# OUR WIGGLY VALUES

## WHAT WE ARE HERE FOR;

To provide reliable, consistent quality products and service

To be approachable, trustworthy, friendly and kind

To offer professional expert knowledge and advice

To deliver with a sense of pace and urgency, whilst not compromising on quality

To have a great team of staff who embrace change and who are continually developed to update their skills and knowledge

To be a brave, innovative company – not just run of the mill

To get things right first time

To have a positive impact on the communities that we work with

To be committed to minimising the environmental impact of our operations

To have fun whilst delivering all of the above

## DEAR WIGGLY CUSTOMER,

First of all we hope you are keeping safe and well. It's at the forefront of my mind at the moment of course as I am writing this in Spring 2020 in lockdown. We realise how fortunate we are to have the space and ability to despatch direct from the farm with full government protocols for our team in place to protect health hygiene and social distancing.

We do know what many of you are up to though!

We are seeing so many wormeries getting restarted and improved, so much compost is being made... and so many birds are being fed. We know ourselves how therapeutic it can be to Bring your Garden to Life on whatever scale you can, - from window box upwards and of course we are here to help.

Down on the farm... The WIGGLY PODCAST IS BACK

We had a little think about what we could do during the lockdown period as a bit of entertainment and to support this resurgence in growing and wildlife... As The Archers have cut back on their episodes we thought it would be fun to bring back The Wiggly Podcast for lockdown...

Things have changed on the farm with Monty back working full time and all despatch taking place from right here... So, to catch up with what goes on we invite you to tune in every Friday (or anytime at your leisure) – it's The Archers.... But Real! **WIGGLYWIGGLERS.CO.UK/PAGES/THE-NEW-WIGGLY-PODCAST**

Secondly we have much improved our YouTube videos –we've made them easier to use on phones and tablets. Introducing our Wiggly Guide to Bokashi Composting **WIGGLYWIGGLERS.CO.UK/PAGES/THE-COMPLETE-WIGGLY-GUIDE-TO-BOKASHI-COMPOSTING** and Wiggly Guide to Worm Composting **WIGGLYWIGGLERS.CO.UK/PAGES/THE-COMPLETE-WIGGLY-GUIDE-TO-WORM-COMPOSTING**

Wishing you continued pleasure from your garden and wildlife

All the very best

Heather and Team Wiggly

Heather x

## HRH DUKE OF CORNWALL VISIT!

As you probably know Lower Blakemere Farm is owned by The Duchy and it's right on the edge of the Harewood End estate, Just before the Covid 19 lockdown we were very lucky to have been chosen for a private Royal visit from **HRH DUKE OF CORNWALL**. His full title I believe is **HIS ROYAL HIGHNESS PRINCE CHARLES PHILIP ARTHUR GEORGE, PRINCE OF WALES, EARL OF CHESTER, DUKE OF CORNWALL, DUKE OF ROTHESAY, EARL OF CARRICK, BARON OF RENFREW, LORD OF THE ISLES AND PRINCE AND GREAT STEWARD OF SCOTLAND!** We just called him Sir! He took the time to come and find out all about our family farm and diversifications and really seemed to enjoy the morning - checking out a wormery, seeing birdseed and bokashi production, meeting Erastus the bull, and having a cup of Earl Grey with honey in the floristry.

### 3 GENERATIONS OF THE FARM + TEAM WIGGLY

There were a few lovely moments - the postman turned up right in the middle of it - took one look and couldn't believe his eyes... We helpfully shouted "are you the ROYAL mail?" and HRH had a good giggle at that one! Rach took great delight in explaining feeding live food to his birds and Lydia gave him a demo on making a floral wreath! We had a good chat about summer birdfeeding, the floods and how farming will pan out in the future...

YOU'RE SAVING MORE THAN EVER COMPARED TO  
BUYING THE PRODUCTS INDIVIDUALLY!**

Also included is a fantastic flyer with some information about what's included in your box, your exact savings and a fab wiggly article about birdfeeding in that particular month!

**SMALL £20 PER BOX | STANDARD £32.50 PER BOX | LARGE £50 PER BOX**

Please note that the image above is just an example of what could be included, The products supplied will change every month - as the seasons change. The order will be packed in a box, but no gift box will be provided. We've also got a no-nuts option.

