

H-300 & H-300-NXT COMPARISON CHART

	H-300-NXT	H-300
Reduces particles as small as 0.5 micron in size by mechanical means	●	●
Chlorine taste & odor	●	●
Dirt and cloudiness	●	●
Mold and algae	●	●
Lead	●	●
Volatile Organic Chemicals (VOCs)	●	●
NSF/ANSI Standard 53 certified to reduce cysts such as Cryptosporidium and Giardia by mechanical means	●	●
Enhanced with KDF media to inhibit scale build-up that can damage equipment	●	●
NSF/ANSI Standard 401 certified for the reduction of the incidental contaminants/emerging compounds listed in the performance data sheet	●	●

EPA EST. NO. 002623-IL-002

Contact your local distributor to learn more

This System has been Tested & Certified by NSF International against NSF/ANSI Standards 42, 53, and 401 as verified and substantiated by test data for the reduction of:

Std No. 42 Aesthetic Effect:

- Chemical Reduction
 - Taste and Odor
 - Chlorine Taste & Odor
- Mechanical Filtration
 - Particulate Reduction: Class I

Std No. 53 Health Effects:

- Chemical Reduction
 - VOC
 - Lead
- Mechanical Filtration
 - Cyst

Std No. 401 Emerging Contaminants*

- Phenytoin, Ibuprofen
- Naproxen, Estrone
- Bisphenol A, Nonylphenol

*NSF Standard 401 have been deemed as "incidental contaminants/emerging compounds". Incidental contaminants are those compounds that have been detected in drinking water supplies at trace levels. While occurring at only trace levels, these compounds can affect the public acceptance/perception of drinking water quality.

H-300-NXT

DRINKING WATER SYSTEM

RESIDENTIAL.EVERPURE.COM/NXT

WATER YOU CAN TRUST

Enjoy peace of mind with the latest in high end commercial-grade filtration from Everpure. With the H-300-NXT, your family can indulge in quality, trusted water on demand. Engineered to deliver unparalleled performance, the H-300-NXT ensures you receive crisp, clean, healthy water every time.

THE BEST JUST GOT BETTER

The H-300-NXT uses trusted technology from our top-selling H-300 to deliver quality water with these added benefits:

LATEST NSF/ANSI CERTIFICATION FOR EMERGING CONTAMINANTS

Contaminants reduced include:

- Some pharmaceuticals
- Over-the-counter medications
- Manufacturing chemicals like bisphenol A (BPA)

NOTE: While the health risks associated with emerging contaminants are not yet well understood, the contaminants covered in this new certification have been detected in drinking water supplies at trace levels.

50% GREATER DIRT-HOLDING CAPACITY

Reduces contaminants while retaining vital, natural minerals so you receive tasteful, crisp, clean water.

30% LARGER FILTER MEMBRANE

Combines exclusive Micro-Pure technology and a unique pleated filter membrane to provide longer filter life and consistent performance.
