2. Software Audio Settings

After AM200 is set up on the PC, how to set it in common software? (Take Adobe Audition, OBS, DISCORD, ZOOM, AUDACITY, Twitch as examples.) Notice: If you set the AM200 as the default device in the software settings, it is still useless, you need to set it again!

Adobe Audition:

STEP 1: Open Adobe Audition and navigate through the menu to

Edit > Preferences--> Audio Hardware

STEP 2: Please select the device as MAONO AU-AM200 for Default input and

Default output.