# WIGGLY COMPOSTING SOLUTIONS

WITH BOKASHI AND WORMS

## COMPOSTING WITH BOKASHI ACTIVE BRAN IS AN AMAZINGLY EFFICIENT METHOD OF TURNING KITCHEN WASTE INTO A NUTRIENT RICH SOIL CONDITIONER.

Bokashi acts in a different way from conventional composting: after a couple of weeks under the influence of the Bokashi Bran, your waste will have 'pickled'. It might not look composted but, if you add it to a conventional composter or dig it into your garden, it will break down amazingly quickly. Even better, you will be releasing lots of beneficial micro-organisms into your garden where they will help to promote your soil's health and fertility. Choose a site for your Bokashi Composter, most people use their's indoors. It is quite safe to keep the Composter in the kitchen, that's the most convenient location after all, but keep it away from radiators and direct sunlight.

### **Q: WHAT SORT OF COMPOST DO I GET OUT OF MY BOKASHI KIT?**

**A:** Bokashi is more about "pickling" your waste than actually composting it. The Effective Micro-organisms in the bran activate as it gets damp and this ferments your waste. This means the end result once you have filled the bin and waited for about 2 weeks looks pretty much the same as when you put it in... However this fermented waste is very different to your original waste and will smell "pickly" and the key thing is once you put it into a trench in your garden or compost heap it it will be exposed to the air and will break down very very quickly. At the same time this material is not attractive to vermin.

### **Q: WHAT SORT OF WASTE CAN BE USED IN THE BOKASHI KIT? I UNDERSTAND MAJORITY OF IT IS KITCHEN WASTE (MEAT, FISH, FRUIT, VEGETABLES), CAN PAPER BE USED SUCH AS JUNK POST MAIL, MAGAZINES AND SO FORTH?**

**A:** You can ferment all kitchen waste but it would be pointless to add paper as the Bokashi doesn't compost the waste it ferments it – pickles it. Paper does not smell and so you would add this to a conventional composter without a problem. In our office we use a Bokashi Bucket for all our lunch scraps, fruit peelings etc and then we shred all our paper waste for packaging

*For More information on Bokashi pop to [wigglywiggles.co.uk/blog](http://wigglywiggles.co.uk/blog)*

## Q: HOW DO YOU KNOW IF THE WASTE IS BROKEN DOWN BY THE MICROBES FROM THE BRAN?

**A:** The waste is not broken down – its fermented and you can tell very easily as the whole thing has a sweet pickly smell to it. The process is all very easy. As you fill the bucket you add a sprinkling of Bokashi. Once its full you start on another bucket leaving the original to ferment over the time it takes you to fill the next. In most people's experience that takes about two weeks.

## BOKASHI ORGANICO KITCHEN COMPOSTERS

# NEW!

Used with Bokashi Active Bran, this system ferments and pickles your food waste in less than half the time of conventional composting methods without odours. An easy-to-use composting bin made for collecting food wastes all year long; Provides a convenient collection method for kitchen scraps and turns them into rich, organic material great for your lawn and garden.

Bokashi Organico set is suitable for households with their own composter or garden, who wish for the fermentation process to proceed to the final stage in the composter.

With the help of the effective organisms, present in the bran, the decomposition process is, therefore, longer and undisturbed. At the end of the fermentation process, the contents of the first bucket can be emptied onto the compost pile or buried into the ground, where they transform themselves into high-quality compost in only four weeks.

Dimensions of a bucket 2 x (H x W x L): 390 x 270 x 320 mm, capacity 2 x 16L,  
Filling time 1 month

Made of 100% recycled plastic,  
Made in Slovenia (EU)

This Value Pack Includes:

- 2 waste buckets
- 1kg Bokashi bran
- 2 x drainage tap
- 2 x lid, 2 x strainer
- scoop
- mashing utensil
- drain cup
- user guide

## USING A BOKASHI COMPOSTER IS REALLY EASY, IT WILL SOON BECOME SECOND NATURE, BUT FOR YOUR FIRST FEW COMPOSTING CYCLES YOU CAN FOLLOW THE STEP BY STEP GUIDE BELOW:

