- 5 different coloured 'flat fats' of cotton fabric
- 12cm x 115cm piece of contrast fabric for drawstring channel
- 150cm of 15mm satin ribbon to use for a drawstring
- Sewing thread (white & pink)

## Equipment

- An iron
- A sharp pair of sewing scissors
- A printer & paper
- A pencil
- A sewing machine
- Pins
- Needles

-  Ribbon back
-  Ribbon Front & Outside Shoes
-  Shoe Inside & Ribbon Sides
-  Shoe Insole
-  Shoe Edge

## INSTRUCTIONS

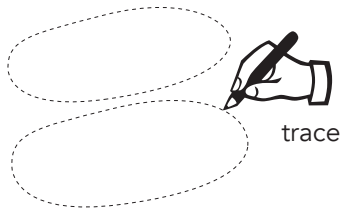

### For the appliqué

1

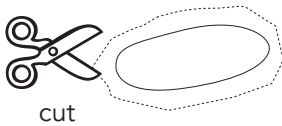

Print out this pattern at 100% size.

2

Trace each piece and letter that you need onto the backing of the Vliesofix.

3

Roughly cut each shape & letter out of the Vliesofix (on the outside your pencil line).

4

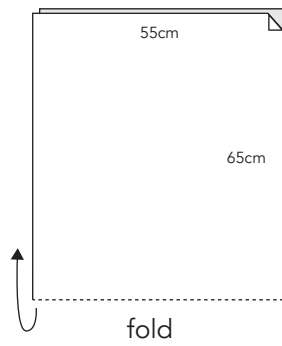

Iron Vliesofix pieces onto the back of your chosen fabrics.

5

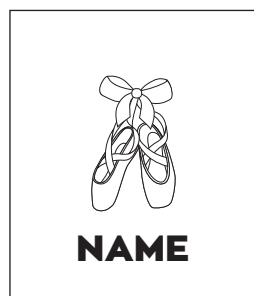

Once cooled neatly cut out the pieces of fabric as per your tracing on the Vliesofix backing. Remove the paper backing from each piece.

6

Fold the calico in half so you have a 55 x 65 rectangle and iron. The folded edge is the bottom of your sack.

7

position

Position the ballet shoe pieces centred on the folded calico.

Layer the elements of your shoes and ribbon as per the labelled diagram starting with the shoes then ribbons and working up to the bow at the top.

8

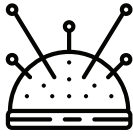

Once you are happy with the position of the pieces start ironing piece by piece to the backing fabric.

Apply enough time and heat so the edges do not lift but being careful not to burn the fabrics.

## INSTRUCTIONS

### To sew the bag

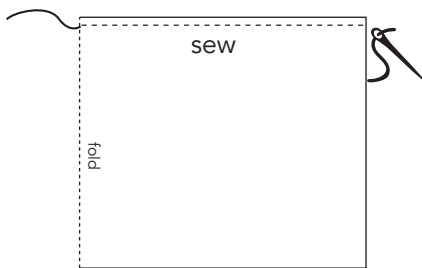

9

pin

Turn the sack fabric inside out with the right side in (the appliquéd shoes will be inside the bag). Pin the calico along the right and left edges.

10

Use a sewing machine to sew the sides of your bag.

Starting at the bottom of your bag sew along the left side of your bag with a 1cm seam allowance (the bottom of your bag is the folded edge).

Repeat for the right side.

### For the drawstring

11

Cut a piece of contrasting fabric 12cm x 112cm.

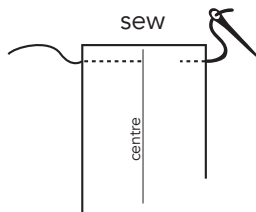

12

fold

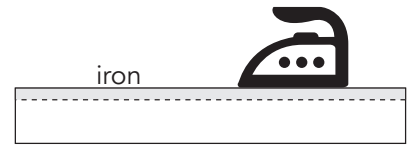

Fold in half with right sides together. Your fold will be on the short side.

