

Data-AR Studio

Depict facts and figures visually in AR – capture imaginations

We'll overlay your dataset in AR

Visualize air quality and heat exchange / energy models

e.g. Solar Thermal technology in Passive Housing

Visualize footfall in stores and shopping complexes

e.g. selling passive housing

Visualize occupancy patterns

Visualize traffic patterns in alternative scenarios

Any data set you'd like to try out in AR

AR Model Modifications

Add natural lighting

>>

Add details and bake in textures

>>

Occlusion of surroundings

>>

Words about a type of modification

>>

Value engineering – try out facades, materials, enhancements

>>

Visualize a site after landscaping

>>

Map layers in walls to coordinate MEP

>>

Tell us what you need

>>

We turnaround models super quick
