

# Parts + Program

## Gold Level

Welcome to our new Parts+ Program! Your account has been placed in our **Gold Tier!** You will benefit from preferred discounting, priority shipping, price match guarantee, semi-annual customer check-ins, inventory stocking considerations, and dedicated aftermarket support. We are excited to elevate your parts procurement experience.

You should expect to see some major discounts on commonly purchased items from us. We will be expanding the program to all of our product lines over the next couple of months.

## What is the Parts + Program?

We have launched a new system to reduce our costs on our highest-moving items through bulk automation purchasing, warehouse efficiencies, and strategic financing. 100% of these costs are being reflected in the prices we are offering our core clientele. You will receive more communications on this new program in the future but in the meantime, enjoy some deeper discounting and improved service!

## Price Match

We prioritize delivering unbeatable value to our valued customers. With our **Price Match Policy**, we ensure that you always receive the best deals.

Silver tier members are eligible for straightforward price matching, while our esteemed Gold and Platinum members enjoy an extra advantage – a price match plus 3% discount.

Shop with confidence, knowing that you're getting the most competitive prices along with premium benefits.