- 1 Start composting by adding waste into the bottom of the bin. Make sure that it covers the base evenly. You always want to add waste in layers.
- 2 Sprinkle a layer of Bokashi Active Bran over the whole surface of the waste.  
**PRESS DOWN TO COMPACT THE WASTE.**  
The aim is to exclude as much air as possible. You want to get lots of waste into each bin: to this end you should chop up chunky waste (cabbage stalks for instance) into smaller pieces.
- 3 **REPLACE THE LID TIGHTLY**  
Seal the lid down each time you add waste and Bokashi. The lid can make an airtight seal, so push gently down on the centre of the lid then clip round the whole rim. As with compacting the waste the aim is to keep air out as much as possible so that the beneficial micro-organisms can work efficiently.
- 4 Keep adding waste in layers. Every time a layer gets to be 30–40mm thick cover the surface of the waste with a sprinkling of Bokashi Active Bran; one or two handfuls is a good amount to use. if in doubt add more Bokashi not less.
- 5 Drain the Bokashi Juice regularly. You should use Bokashi Juice as soon as you collect it as it does not store well. Dilute with 30 parts water and use it as a wonderful feed for your plants, or simply pour it down the drain! Bokashi Juice is full of beneficial beneficial microorganisms and will help keep drains and septic tanks clean and free from harmful bacteria.
- 6 Keep adding waste and Bokashi until the housing is full to overflowing. Then add one last sprinkling of Active Bran and replace the lid for the last time.

### LEAVE IT UNDISTURBED FOR TWO WEEKS

Set this bin aside to let the beneficial micro-organisms get to work. You will need to leave it sealed and undisturbed for 2 weeks. However you should keep draining off any excess Bokashi Juice.

- 7 Start composting your second batch in your other bin. After two weeks the waste pickling in the first bin will be ready and that bin ready to start on your third batch.

## USING YOUR BOKASHI COMPOST IN THE GARDEN

After the Composter has been completely filled, the beneficial micro-organisms in the Bokashi take around two weeks to work their magic.

After a fortnight has passed you can add the contents of your Bokashi Composter to a conventional compost heap or bury it directly in the ground. Beware if burying however, Bokashi treated waste is a powerful compost— it may be too strong for some new planting. The best course of action is to dig the compost into a bed, mixing well with the existing soil, then leave it for two or three weeks before adding plants to the bed.

Burying Bokashi Compost in the ground is an excellent way of promoting soil health, indeed the whole principle of beneficial micro-organisms was conceived of by Professor Higa as a way of returning goodness to soils that had been overworked and treated with artificial fertilisers. Fresh Bokashi Compost has a low pH (ie it is acidic) but it will neutralise (pH close to 7) after 7–10 days when mixed with soil.

## BOKASHI ACTIVE BRAN F0077

Our Bokashi Active Bran is the heart of our Bokashi Composting system. It is a dry mixture of bran and molasses that has been inoculated with beneficial micro-organisms... a carefully controlled mixture of microscopic bacteria, yeasts and fungi that work together to speed-up composting, suppress pathogens, prevent putrefaction and eliminate foul odours.

Using it couldn't be easier... just sprinkle a layer of Bokashi over the kitchen waste you want to compost. The beneficial micro-organisms in the Bokashi get to work treating your waste in a process that takes just a couple of weeks, after which it breaks down amazingly rapidly when is incorporated into soil or added to a conventional compost heap. Simply dilute the juice 1 part to 30 parts water and put it on your plants for an excellent fertilizer.

A 1kg pack of Bokashi Active Bran should last approximately 3 to 4 months.

# URBALIVE WORM COMPOSTER FROM WIGGLY WIGGLERS

# NEW!

The Urbalive Worm Composter is a kit that can be used indoors or outdoors for composting kitchen waste with red worms. Perfect for households, classrooms or offices. Worms work best in sheltered conditions so if possible the best places to site the kit are garden shed, garage or greenhouse, or in a sheltered location near the kitchen door.

Composting using the Urbalive Wormery is easy and odour-free. The kit comes with trays where the worms transform food scraps into vermicompost so that you can harvest the worm casts tray by tray, a sump where the liquid worm tea is collected and a secure lid.

