Ring Measurement Guide

Before using this guide please ensure this page is printed on A4 paper and scaled to 100%. You can check the accuracy of your print by placing a one pence in the guide below. If the coin fits perfectly the guide will be accurate.

The Ring Test

1. Use a ring that fits the finger you want to measure
2. Print off the ring size circles below
3. Place the ring over each of the circles
4. Match the inside of ring to the edge of the circle
5. Do this until you match the correct size

Don't have a ring that fits?

1. Take a small piece of string
2. Wrap the string around the finger you want to measure
3. Then measure the length of the string by using the sizing chart below.
