

## ABOVEGROUND TANK INSPECTIONS

Trust us to ensure your  
aboveground tanks meet the  
National Fire Code Compliance.

At Fireball, we take pride in being your trusted source for tank inspections, performed by certified petroleum mechanics.

With a commitment to compliance, safety, and precision, our services cater to a wide range of industries, including commercial, mining, agriculture, and more.

## OUR TANK INSPECTION SERVICES INCLUDE:

**Compliance Inspections:** We specialize in inspecting fuel, used oil, and windshield washer fluid tanks. Our comprehensive inspection will help ensure that you are compliant with the National Fire Code of Canada.

**CPCA Certified Professional Verification:** Rest assured that your tank inspections are conducted by CPCA-certified petroleum mechanics, guaranteeing expertise and adherence to the industry's best practices.

**Detailed Inspection Checklist:** We check the following to aspects to ensure compliance and safety...

- Secondary containment verification
- Proper placement and ventilation
- Up-to-date log books
- Presence of overfill protection
- Adequate safety measures and mechanical protection
- Visual inspections for signs of corrosion, leaks or structural damage

**Risk Assessment:** Our team performs a comprehensive risk assessment to identify potential hazards and vulnerabilities associated with your tanks. This proactive approach allows us to recommend preventive measures and ensure the overall safety of your facility.

**Calibration on Fuel Metering:** We offer calibration services to ensure the accuracy of fuel metering, crucial for precise measurements in various industries.

**Full Compliance Report:** Upon completion of inspections, we provide a detailed compliance report, outlining all aspects of the inspection and a full list of deficiencies present. This transparent reporting empowers you to make informed decisions about maintenance and repairs.

**Decals:** To further ensure compliance, we provide decals that help maintain clarity and adherence to regulations.