The compost worms produce is really rich, often referred to as "Black Gold". You can use as a rich base for potting compost or as a fertiliser when planting out and as a top dressing for your pots and planters. Worm tea is a liquid fertilizer containing a lot of rich nutrients and enzymes that help your plants grow and prevent pests. You will never have to buy liquid feed again.

Dimensions: Total Height (Including Legs): 60.5cm,  
Height of Bin: 38cm, Width: 50.5cm, Depth 38cm.  
Each Tray Holds up to 10L of Compost.

This Starter Pack Includes;

- 1x Urbalive Worm Composter
- The Wiggly Guide to Worm Composting
- 500g Composting Worms or a Worm Voucher
- A Bedding Block
- 2kg of Lime Mix
- 2kg of Worm Treat
- a Moisture Mat
- Filter, Scoop and Gloves

## SENDING URBALIVE AS A GIFT?

If you think your Dad or Aunt or mate would like a worm composter as a gift please make sure you choose the option which includes a Gift Voucher for the Worms rather than the LIVE Worms – this way you can have the present delivered without worry that there are worms to be kept or dealt with. The recipient can then set up the complete kit when they are ready and then claim their free worms with the voucher so they can be sent when they are ready... We don't want any wormy issues occurring!

*Get kids involved! They'll love caring for the worms!*

## THE TOP TEN TIPS FOR GREAT WORM COMPOSTING

The following tips represent the result of a great deal of experience in worm-assisted composting. Please read them carefully and try to follow their advice. If you follow them properly you will have a contented stock of worms which, in due course, will produce for you a steady stream of rich dark compost.

- 1** Don't try to rush things: it will take several months for the worms to produce their first Tray full of compost. Initially, when adding waste, do not add large amounts at one time, little bits of food at frequent intervals is the best recipe. However, worms can eat half their own weight in food every day so, as the kit becomes established and the worms start breeding, add more waste each day. Do not pile up fresh waste to a depth greater than 50–100mm (2–4") at any one time. You can add waste as long as you can see worms working in the top layer of waste, just under the surface - within a few centimetres of the moisture mat.
- 2** At least 25% of what you add to the wormery needs to be dry material. Cardboard, egg boxes and shredded paper are great - these will help keep the wormery aerated.
- 3** If your worms get behind in their feeding and uneaten waste begins to build up in the bin, stop feeding for a few days. (Remember, though, worms do not have teeth and therefore the waste must start to go slightly mouldy before the worms can eat it.) Start feeding again when the worms are working in the top layer. Large quantities of uncomposted waste will start to putrefy. Putrefied waste will upset the worms and its smell will upset you, but not the rats and flies it will attract!
- 4** Try many different foods. Just like us, worms enjoy variation in their meals. If certain types of food prove unpopular and don't get eaten, try to avoid including them in future feedings. Once every few weeks add in a handful of Wiggly Wigglers Worm Treat (a special mixture of all the things that worms love best), it will give your composting a boost.
- 5** Grass clippings and leaves cannot be composted in your kit. Grass will heat up in the bin and release ammonia before the worms can act on it, both conditions will harm your worms.
- 6** Worms are not happy in conditions that are acidic (pH less than 6). If you have a pH meter check the contents regularly, pH7 is ideal, pH6 to 8 is acceptable. To prevent acidity avoid adding any very acidic wastes such as citric fruits or onions. Sprinkle a handful of Wiggly Wigglers Lime Mix onto the surface of the waste every couple of weeks, this will counteract the natural acidity of much kitchen waste.
- 7** Worms like dark moist conditions so keeping a moisture mat on top of the freshest waste will ensure that your worm composteer doesn't start to dry out. Don't allow the contents to become waterlogged (see Tip 9) as this will lead to a lack of air in the bin. The contents of your Urbalive should be as moist as a freshly wrung sponge.
- 8** It will take a couple of months for the liquid feed to build up but then you should drain the sump frequently, depending on how much liquid you are getting, by opening the Tap. The liquid that you drain off makes an excellent houseplant and tomato feed. Dilute it with ten parts water before use.
- 9** If too much water gets into your kit and the contents become waterlogged you will need to drain off the excess liquid from the sump. Then try to dry out the contents by mixing in some shredded newspaper or cardboard (glossy magazine style paper is bad, toilet roll centres are good). As you mix in the paper try to 'fluff up' the contents to aerate the system. If your kit is producing a lot of liquid fertiliser, or rain water gets into the kit, it can be a good idea to leave the tap open with a container underneath. (Rainwater may occasionally get in as the lid is not airtight).
- 10** Avoid all oral contact with the bin's contents and remember to wash your hands afterwards.