13

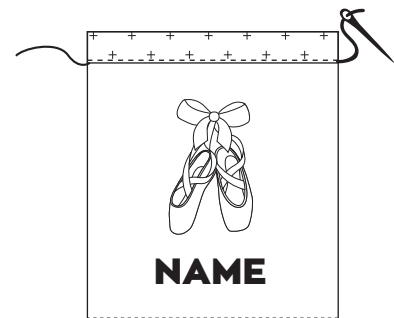

Sew the short edges, with a 1cm seam allowance, together. Leave a 2cm gap in the stitching from the centre point to one side for the drawstring entry and exit point.

14

Turn over a 1cm seam allowance on both raw edges and iron. Then turn right side out and fold in half on the long edge. Once folded your fabric will measure 10x50cm.

15

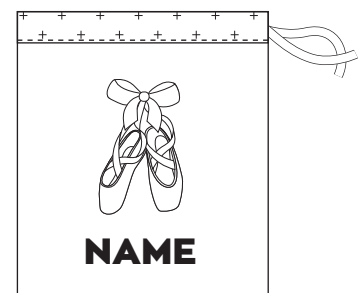

Sew

Place the folded edge over the open end of your drawstring bag - one half of your fabric will be inside the bag, the other outside.

Pin in place and sew along the bottom edge.

