The Fastest Name In Radio Control™

TRAXXAS
The Fastest Name In Radio Control!

X-Maxx requires the use of LiPo batteries equipped with Traxxas High Current Connectors. See warnings and precautions about LiPo Battery use on the opposite panel. DO NOT use NiMH batteries with X-Maxx. All required batteries and chargers are sold separately and not included.

For 6S operation: (top speed 35+ MPH) purchase two 3S lipo batteries such as: Traxxas 7631 3S 5000mAh (2 req.) or Traxxas 4231 3S 6400mAh (2 req.)

For 8S operation: (top speed 50+ MPH) purchase two 4S LiPo batteries such as: Traxxas 42890 4S 6700mAh (2 req.)

For up to 3S LiPo battery charging use Traxxas 10 charger #2970 or 2972. For up to 4S LiPo battery charging use Traxxas 10 charger #2971. For more information consult with your local hobby store or contact Traxxas at 1-888-TRAXXAS (toll-free in the US) www.traxxas.com. With included optional speed gear installed, 45mph out of the box on 8S.