Shop online at [www.wigglywigglers.co.uk](http://www.wigglywigglers.co.uk)

## URBALIVE EXTRAS + SPARES

Here's everything you'll need to keep your Urbalive Worm Composter tickity-boo - or to rescue your wormery if you've stopped for a while or think that you need to start again.

Our Wormeries are built to last, but we've also got a range of spare parts just in case accidents happen :)

## MOISTURE MATS

Worms work best in dark, moist conditions. Our breathable Moisture Mats provide these conditions where they are most needed, on the surface of your composter.

They encourage the worms to work in the freshest waste, thereby speeding up composting and reducing odours.

**OUR STANDARD MATS ARE MADE FROM 600G/SQ.M HEMP FIBRE MATTING.**

**OUR THICK MATS ARE MADE FROM 1000G/SQ.M HEMP FIBRE MATTING.**

## COMPOSTING WORMS F0094

Our composting worms are mixture of species (mainly reds and dendras) selected for their composting ability. Sometimes composting worms are known as tiger worms, brandlings, reds and dendras.

<b>250G</b>	<b>£19.95</b>	<b>500G</b>	<b>£29.95</b>
<b>1KG</b>	<b>£48.95</b>	<b>2KG</b>	<b>£85.95</b>

## WORMERY RESCUE KIT P9676

If you are looking to restart your wormery - whatever make it is this kit will give you a great start. Wormery Rescue Kit contains: a bedding block, 2kg Lime Mix, 2kg Worm Treat, Composting Worms, a Moisture Mat - for your wormery (look at the Moisture Mat listing for correct shape) and Instructions.

**£39.95**

## URBALIVE SINGLE TRAY F9627

Another tray will also be handy if your Urbalive Worm Composter just doesn't have enough room to keep up with the amount of waste you need to compost!

Available in LIME or STONE

**£25.00**

## URBALIVE SPARE TAP F9633

This is a replacement Tap for our Urbalive Worm Composters - simply screw it into the bottom of the wormery base!

**£3.95**

## URBALIVE SPARE FILTER F9674

This is a replacement Filter for our Urbalive Worm Composters - simply place it into to sump of your worm composter.

**£7.95**

Shop online at [www.wiggywigglers.co.uk](http://www.wiggywigglers.co.uk)

## ANTI-ACID LIME MIX F0092

Add a handful of our Lime Mix neutraliser to your wormery every couple of weeks to prevent acid build up. Lime Mix also helps prevent smells, flies and white worms. Because it contains grit it also aids the worm's digestion, and its drying properties make it good for wet or under-performing kits.

**2KG £6.50 4KG £11.95**

## WORM TREAT F0090

Worm Treat is a natural accelerator for any worm-assisted composting system. It is a special mixture of all the things that worms love best. Mix a handful into your composter every few weeks to give it a boost. The pellets also soak up any excess moisture in your composter and swell up in volume. Worm Treat helps keep your system in peak form!

**2KG £6.50 4KG £11.95**

## ROCKDUST FROM REMIN F9683

Rock Dust contains the essential minerals and trace elements required for healthy growth in your Composting Worms. It can also be used to invigorate compost and to remineralise soil.

**500G £2.95  
1KG £4.95**

## DIATOMACEOUS EARTH F0091

Simply use the puffer nozzle in the 100g bottle to add a light dusting of DE powder to the top of the wormery's contents. This is the best method we know of for keeping flies away from a Worm Composter.

**100G £7.95  
1KG £26.50**

## COMPLETE ROT FOR GRASS F0029

No more slime! Complete Rot ensures easy composting of grass clippings. Mix one kilogramme of Complete Rot into six kilogrammes of your freshly mown grass clippings.

