PUTTING SUSTAINABILITY AT THE FOREFRONT OF EVERYTHING WE DO IS CRUCIAL.

We use **100%** renewable energy*

0% Formaldehyde binders and very low VOCs in our products

We generate **40%** of our power through solar panels installed at our warehouse and factory

60% post consumer waste recycled content in our felt

280 – average number of recycled plastic bottles in each 2440mm x 1220mm felt panel

Investing in sustainable, innovative materials including mycelium and hemp.

*for all UK manufacturing processes.

OUR COLOUR RANGE

We take inspiration for our products and colours from nature and have introduced a range of exciting and unique bird-inspired colours. As humans we have an innate desire to connect with nature and there's increasing evidence showing that this is vital for our wellbeing and happiness. We want to make it as easy as possible for architects, interior designers and specifiers to include elements of biophilic design in their projects and our bird-inspired colour range is an innovative and easy way of connecting the built environment to nature.

 Rosella RED	 Rosella RED FLECK	 Oriole ORANGE	 Oriole ORANGE FLECK
 Lark MUSTARD FLECK	 Flamingo PINK	 Chaffinch CORAL	
 Siskin SAND YELLOW

 Warbler SAGE GREEN			
 Goldcrest GREEN FLECK		 Peacock TEAL FLECK	
 Mallard TEAL	 Kingfisher BLUE FLECK	 Jacarina BLUE FLECK	 Swallow DARK BLUE

 Sabrewing PURPLE FLECK	 Wheatear BEIGE	 Wheatear BEIGE FLECK	 Owl DARK BEIGE FLECK
 Dollarbird BLUE GREY FLECK		 Sanderling GREY	
 Heron GREY	 Skua GREY	 Raven BLACK	 Dove WHITE

ACOUSTIC CEILINGS

Ceilings play an important role in managing acoustics but they are often left behind when it comes to creativity. We have designed an exciting range of acoustic ceiling treatments that are not only functional but are visually exciting too.

- ◆ Range includes suspended acoustic ceiling baffles, acoustic rafts and acoustic lattices
- ◆ Designs include simple shapes, patterns and biophilic elements to more complex lattice designs for truly stunning acoustic ceilings
- ◆ Available in a range of 30 bird-inspired colours
- ◆ Printed options available for projects that want the look of hard surfaces such as wood and concrete whilst improving reverberation
- ◆ Easily retro-fitted to existing ceilings
- ◆ Designed and manufactured in UK
- ◆ No formaldehyde binders
- ◆ Low VOCs
- ◆ Fire Rating EN 13501-1:2007+a1:2009 - B, s1, d0 ASTM E84-16 Class A

ELEVATING ACOUSTICS

NEXUS

Nexus is our latest acoustic ceiling system designed to reduce noise without compromising the visual aesthetics of a space. The system is completely modular and customisable. Accessories such as lighting and planting can be installed alongside Nexus to create statement ceilings for those projects that need an extra bit of magic.

Nexus acoustic ceiling solution

Nexus acoustic ceiling solution

- ◆ Innovative modular acoustic ceiling system
- ◆ Designed and manufactured in the UK
- ◆ Made from 60% recycled PET
- ◆ Versatile – can be configured to fit any space
- ◆ Innovative way to introduce biophilic elements by adding live plants
- ◆ Unique way to manage acoustics and create a statement on the ceiling
- ◆ Unrivalled in the marketplace in terms of quality of printed wood finishes and quality of baffles, including details such as end caps
- ◆ Available in realistic wood finishes and our 30 bird-inspired colours

BREEZECURVE

BreezeCurve is a truly unique product in terms of acoustic ceiling solutions. The ability to install bespoke curved ceiling baffles to a space will not only provide a stunning statement ceiling but also help create calm throughout. BreezeCurve baffles are available in a range of colours and can be made to bespoke sizes and curves depending on your specific needs.

- ◆ Unique curved acoustic ceiling baffles
- ◆ Totally bespoke design options available
- ◆ Ideal for creating a visual statement
- ◆ Available in 30-bird-inspired colours

FIKA mycelium wall tile - Dart

FIKA

FIKA is a revolutionary new acoustic wall tile made from mycelium and hemp. Mycelium is a totally natural root-like structure of a fungus and industrial hemp is increasingly being grown as a more sustainable material option. FIKA tiles have been designed by our in-house designers and are grown in the UK. The tiles are 100% biodegradable and completely safe for use across all commercial settings.

- ◆ Made from totally natural materials mycelium and hemp
- ◆ 100% Biodegradable (Biodegradable Product Institute Certified)
- ◆ Declared Red-List free
- ◆ VOC free
- ◆ Aldehyde free
- ◆ Designed in-house and grown in the UK exclusively for AllSfär
- ◆ Range of striking angular and curved designs available
- ◆ Easy to install using a simple screw mechanism
- ◆ Tiles can be rotated on site to create different designs
- ◆ Available in a range of Earthborn clay paint colours to match scheme palette and soft furnishings
- ◆ Very effective acoustic properties

FIKA mycelium wall tile - ZEN

LULL ACOUSTIC SCREENS

Using space efficiently will be key in the new office landscape. Lull suspended acoustic screens allow designers and architects to define different zones within open-plan spaces allowing people choice and flexibility over where they work, depending on the task and their personality style.

- ◆ Easily hung to ceilings creating quiet, private zones ideal for focused work
- ◆ Sliding track option allowing screens to move for added flexibility
- ◆ Provide an element of visual interest, texture and creativity to office spaces
- ◆ Feature a range of designs including geometric, biophilic and bespoke options
- ◆ Ideal solution for efficient space organisation
- ◆ Made from 60% recycled PET from plastic bottles
- ◆ Completely safe for the office with no formaldehyde binders and low VOCs
- ◆ Reduce reverberation across open-plan, flexible and co-working spaces

ACOUSTIC ZONING

Lull suspended acoustic screens

Lull suspended acoustic screens

Lull suspended acoustic screens

CREATING QUIET AND CALM

Lull acoustic screens can be easily suspended from ceilings to create floating walls and separate zones within open-plan spaces. The sliding track option allows you to create flexible zones that can be adapted to suit different needs. They are a great way of creating a space within a space as well as adding visual interest. Why not create a bespoke design to reflect client branding adding a little design flair to projects?

Lull suspended acoustic screens

Öra 3D floor standing screen

ORBIT FLOOR STANDING SCREENS

Our floor-standing screens are designed to be strong and versatile to ensure they meet the demands of today's fast-changing work environments. The free-standing screens offer privacy and discretion and can be easily moved helping to create a calm, quiet space within busy open-plan offices.

Orbit floor standing screen
