# **FIREBALL**

## **EQUIPMENT LTD**

### **SERVICE DEPARTMENT**

Our service division staffed with trained and experienced technicians allows us to offer comprehensive after sales support for all our products and systems. We

offer both onsite service as well as repairs in our shop for most brands of fluid handling equipment. Our service department handles everything from one hour pump rebuilds to permanent onsite service. Fireball service provides our

customers the option of contracts for service and preventative maintenance. Our relationship with vendors such as Graco, FuelMaster, FloMax, Pneumercator, Hannay, and others, enhances our ability to meet every customer need.

Our shop is fully equipped to service our products as well as most other brands of lubrication equipment. If you can't get the problem equipment to our facility, our fulltime repair technicians can answer any questions you have on the phone, or come to your site to fix the problem. We have service techs in most major cities in the Prairie Provinces.

Fireball Equipment's service department is capable of servicing and repairing pumps of almost any make and model in a punctual and cost effective manner. Our staff specializes in Graco pumps and we are capable of carrying out warranty work on any Graco product. We also have experience with Lincoln, Dixon and a host of other manufacturer's products.

Fireball Equipment provides both onsite and remote support for any of the industrial IT products that we sell, including Matrix, FuelMaster and Pneumercator.