## DON'T MISS OUR SPECIAL OFFER ON OUR BESTSELLING 12.55KG BAGS ON PAGE 7

This is our best selling seed mixture and it is suitable for most garden birds, Using a special wheat that Phil grows here on the farm. Wiggly Seed is a year round Birdfood, suitable for your table, or feeder.

Liked by:  
Sparrows, Collared Doves, Jays and More

<b>6KG</b>	<b>£8.50</b>	<b>12.55KG</b>	<b>£15.00</b>
<b>2X12.55KG</b>	<b>£25.00</b>	<b>4X12.55KG</b>	<b>£50.00</b>

Our Wiggly Seed Extra recipe is our bestselling premium seed mix and has been specially formulated to be less appealing to larger birds, which can monopolise the bird table.

Liked by:  
Siskins, Tits, Finches, Robins and More.

<b>6KG</b>	<b>£15.00</b>	<b>12.55KG</b>	<b>£23.00</b>
<b>2X12.55KG</b>	<b>£37.00</b>	<b>4X12.55KG</b>	<b>£74.00</b>

This birdfeed is not just designed for British Birds (although it is perfect for them), no, this is British Mix because it's grown in British fields by Farmer Phil and some of his friends.

Liked by:  
Sparrow, Finches, Tits, Yellowhammers & More

<b>6KG</b>	<b>£12.00</b>	<b>12.55KG</b>	<b>£20.00</b>
<b>2X12.55KG</b>	<b>£35.00</b>	<b>4X12.55KG</b>	<b>£70.00</b>

This is a high energy mix which is packed with the very best ingredients, and is wheat free - all grown in British fields.

## BRITISH SUET BALLS F0036

These high energy suet balls are made using British Maize and Seeds provided by Farmer Phil's farmer friend, on Parrish's Farm.

Feed the birds - their lives may depend upon you. A bird can use 10% of its body weight to keep warm on a cold winter night, so if they arrive at your garden expecting to find food and there is none, they may have no other source. It can literally be the difference between life and death.

There are two distinct species of birds that come to feed; the first are the original woodland species including the blackbird, robin, song thrush, blue and great tits and chaffinch. The second are open country or farmland birds such as the starling, goldfinch and house sparrow and in the winter siskin, brambling and redpoll.

**PACK OF 50**

**£15.50**

## I LOVE MY BIRDS SUET CAKES

We know exactly what goes into these Birdfood Cakes and that's why we know exactly what reaction they'll get from hungry garden visitors.

Other suet cakes are frequently bulked out with low-grade fillers, but not ours. You'll really see the difference with more birds in your garden. Our blocks fit perfectly into one of our block feeders, however this particular design also allows you to feed directly from the tray, making it an easy solution for all bird lovers!

<b>PEANUT &amp; SEED CAKE</b>	<b>£2.50</b>
<b>FRUIT, BERRIES &amp; NUTS</b>	<b>£2.50</b>
<b>HIGH ENERGY SEED CAKE</b>	<b>£2.50</b>
<b>INSECT CAKE</b>	<b>£2.50</b>
<b>RAISINS + NUTS CAKE</b>	<b>£2.50</b>

*Fats and Suets are a MUST in the colder months!*

## MEALWORM SUET PELLETS F0225

Mealworm Suet Pellets are delicious, easy to digest and jam-packed with energy.

## PEANUT SUET PELLETS F0034

These Suet Pellets contain peanuts. They are perfect for your bird table and softbill birds (such as blackbirds) love them scattered on the ground.

## BERRY SUET PELLETS F2018

They are suitable for all wild birds including young and adult birds, and as suet pellets do not have the same choking hazard as peanuts.

**3KG** £13.50  
**10KG** £27.95

**3KG** £13.50  
**10KG** £27.95

## FLUTTER BUTTER + FEEDER

Is it the nutty aroma? Or is it the down-to-earth goodness that birds sniff out?

There's something about Flutter Butter that's absolutely irresistible. Birds love peanut butter. But what's great on your toast is bad for birds – ordinary peanut butter has too much salt. Rich, nutritious Flutter Butter is naturally low in salt and gives birds a protein boost.

