

SUGGESTED LAUNDERING INSTRUCTIONS

WASH, DRY,
CHANGE,
REPEAT.

Our micro satin/shantung products
were designed to look
AHHmazing every time.

COMPHY

Developed for Spa. Designed for Ahh.

FOR HOME USE

WASH:

Pre-treat stains.

Wash on delicate cycle using hot water (up to 140°) and cool or cold water rinse.

Do not use fabric softener.

Use slow spin cycle if available.

Do not launder with unlike colors or materials. Use non-chlorine bleach, if desired.

DRY: Set dryer on permanent press cycle, medium heat with cool-down cycle. Remove promptly and fold.

FOR PROFESSIONAL USE

BREAK/SUDS CYCLE	10 minutes	Hot water (140°)	Low water level	Alkali at 1500-2000 ppm
RINSE 1	2 minutes	Hot water (140°)	High level	
RINSE 2	2 minutes	Warm water (120°)	High level	
RINSE 3	2 minutes	Cold water (80-85°)	High level	
FINAL RINSE	4 minutes	Cold water (80-85°)	Low level	Sour to appropriate pH levels
DRYING	15 minutes at medium heat (130-140°). 5 minute cool-down. Remove from dryer immediately when done.			

FOR OPTIMAL OPERATIONAL RESULTS:

We recommend the use of water-soluble massage oils, lotions or creams when using Comphy linens during spa treatments. **We guarantee our shantung products against staining for 1 year, the use of Grapeseed or Jojoba oil voids the Comphy warranty.**

Launder products in a full load and do not use bleaches.

Wash as soon as possible. If you cannot wash right away, place soiled goods in plastic bags to keep the air from oxidizing the spa oils.

Wash in high temperatures of 140° with high levels of alkalinity. Using solvents in addition to a high temperature alkaline bath is helpful.

Please contact customer service regarding any laundry concerns at CustomerService@comphy.com.
