CWARMOR™
LEONIDAS BLANKET

Leonidas Ballistic Blankets are designed and manufactured in the USA according to strict quality guidelines using state of the art manufacturing equipment and processes. Built to exceed military and law enforcement standards, the Leonidas Blanket is high quality and the most cost effective solution on the market today. Look no further, there is no comparison to the Leonidas Ballistic Blanket when it comes to cost, performance and weight.

Leonidas Blankets are designed to withstand ballistic and shrapnel threats of all types based on level of protection. The ballistic design incorporates our exclusive Kevlar weave that is used in our signature soft armor vests. Leonidas Blankets are versatile and can be deployed easily in a tactical situation especially when time is critical. It improves the chances of survival from high velocity handgun rounds, ballistic and IED shrapnel threats for operators from our military, law enforcement agencies, fire/EMS agencies and any other security personnel when deployed.

Leonidas Ballistic Blankets are 0101.06 independently tested and designed to stop Level IIIA threats from high velocity handgun rounds in addition to shrapnel and fragments from various types of ballistics and IED's. A combination of Aramid based proprietary ballistic materials, provide multi-hit protection with minimal trauma to the operator.

Features

- Thinness: 0.25"
- Protection Level: Level IIIA Stand Alone
