

Easy Peasie – Natural Veggie Blend easypeasie.com

It is an age-old question that almost every parent struggles with at one time or another. How can we get our kids to eat more vegetables? Maybe those green, healthy “little trees” are something we come to love over time, but kids just don’t seem to want to eat anything that doesn’t come processed, cheesy, or fried. Easy Peasie food blends are perfect for picky eaters. They are virtually undetectable, but still nutrient-dense. The veggie blends come from fresh vegetables that are thoroughly dehydrated, and then formed into a fine powder – perfect for sprinkling on a variety of food to make any meal instantly healthier! Also, what is healthy for the kids is healthy for you. We love to add some into our own smoothies! Eating veggies has never been easier!
