Tea Boxes

Though Melbourne boasts a strong coffee culture, the city is now home to a company devoted to elevating the tea experience. Mijenko introduces its new line of Tea Boxes, an elegant solution to storing your tea in an organized and beautiful setting, whether in the

home or in the café. Crafted out of ethically sourced timber, the boxes are furnished with either rose gold or silver hardware. Slow-release hinges prevent the lid from slamming shut, while tempered glass minimizes breakage. Stainless steel feet keep the box slightly elevated off the bench, preventing moisture from accumulating underneath. The removable dividers provide extra-large storage compartments for a variety of tea bags. These Tea Boxes also make the perfect gift for any tea lover! Find yours today at www.mijenko.melbourne.