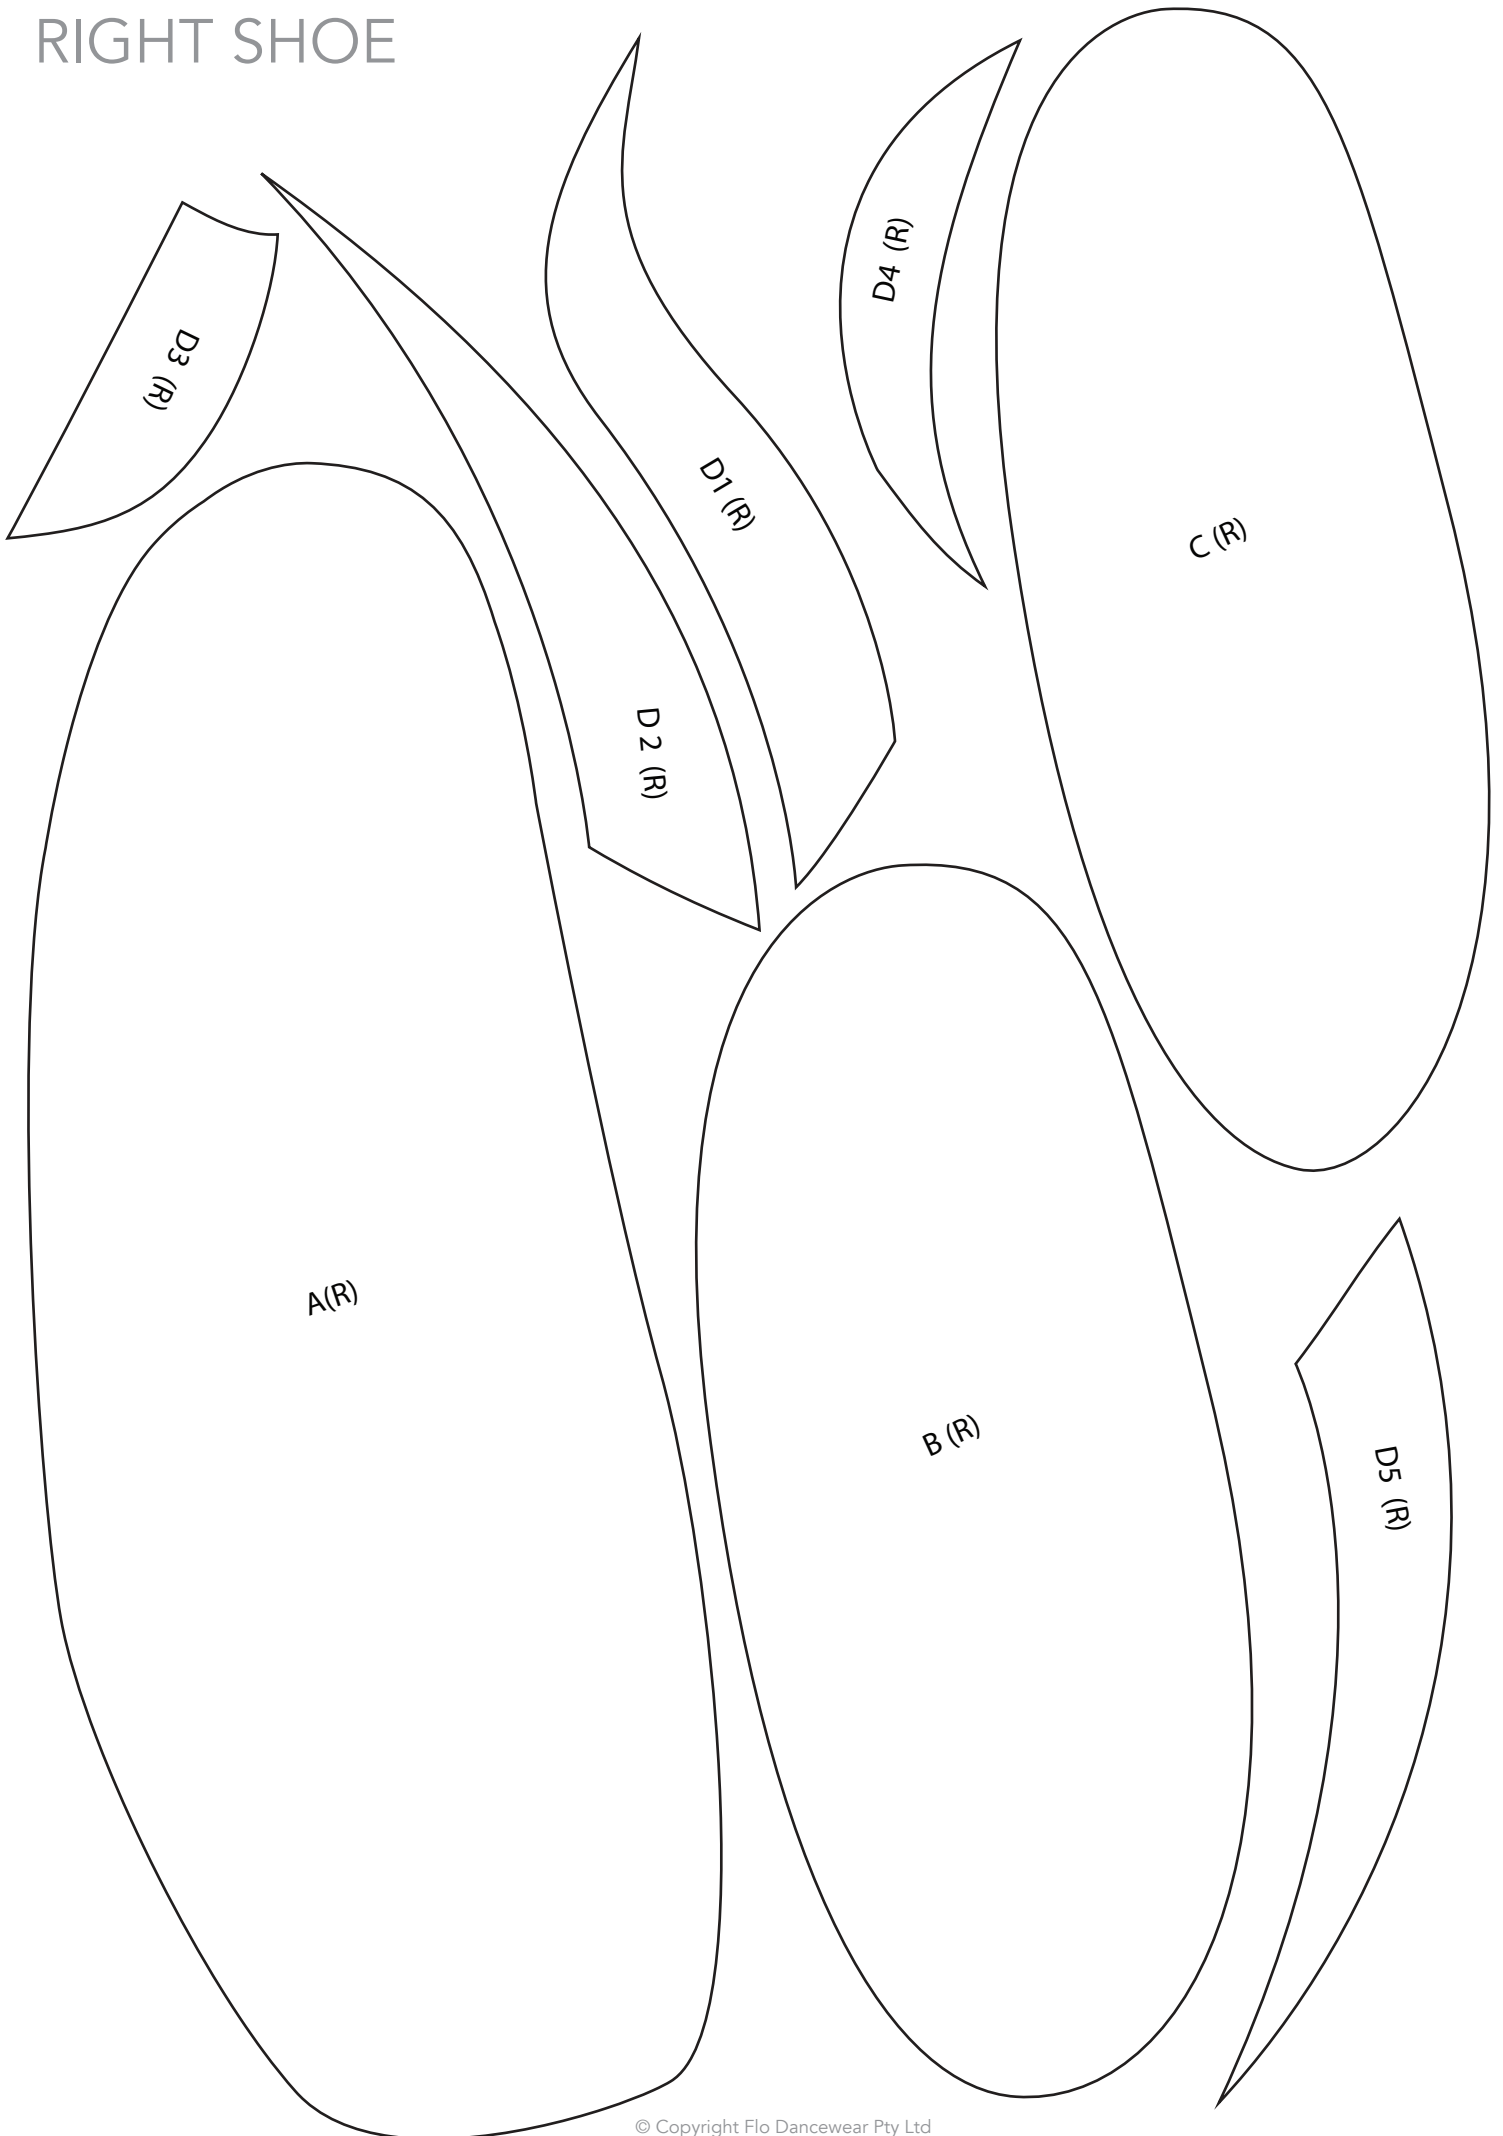

16

