Lockly™ Secure Smart Locks

Introducing Lockly Secure Pro, the World's Most Advanced and Secure Smart Lock

Easily access and protect your home, office or rental property with Lockly's new line of smart locks designed to ensure the highest level of security available. By using your your smartphone, control and monitor door access and door status from anywhere in the world and securely control who comes and goes. With Lockly's mobile app, quickly lock / unlock your door and easily create access codes for your family, friends and rental tenants. Lockly Secure Pro also includes door sensors that always monitor your door status so you can easily control and check if your door is locked or unlocked via your smartphone or with Amazon Alexa and Google Assistant.

Lockly's patented PIN Genie™ Technology makes it virtually impossible for someone to use your access code unwillingly. Unlike other static keypads where the numbers are always the same, Lockly ensures that the digital keypad display is unique every time someone approaches your door. Lockly has created an easy to use smart lock solution that is beautifully and meticulously designed featuring the highest level of security available.

KEY FEATURES & BENEFITS

- **Packed with the Latest Technology** – Lockly Secure Pro supports both Wi-Fi and Bluetooth connectivity ensuring consistent worry-free functionality with or without internet access. Rest assured, you can always access your door with a physical key such as during power and internet outages!

- **Advanced 3D Fingerprint Scanner** – Lockly Secure Pro has an advanced 3D biometric module to ensure accuracy and speed which enables users to quickly open the door by simply using their finger.

- **Offline Access Codes –** No Wi-Fi available, no problem! Lockly Secure is the only smart lock in the world that is able to generate multiple access codes without an internet connection through the use of Lockly's patented technology. This feature is extremely useful for quickly sending remote access codes to any Lockly Secure location without having to rely on Wi-Fi. Perfect for multiple home and office locations and for Airbnb© and other rental properties. Grant access for a few minutes, hours or weeks!

- **Secure Digital Touch Screen** – Never worry about someone stealing your access code because Lockly's patented Pin Genie™ software ensures that your code cannot be interpreted by others keeping unwanted visitors out!

- **Voice Control –** Lockly Secure Pro is compatible with Amazon Alexa and Google Assistant allowing you to check the status as well as lock and unlock your Lockly smart lock by simply using your voice.

- **Door Sensor –** Lockly Secure Pro is one of the only products in the world that can monitor real-time status of your door.

- **Long Lasting Battery –** Lockly Secure uses standard AA batteries (included) which operates the smart lock for at least one year and is also supported by a backup battery.

- **Premium-grade Quality** – Lockly Secure smart locks are built with the highest quality materials to ensure a beautiful design combined with robust strength. Lockly™ Secure smart locks can withstand the harshest weather conditions from wet freezing temperatures to extreme heat.

- **Easy Installation –** Lockly Secure installs in minutes and works with most popular door lock configurations including dead bolt and latch locks.

- **Best in Class Warranty –** Lockly Secure is backed by a best in class lifetime warranty on all physical finishes and a 2-year electronics warranty.
