

EVERPURE® ENDURANCE® SC HIGH FLOW SYSTEMS

The new Endurance SC is Pentair's new high flow filtration platform for high volume foodservice operators. This new self-cleaning model features smart, flushable, hollow fiber technology that adjusts flush cycle based on water usage.

- Right-sized for high volume operators requiring ingredient quality water
- Ideal for locations that suffer from extreme particulates in water supply
- Municipal-grade hollow-fiber membranes reduce particulates down to .025 micron by mechanical means†
- Intelligent controller automates self-cleaning flushes based on actual gallons/litres of water consumed
- Features Everpure SEN Fibredyne™ Fine Filters with proprietary Fibredyne II media for superior contaminant reduction
- NSF listed chlorine reduction capacity allows for once-per-year changeouts of carbon cartridges
- Utilizes the Everpure 2SR-BW Phosphate Cartridge (EV9627-14) for scale reduction
- Compact, wall-mountable design
