

CARE & MAINTENANCE GUIDE

Engineered FLOORS

WELCOME TO ENGINEERED FLOORS®

We are Engineered Floors®, one of the largest and fastest-growing carpet mills in the world. We were founded in 2009 with the most modern equipment, facilities and processes, and employ some of the most experienced and talented people in the industry. Together, we serve the needs of the floorcovering specialty retailer with our Dream Weaver® brand; the new homebuilder with our DWellings® brand; property owners and managers of multifamily housing with our Engineered Floors® brand; and the commercial market with our Pentz™ brand.

Visit EngineeredFloorsLLC.com for complete warranty details.

Congratulations for choosing a carpet made by Engineered Floors®

You have chosen one of the best carpets you can buy. Not only have we made our carpet beautiful, we have also designed it to be very durable.

Our PureColor® carpet fiber

PureColor® is our proprietary brand of solution-dyed fiber that is used in every carpet we make. Because it's solution-dyed, the color goes all the way through the fiber, like the color in a carrot, meaning the color won't fade, wear off or stain. The result is color that is beautiful, vivid and permanent for the life of the carpet, with virtually no inconsistencies or side-matching issues.

Built-in protection

Our PureColor® nylon and polyester fiber has soil and stain protection that is not only applied to the outside of each fiber but also the inside, helping preserve your carpet longer.

VariColor™ technology

Innovation Reinvented... again. VariColor™ is our exclusive, patent-pending technology that blends multiple colors throughout your carpet to create a well-balanced, consistent color visual. VariColor™ is not limited by fiber type, weight or price point within our PureColor® family of brands.

SPOT CLEANING GUIDE

A. WATER SOLUBLE STAINS

First, blot thoroughly with a white cotton cloth or paper towel. Next, apply a solution of liquid dishwashing detergent to one quart of water, a spray bottle works well. Repeat until the stain is removed.

B. WATER SOLUBLE STAINS WITH ODOR

Same as A, but treat with white vinegar before using detergent.

C. WATER SOLUBLE STAINS WITH HEAVY COLORS

Same as A, but treat with a household ammonia before using detergent.

D. GREASE

Blot as much as possible with a white cloth or paper towel. Apply a volatile solvent such as Perchloroethane (dry cleaning fluid) or a citrus-based solvent to a white cotton cloth. **CAUTION:** Do not apply the solvent directly to the carpet pile as permanent damage WILL result. Use with rubber gloves and adequate ventilation.

E. WAXES & GUMS

Freeze with ice or a commercially available product in a spray can. Shatter with blunt object and vacuum immediately. Repeat as necessary.

F. MEDICAL STAINS

Commercial preparations are available. A 5% Sodium Thiosulphate solution from a photography store may also be used. For stains more than a few hours old, this solution should be heated.

G. RUST

Most can be removed with a 10% solution of citric acid. More stubborn stains will require professional cleaning as restricted chemicals may be needed. Use of citric acid is not recommended for solution-dyed products as damage may result. Certain household cleaners contain citric acid and should be used with caution.

OWN WITH CONFIDENCE

Installed correctly and following proper care and maintenance, your Dream Weaver®, DWellings® or Engineered Floors® branded carpet will stay looking newer and beautiful longer.

Carpet care checklist

- Only install your carpet in appropriate areas of your home.
- Use a professional carpet installer for best results.
- Use a quality carpet pad of the correct thickness.
- Always have clean walk-off mats at all entrances to capture outside soil before it's tracked inside.
- Vacuum regularly with a Carpet and Rug Institute Seal of Approval vacuum cleaner.
- Have your carpet professionally cleaned using deep cleaning extraction every 12-18 months by a Carpet and Rug Institute Seal of Approval professional.
- Always attend to accidents and spills immediately by blotting the spill with a damp, white absorbent towel.
- Have professionals remove stains caused by markers.
- Only use Carpet and Rug Institute Seal of Approval spot cleaners.
- See "Spot Cleaning Guide" for more tips or visit www.carpet-rug.org.

MADE WITH PRIDE

Our carpets are made in the USA using the latest technology and state-of-the-art manufacturing facilities and processes in the carpet industry. Because of our manufacturing efficiencies and the way we make our solution-dyed fibers, we use considerably less energy and water and produce less greenhouse gases.
