

**RECYCLE YOUR FLOORING**  
**Local, social, environmental**

We guarantee  
no carpet tiles are  
sent to landfill or  
incinerated.

# The Flooring Reuse/Recycling Scheme

## WE COLLECT, RECEIVE AND UPLIFT PREVIOUS ON-SITE USED CARPET TILES

- ✓ Bitumen or PVC backed carpet tiles
- ✓ Tiles tacked not glued to floor
- ✓ Full tiles palletised and shrink-wrapped
- ✓ Offcuts in builders sacks on pallets
- ✓ Minimum of 2 pallets/200m<sup>2</sup> stacked max height 1.2m from the ground
- ✓ Dry carpet tiles only, ideally stored inside or minimum tarpaulin covered
- ✓ Pallets available at ground floor access point for min 18 tonnes vehicle.

### BENEFITS FOR YOUR BUSINESS

- ✓ Site co-ordination around customer time-scales
- ✓ Full certification for you/your customer
- ✓ Over ten years experience of collecting/receiving carpet tiles from sites around the UK.

**We guarantee that  
none of the material  
we deal with is  
sent to landfill  
or incinerated.**

# Where does all the material go?

## Environmental:

We use the waste hierarchy as it should be used, i.e. we manually sort and re-grade all the tiles ensuring that 'second life is first choice' and only then do we recycle, not landfill, the residual.

## Social:

A large percentage of our carpet tiles provide low cost essential warmth and comfort to people on low incomes. We provide hundreds of social housing tenants per year with your carpet tiles providing basic insulation, warmth and dignity to those not able to afford carpet.

As a social enterprise, we provide training and employment to work-disadvantaged individuals and provide free carpet to low income community groups and individuals. Your material supports this!

Since 2012 we've reused or recycled 625,000m<sup>2</sup> of carpet material 50% of which was given a second-life for social/community benefit, the rest being recycled in the UK.
