

HOW TO FIT CARPET TILES

PREPARATION

Clear you space, clean any debris and dust.

LAY OUT A CROSS

Start in the centre and create a cross with the carpet tiles in the room.

FILL IN THE GAPS

Lay the carpet tiles tight to each other and fill in the rest of the cross.

FITTING EDGES

Put the carpet tile you want to cut under the last whole tile, lay it tight to the wall. Mark where you need to cut it.

CUTTING THE EDGE

Cut along the mark and place it in the gap. Always cut from the back of the tile.

FINISH

Do this for all the edges and corners and finsh fitting all the carpet tiles.