Simply twist a jar into our Flutter Butter Feeder to provide an instant feeding point. Ideally use the Flutter Butter feeder to dispense your butter or site the jar securely on your bird table. To feed woodpeckers or nuthatches smear butter onto a tree trunk.

Available In Original, Buggy + Fruity.

**1 JAR** £3.25    **FEEDER** £12.25

## LIVE MEALWORMS F0058

Live Mealworms (*Tenebrio molitor*) are our best selling live food, and the number one choice for feeding wild birds. They are the larvae of the Flour Beetle, a native British insect which eats flour, meal, grain and other related crops. - Very popular with wild birds.  
- Consists of over 50% crude protein -  
Completely safe and natural to use.

Mealworms can easily be stored in a garage or utility room because they are clean and odourless. They keep well at room temp. To store them for longer transfer them to the warmest part of your fridge, away from the icebox. Approx 230 worms per 40g .

<b>3X40G</b>	<b>£5.50</b>	<b>6X40G</b>	<b>£10.00</b>
<b>250G</b>	<b>£10.00</b>	<b>12X40G</b>	<b>£19.50</b>
<b>500G</b>	<b>£14.00</b>	<b>1KG</b>	<b>£25.00</b>

## LIVE WAXWORMS F0055

Waxworms are the larvae of the Greater Wax Moth and get their name because they are commonly found in honeycombs of beeswax. Waxworms colour and soft skin make them really appealing to insectivorous birds.

<b>1X40G</b>	<b>£6.50</b>	<b>2X40G</b>	<b>£11.00</b>
<b>4X40G</b>	<b>£19.00</b>		

## LIVE MINI MEALWORMS F0056

Mini Mealworms are young mealworms so much smaller so a good alternative to adult mealworms when your birds are feeding really tiny chicks.

<b>3 TUBS</b>	<b>£10.00</b>	<b>6 TUBS</b>	<b>£18.00</b>
<b>500G</b>	<b>£25.00</b>	<b>1KG</b>	<b>£45.00</b>

*Live foods are absolutely best for garden birds to feed their young!*

## LIVE TASTER PACK F1108

We promise that your garden birds will LOVE Live! treats, Not only are they tasty, but full of protein! We've also found that worms offer the variety that attracts the greatest of species!

This pack is perfect to get you started with feeding live worms to your birds, with two tubs of each type - so you can see what they like the best!

This pack contains;

2x 40g tubs of Live Mealworms  
2x 40g tubs of Live Mini Mealworms  
2x 40g tubs of Live Waxworms

Plus you will save over 15% off of buying the pack separately!

**TASTER PACK**

**£19.00**

## MEALWORM BREEDING KIT

**P0343**

It's quite simple to breed your own mealworms, all you need is this kit and some old margarine tubs, some vegetable waste. Kit contains: 120g mealworms, 1 bag of mealworm food and full instructions.

**BREEDING KIT**

**£11.00**

## MEALWORM FOOD F0054

Our special mixture of bran and calcium based minerals lets you keep your mealworms fresher for longer, and is a perfect supplementary food to which you can add extras on top of (don't overdo it). Mealworms like potato, banana peels, carrot slices or apple.

**250G £3.50**

**900G £6.75**

## BIRDLOVERS FEEDERS

Simple, low cost, robust feeders from Droll Yankee.

Hanging Feeder holds three of our standard Energy Balls.

Window Feeder is available for Seed, Niger Seed + Peanuts.

<b>HANGING</b>	<b>£6.00</b>
<b>WINDOW</b>	<b>£10.00</b>

## SQUIRREL BUSTER F0003

When a heavy creature such as a squirrel climbs onto the feeder, its weight pushes the perch down, closing the seed ports. Squirrels, and large birds, are foiled without being harmed.

<b>SMALL</b>	<b>£23.75</b>
<b>MEDIUM</b>	<b>£43.75</b>
<b>LARGE</b>	<b>£63.75</b>

## THE ONE FEEDERS

The One feeders are made to last, constructed from high quality plastic. Quick clean - the twist-off base removes to let husks and seeds escape. Available for Seed, Niger Seed + Peanuts in 3 Sizes.

