Customise The MOMA Solar Pop Up Base Your Way

The new MOMA Solar Landscape Series Pop Up is ideal for councils, events, pathways, construction sites and so much more.

Choose from over 20+ colours to suit your needs, your environment and your aesthetic.

Whether you are looking to blend in or stand out MOMA Solar has the solution.

The MOMA Solar Pop Up is a no emissions, no running cost, autonomous lighting alternative to traditional diesel lighting towers.

Lightweight when empty, stackable and fitted with handles and forklift slots for easy installation and transport, the Pop Up is suitable for so many applications.

Want to customise your base even further? Ask our sales team about Stencils, Decals and Wraps.

No Fuel

No Cranes

No Noise

No Cables

No Emissions
