

Parts List

- Handle:
 - Handle
 - 2x C spacer
 - 2x Floral ends.
- Basket:
 - 2x basket ends with bunnies
 - 2x name looped plates + 2x E clips
 - 4x plain plates
 - 2x plain looped plates + 2x E clips

How all the parts connect:

Put all four looped plates (2x name 2x plain) through one side of the basket and clip them, using the E-clips.

The E-clips are a very tight fitting (wiggle if you need to) clip that goes on the outside of the basket.

Then add the non-clipped plates, to that side. (turn it so the bunny is on the table.)

Add the top bunny (work from one side around the bottom of the basket lining up the plates) then clip the four parts with the e-clips.

Add the c-clips to the handle

The c-clip should now sit inside the circle hole on the bunny.

Add the floral end cap (this is normally another case of wiggling it on.)