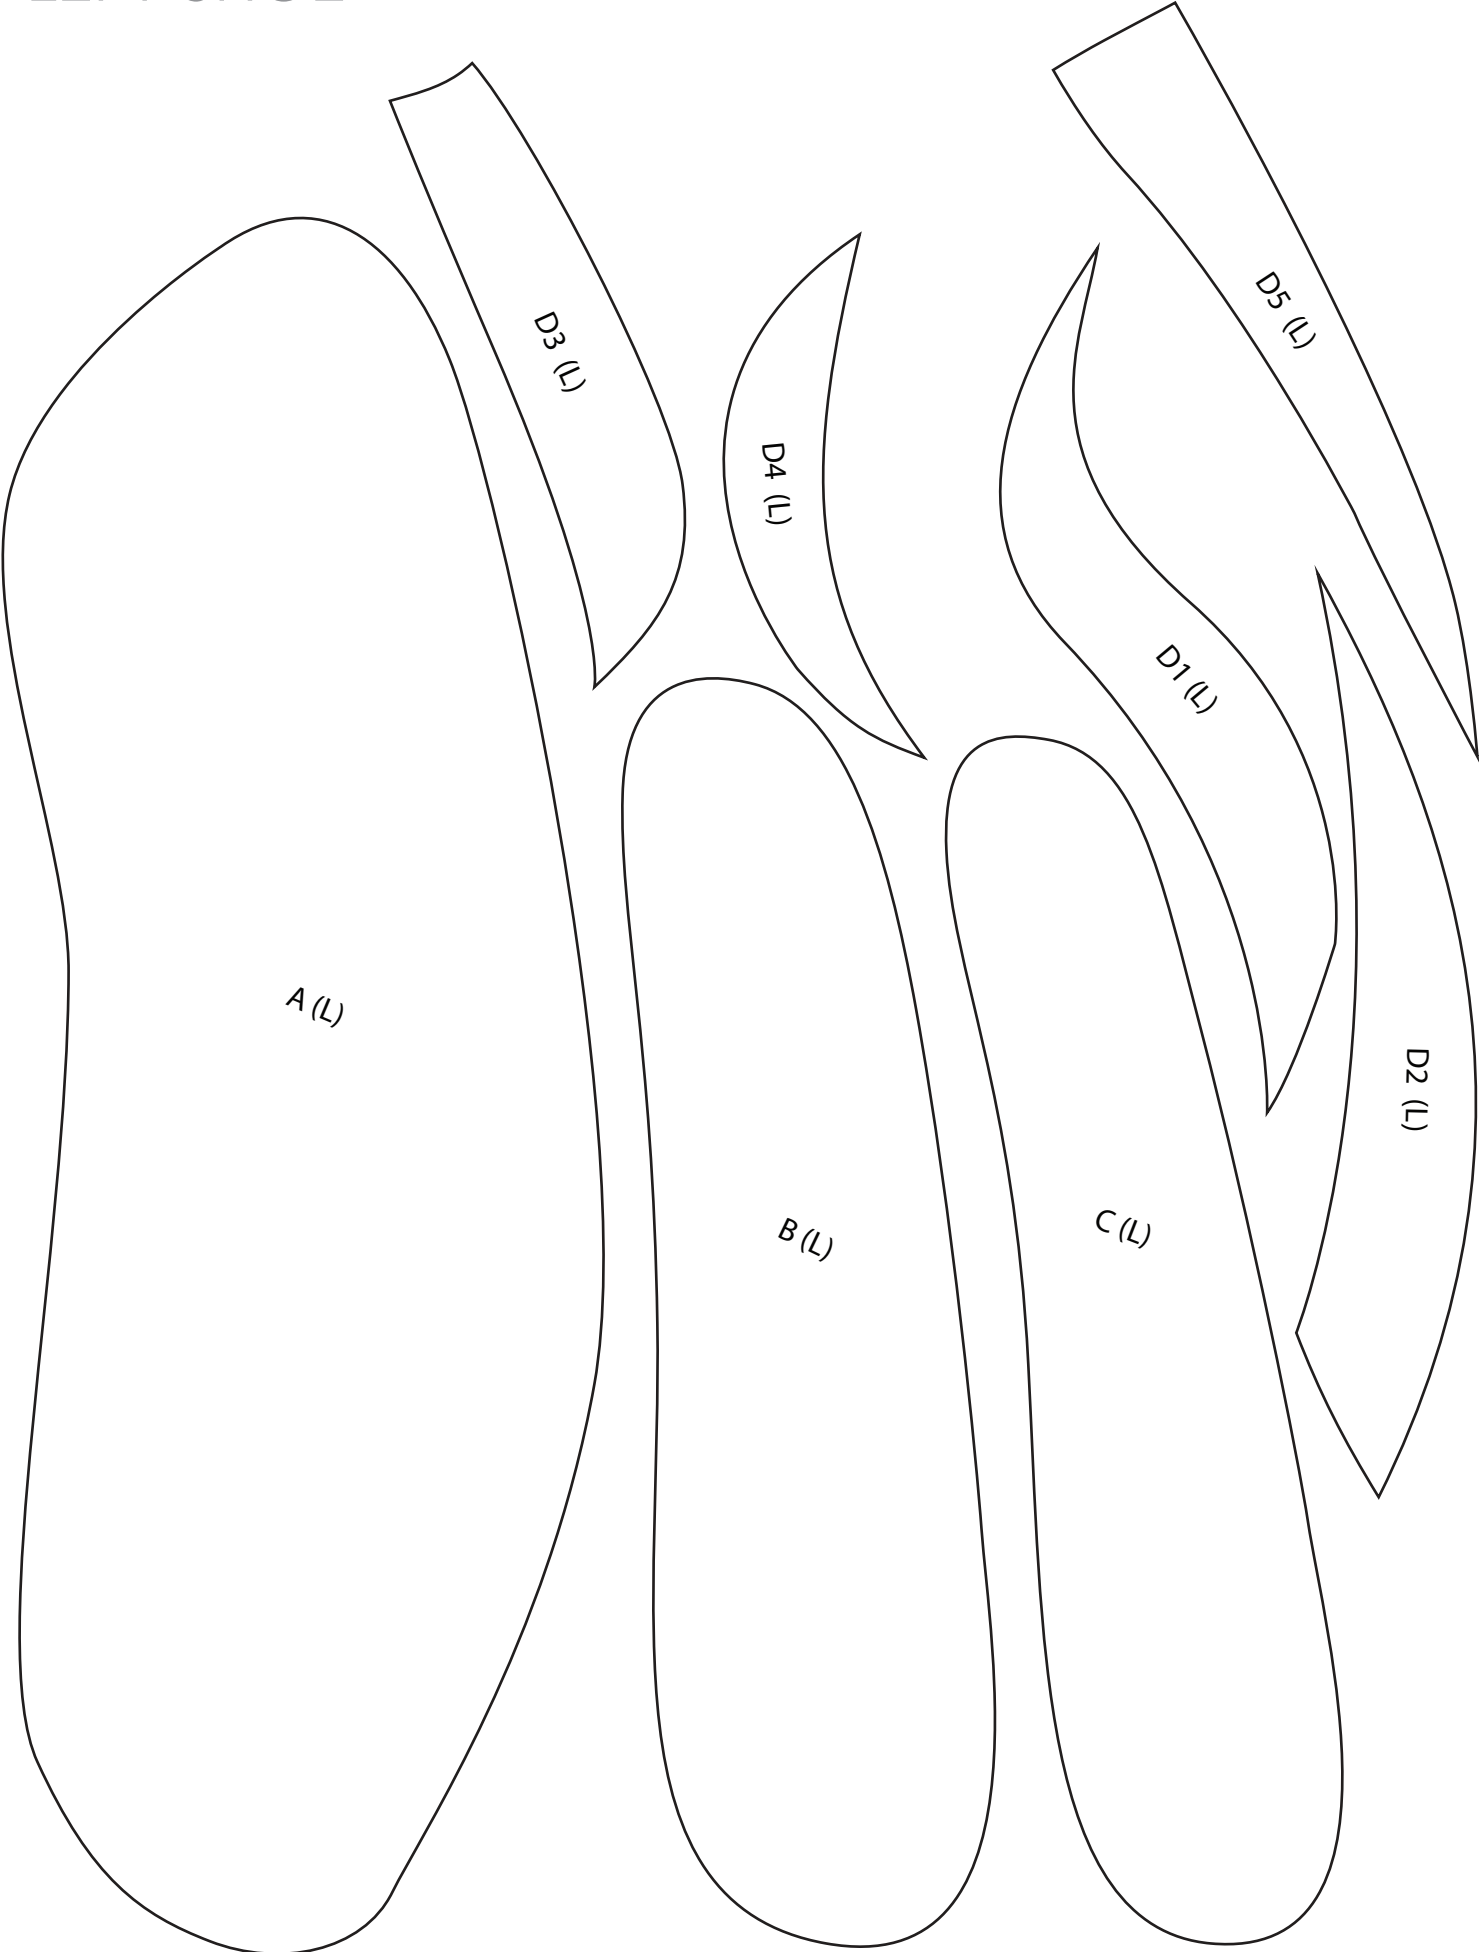

finish

With a safety pin on the end of your ribbon feed in the ribbon through the stitch gap in your drawstring side seam. Thread it around the top of the bag.
