

THE ART OF ACRYLIC

Graceful, museum quality frames bring a new air of sophistication to carefully curated images. Seamless, perfectly polished frames almost disappear to showcase imagery within.

Care for Your Acrylic Frame

This specially crafted frame will be a timeless treasure with these care essentials:

- > Gently dust with a dampened soft cotton cloth or chamois.
- > Wash with a mild soap or detergent and lukewarm water solution when necessary. Dry by blotting with a soft cotton cloth.
- > Do not use window cleaning fluids, scouring compounds, gritty cloths, or strong solvents such as alcohol, ammonia or acetone as they may damage the finish.
- > To maintain a high shine finish, use polishes recommended for acrylics.

Hanging Your Acrylic Frame

A unique French cleat system offers a secure and level mounting that floats the frame off the wall by a ½ inch. Follow these directions for hanging:

1. Place Quick-Mount Bracket Wall in desired location, level it and mark the location of the holes.
2. Using a ¼-inch drill bit, drill holes at the marked locations. Tap provided wall anchors into drilled holes.
3. Place Quick-Mount Bracket Wall over anchors and fasten using provided screws. Be sure to recheck level before final tightening.
4. Hang the frame onto the Quick-Mount Bracket Wall using the cleat on the back.
