to set, add cheese, tomatoes, onion, salt and pepper. Stir until eggs are completely set and cheese is melted. Reduce heat to WARM for serving. Makes 8 servings.

**EGG AND BEEF SCRAMBLE**
2. tablespoons butter or margarine
1. 3 ½ ounce package of dried beef
6. eggs, slightly beaten
¼. teaspoon pepper
3. tablespoons milk or cream
1. 3-ounce package cream cheese, softened.

1. Preheat skillet at 225°. Melt butter or margarine
2. Cut or tear beef into bite-sized pieces. Sauté in butter 3 to 4 minutes until lightly browned. Reduce heat to SIMMER.
3. Combine eggs and pepper, milk and cream cheese. Pour into skillet and slowly cook until cheese is melted and eggs are thoroughly cooked, but are still moist and glossy, 6 to 8 minutes. Makes 4 servings.

**ORANGE PANCAKES**
2. eggs, slightly beaten
1. ½ cup milk
¼. cup oil
2. teaspoons grate orange rind
¼. cup orange juice
2. cups pancake mix

1. In large mixing bowl combine eggs, milk, oil, orange rind and juice. Add pancake mix. Stir until smooth.
2. Preheat skillet, uncovered, at 350°. Pour scant ¼ cup batter into skillet for each pancake and bake until it bubbles break and edges are cooked. Turn and bake on other side, about 1 minute per side. Serve immediately with Orange Sauce. Makes 24 4-inch cakes.

**ORANGE SAUCE**
In saucepan, blend 2 tablespoons sugar, ½ cup orange juice and a bit of grated orange rind with ½ cup melted butter. Heat until hot.
**MAIN DISHES**

**CHICKEN WITH RICE**
3 – 3½ pounds frying chicken, cut into serving pieces
¼ cup butter or margarine
1 ½ cups instant rice
1 10½-ounce can condensed cream of chicken soup
1 cup water
1 teaspoon instant chicken flavored bouillon crystals or 1 chicken bouillon cube

1. Preheat skillet, uncovered at 325°. Add butter or margarine and allow to melt. Place chicken pieces into skillet and brown on both sides. Season with salt and pepper. Remove chicken from the skillet.

2. Reduce heat to SIMMER and add rice. Combine soup, water and bouillon. Pour ½ mixture over rice. Replace chicken pieces into skillet over rice. Pour remaining soup mixture over chicken. Cover and simmer 35 to 40 minutes or until chicken is done. Reduce heat to WARM for serving. Makes 4 to 6 servings.

**TURKEY & DRESSING DINNER**

½ cup butter or margarine
½ cup shredded carrots
½ cup chopped onion
1 8-ounce package corn bread stuffing mix
2 cups chopped cooked turkey
1 10½-ounce can condensed cream of chicken soup
1 cup water
1 teaspoon poultry seasoning
1-2 teaspoon parsley flakes

1. Melt butter or margarine in skillet, uncovered at 300°. Add carrots and onion. Sauté until carrots are tender.

2. Reduce heat to 225°. Stir in stuffing mix and turkey. In small bowl, combine soup, water and poultry seasoning. Stir into turkey mixture.

**TIP:** One 8-ounce package of herb-seasoned stuffing mix may be substituted for corn bread stuffing mix. Omit the poultry seasoning.

**GLORI-FRIED CHOPS**
4-6 pork or lamb chops, ½ inch thick
salt and pepper
1 10½-ounce can condensed cream of mushroom or celery soup

1. Preheat skillet, uncovered at 325°. Brown chops for 5 minutes per side. Season with salt and pepper.

2. Cover chops with soup. Reduce heat to SIMMER. Cover and simmer 15 to 20 minutes or until fork tender. Reduce heat to WARM for serving. Makes 4 to 6 servings.

**SWISS STEAK**

2 tablespoons flour
1 teaspoon salt
¼ teaspoon pepper
2 pounds round steak, 1-inch thick
1 tablespoon shortening
½ cup minced onion
½ cup finely chopped celery
½ cup finely chopped green pepper
1 cup canned tomatoes, undrained
2 cups water

1. Combine flour with salt and pepper. Pound mixture thoroughly into both sides of steak. Cut into serving size pieces.
3. Combine vegetables and water. Pour over steak. Cover, reduce heat to SIMMER and simmer until tender 1 to 1 ½ hours. Reduce heat to WARM for serving. Makes 4 to 6 servings.

**FIESTA BURGERS**

- ¼ cup margarine or butter, softened
- ½ teaspoon garlic powder
- 3 hamburger buns, split in half
- 1 pound ground beef
- 1 cup shredded processed American hot pepper cheese or pepper pasteurized cheese spread
- ¼ cup chopped onion
- 2 teaspoons Worcestershire sauce
- 1 teaspoon salt
- dash pepper

1. In small bowl, cream together margarine or butter and garlic powder. Spread evenly on hamburger buns.
2. In medium bowl, combine ground beef, cheese, onion, Worcestershire sauce, salt and pepper. Mix thoroughly. Shape into 6 patties ½ inch thick.
4. Reduce heat to 325°. Pan fry patties on each side to desired doneness. Serve open faced on hamburger bun. Makes 6 sandwiches.

**TIP:** For fun garnish, skewer a cherry tomato inside two onion rings.

**TUNA NOODLE WITH PEAS**

- 1 10 ½ - ounce can condensed cream of celery soup
- 1 cup milk
- 1 cup water
- ½ cup celery salt
- ½ teaspoon dill weed
- ¼ cup chopped onion
- 6 ounces egg noodles (3 cups uncooked)