<b>SMALL</b>	<b>£10.95</b>
<b>MEDIUM</b>	<b>£10.95</b>
<b>LARGE</b>	<b>£17.00</b>

## BELLE FAT FEEDER F0018

The Belle has been designed to hold standard fat balls, fruit and kitchen scraps. It can also be used to hold nesting material such as wool.

Available in White, Mushroom & Grey

**£27.50**

## I LOVE ROBINS FEEDER F9332

As a delightful feeder for any garden this is an ideal focal point for robins and other small birds to bring a flash of colour to every garden. It's also easily adjustable to discourage larger birds, and to protect food from rain and snow.

**£12.25**

## OBSERVER FEEDER F0001

Three powerful suction cups fix the feeder firmly to the glass, but are easily released when it comes time for cleaning.

Also suitable for feeding seeds.

Made from clear plastic, with a lifetime guarantee.

**£14.25**

Shop online at [www.wigglywigglers.co.uk](http://www.wigglywigglers.co.uk)

## NESTING WREATH

**P7902**

It contains everything your birds will need for a great home. We make these in our Floristry and all the products are locally sourced - Farmer Phil's straw and hay, swartbles fleece, pheasant feathers, grasses and wheat.

**£25.00**

## OPEN FRONTED NEST BOX

**P3349**

Some birds, including Wag-tails and Blackbirds amongst others, can't be bothered with all that squeezing through tight holes to get into their nest. For them we offer this nest box.

**£24.50**

## PLAIN WOOD NEST BOX **F0078**

Attractive and natural Plain Wood log nest boxes, specially rebuilt to prevent splitting. The thick sides provide good insulation for nesting birds.

**£19.95**

## NEW DESIGN NEST BOX

Our standard nest box range is designed to house a wide variety of birds. The most popular nest box is the 32mm model, it will attract most of the birds listed below but, knowing how fussy our British Birds can be, we offer three sizes:

The 25mm hole suits Blue Tits, Coal Tits, Marsh Tits, Treecreepers and very small birds.

The 28mm hole suits Tree Sparrows and larger Tits.

The 32mm hole suits Nuthatch and Pied Flycatchers.

Available plain or with metal reinforcing.

<b>STANDARD</b>	
<b>25MM + 28MM + 32MM</b>	<b>£24.50</b>
<b>REINFORCED</b>	
<b>25MM + 28MM + 32MM</b>	<b>£26.00</b>

*The species you will attract depends on where your box is sited!*

## HOW TO ORDER

## HOW YOU CAN HELP US HELP YOU

**1:** If you have a problem or an idea please let us know. We want to get things right and be at the very top of our game.

Contact me [heather@wigglywiggles.co.uk](mailto:heather@wigglywiggles.co.uk)

**2:** Photos. Thanks to ALL the Wiggly customers for the many photos that you have sent in (and that we have used in our catalogue and on our website). If you would like a photo used we would love to see your David Bailey moments. It's much better for us to have photography of real stuff in action... Thanks.

**3:** If you enjoy our service and products please tell your friends - retweet us on Twitter, like us on Facebook and talk about us if you can. We have no advertising budget, and so the way we sustain your prices and service is by word of mouth marketing... Thanks for chatting and spreading the word, we appreciate it.

## WIGGLY DELIVERY DETAILS

### WAITING IN FOR DELIVERIES IS A NUISANCE WE ALL SHARE. WE OFFER A FEW SOLUTIONS WHICH WE HOPE WILL... UM... DELIVER!

- 1** We have a "no signature" contract with the courier service we use. This means the driver will leave your parcel in a safe place if need be: just remember to tell us where you want the parcel leaving when you order! Alternatively, we can deliver your parcel to a different address, of course.
- 2** Choose a next-day delivery priority service and we will despatch straight away. (Please note that remote areas do take longer.)
- 3** Our Standard Delivery Charge is £3.95, and next-day is £5.95.
- 4** Some products are only available at certain times of the year. These will automatically be despatched at the right time.
- 5** Please note we are a working farm, so can't have visitors & we don't take credit or debit cards on site.
