Team Associated is excited to partner with Hoonigan® to bring you their world-famous Hoonitruck in radio-control form. Built on an all new Apex2 chassis, the Team Associated Hoonigan® Hoonitruck is a tire-slaying beast!

The Apex2 chassis has been updated from our previous version with the latest features in on road racing. A front and rear independent suspension with threaded oil-filled shocks and active rear toe give the Apex2 the ultimate in handling on uneven tarmac. This makes it a perfect platform for the Hoonitruck and tire-shredding action!

The **#30123C Apex2 Hoonitruck RTR LiPo Combo** includes a #27201 Reedy Compact Balance Charger and #758 Reedy 7.4V 2S LiPo Battery with T-plug.

**HOONIGAN (HŌON'·Î·GEN) n.**

A person who operates a motor vehicle in an aggressive and unorthodox manner, consisting of, but not limited to, drifting, burnouts, doughnuts as well as acts of automotive aeronautics. One who hoons.

## HIGHLIGHTS

# APEX2

1/10 SCALE 4WD ON ROAD READY-TO-RUN

# HOONITRUCK

Licensed Hoonitruck body

Threaded oil-filled shocks smooth out the bumps when ripping down the tarmac and shredding tires

The Apex2 chassis is equipped with metal ring and pinion gears for long-lasting durability that can handle tire-slaying burn-outs

For better handling, A-arm front and rear independent suspension keeps the Hoonitruck under control during the wildest of driving conditions

Active rear suspension allows the amount of toe change to be adjusted through the suspension cycle, increasing or decreasing rear grip

A sealed center driveline keeps dirt and debris out--along with bits of tire rubber--for smooth and reliable power delivery

Reedy Sport 550 15-turn 3-slot brushed motor

Reedy SC500X programmable brushed ESC (program card sold separately)

Due to ongoing R&D, photos may not match final kit. Vehicle shown on these pages equipped with items NOT included in #30123: battery and charger.
